

CHAPTER 09 QUESTION BANK

CLASS II ENGLISH — 6 QUESTION CATEGORIES (300 QUESTIONS)

MCQs — Chapter 09: The Himalayas

Category: Multiple Choice Questions | **Total:** 50 Questions | **Marks:** 1 each

Question 1

- Question ID: BK02_CH09_MCQ_001
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Sanskrit Meaning
- Marks: 1

Question: What does the Sanskrit word 'Himalaya' mean?

- (A) Abode of snow
- (B) Mountain of trees
- (C) Home of rivers
- (D) Land of clouds

- Answer Key: (A) — Himalaya comes from Him + Alaya meaning 'abode of snow'.

Question 2

- Question ID: BK02_CH09_MCQ_002
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Name Reason
- Marks: 1

Question: Why are the Himalayas called the 'abode of snow'?

- (A) Because its lofty peaks are covered with snow all the year round
- (B) Because it only rains there
- (C) Because ice cream grows there
- (D) Because the rocks are white

- Answer Key: (A) — The lofty peaks are covered with snow all year round.

Question 3

- Question ID: BK02_CH09_MCQ_003
- Type: MCQ
- Difficulty: Easy

- **Bloom Level:** Remembering
- **Topic:** Length
- **Marks:** 1

Question: How long does the Himalayan mountain system stretch from west to east?

- (A) Almost 2,500 kilometers
- (B) 500 kilometers
- (C) 10,000 kilometers
- (D) 100 kilometers

- **Answer Key: (A)** — It stretches for almost 2,500 kilometers from west to east.

Question 4

- **Question ID:** BK02_CH09_MCQ_004
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Highest Peaks
- **Marks:** 1

Question: How many of Earth's 10 highest peaks are located in the Himalayas?

- (A) Nine
- (B) Five
- (C) Three
- (D) Seven

- **Answer Key: (A)** — Nine of Earth's 10 highest peaks are Himalayan.

Question 5

- **Question ID:** BK02_CH09_MCQ_005
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Highest Peak Name
- **Marks:** 1

Question: What is the world's highest mountain peak?

- (A) Mount Everest
- (B) K2
- (C) Mount Kanchenjunga
- (D) Mount Fuji

- **Answer Key: (A)** — Mount Everest is the world's highest peak.

Question 6

- **Question ID:** BK02_CH09_MCQ_006
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering

- **Topic:** Everest Height
- **Marks:** 1

Question: How high is Mount Everest in metres?

- (A) 8,849 metres
- (B) 5,000 metres
- (C) 1,000 metres
- (D) 12,000 metres

- **Answer Key: (A) — Mount Everest is 8,849 metres high.**

Question 7

- **Question ID:** BK02_CH09_MCQ_007
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Geographic Location
- **Marks:** 1

Question: Mount Everest lies on the border between Nepal and which other region?

- (A) Tibet Autonomous Region of China
- (B) India
- (C) Bhutan
- (D) Myanmar

- **Answer Key: (A) — It lies on the border between Nepal and Tibet (China).**

Question 8

- **Question ID:** BK02_CH09_MCQ_008
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Himalayan River
- **Marks:** 1

Question: Which of the following major rivers originates in the Himalayas?

- (A) The Ganges
- (B) The Nile
- (C) The Amazon
- (D) The Thames

- **Answer Key: (A) — The Ganges, Indus, and Brahmaputra originate in the Himalayas.**

Question 9

- **Question ID:** BK02_CH09_MCQ_009
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Three Major Rivers

- Marks: 1

Question: Which three major rivers originate in the Himalayas?

- (A) The Indus, the Ganges, and the Brahmaputra
- (B) The Nile, the Amazon, and the Mississippi
- (C) The Yamuna, the Kaveri, and the Krishna only
- (D) The Rhine, the Danube, and the Seine

- Answer Key: (A) — The Indus, Ganges, and Brahmaputra originate there.

Question 10

- Question ID: BK02_CH09_MCQ_010

- Type: MCQ

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: First Climbers

- Marks: 1

Question: Who were the first two climbers to reach the summit of Mount Everest?

- (A) Edmund Hillary and Sherpa Tenzing Norgay
- (B) George Mallory and Andrew Irvine
- (C) Neil Armstrong and Buzz Aldrin
- (D) Christopher Columbus and Vasco da Gama

- Answer Key: (A) — Edmund Hillary and Sherpa Tenzing Norgay were the first.

Question 11

- Question ID: BK02_CH09_MCQ_011

- Type: MCQ

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Hillary Nationality

- Marks: 1

Question: Which country was Edmund Hillary from?

- (A) New Zealand
- (B) Australia
- (C) England
- (D) Canada

- Answer Key: (A) — Edmund Hillary was a New Zealander.

Question 12

- Question ID: BK02_CH09_MCQ_012

- Type: MCQ

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Tenzing Norgay

- Marks: 1

Question: Who was the famous Sherpa climber who climbed Mount Everest with Edmund Hillary?

- (A) Tenzing Norgay
- (B) Ang Rita
- (C) Kami Rita
- (D) Pemba

- **Answer Key: (A) — Sherpa Tenzing Norgay climbed with Edmund Hillary.**

Question 13

- **Question ID:** BK02_CH09_MCQ_013
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Topic:** Vocabulary
- **Marks:** 1

Question: What does the word 'abode' mean according to the word meaning box?

- (A) The place where one lives
- (B) A tall mountain
- (C) Cold water
- (D) A deep valley

- **Answer Key: (A) — Abode is defined as the place where one lives.**

Question 14

- **Question ID:** BK02_CH09_MCQ_014
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Topic:** Vocabulary
- **Marks:** 1

Question: What does the word 'lofty' mean?

- (A) Very tall and impressive
- (B) Small and round
- (C) Dark and scary
- (D) Soft and wet

- **Answer Key: (A) — Lofty means very tall and impressive.**

Question 15

- **Question ID:** BK02_CH09_MCQ_015
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Direction
- **Marks:** 1

Question: In which direction does the Himalayan mountain range stretch?

- (A) From west to east
- (B) From north to south
- (C) From east to south
- (D) From central to west

- Answer Key: (A) — It stretches from west to east.

Question 16

- Question ID: BK02_CH09_MCQ_016
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Comparison
- Marks: 1

Question: Does any other mountain range on Earth compare to the scale of the Himalayas?

- (A) No, no other mountain range compares to the Himalayas
- (B) Yes, the Alps are bigger
- (C) Yes, all hills are equal
- (D) No, hills are bigger than mountains

- Answer Key: (A) — No other mountain range on Earth compares.

Question 17

- Question ID: BK02_CH09_MCQ_017
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Peak Coverage
- Marks: 1

Question: What is Mount Everest covered with throughout the year?

- (A) Snow and ice
- (B) Sand and dust
- (C) Green grass
- (D) Red flowers

- Answer Key: (A) — The lofty peaks are covered with snow all year round.

Question 18

- Question ID: BK02_CH09_MCQ_018
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Summit Year
- Marks: 1

Question: In which year did Edmund Hillary and Tenzing Norgay reach the summit of Mount Everest?

- (A) 1953

- (B) 1853
- (C) 1999
- (D) 2010

- Answer Key: (A) — They reached the summit in 1953.

Question 19

- Question ID: BK02_CH09_MCQ_019
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Geography Term
- Marks: 1

Question: What is the top of a mountain called?

- (A) Summit or peak
- (B) Cave
- (C) Valley
- (D) Riverbed

- Answer Key: (A) — The top of a mountain is called the summit or peak.

Question 20

- Question ID: BK02_CH09_MCQ_020
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Cultural Relevance
- Marks: 1

Question: Which river originating in the Himalayas is considered holy in India?

- (A) The Ganges
- (B) The Nile
- (C) The Danube
- (D) The Congo

- Answer Key: (A) — The Ganges river is famous and originates in the Himalayas.

Question 21

- Question ID: BK02_CH09_MCQ_021
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Continent
- Marks: 1

Question: Are the Himalayas located in Asia?

- (A) Yes
- (B) No

- (C) Located in South America
- (D) Located in Europe

- Answer Key: (A) — The Himalayas are in Asia across India, Nepal, Tibet, etc.

Question 22

- Question ID: BK02_CH09_MCQ_022
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Vocabulary
- Marks: 1

Question: What is a person who climbs high mountains called?

- (A) A mountaineer
- (B) A sailor
- (C) A pilot
- (D) A driver

- Answer Key: (A) — A person who climbs mountains is a mountaineer.

Question 23

- Question ID: BK02_CH09_MCQ_023
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Height Fact
- Marks: 1

Question: Is Mount Everest higher than 8,000 metres?

- (A) Yes, it is 8,849 metres high
- (B) No, it is 2,000 metres
- (C) No, it is 500 metres
- (D) It changes height daily

- Answer Key: (A) — Yes, it is 8,849 metres high.

Question 24

- Question ID: BK02_CH09_MCQ_024
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Etymology
- Marks: 1

Question: What does 'Him' stand for in the Sanskrit compound 'Him + Alaya'?

- (A) Snow
- (B) Sky
- (C) Stone

(D) Sun

- Answer Key: (A) — 'Him' means snow in Sanskrit.

Question 25

- Question ID: BK02_CH09_MCQ_025
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Chapter Title
- Marks: 1

Question: What is the title of Chapter 09?

- (A) The Himalayas
- (B) Mount Everest
- (C) Abode of Snow
- (D) The Three Rivers

- Answer Key: (A) — Chapter 09 is titled 'The Himalayas'.

Question 26

- Question ID: BK02_CH09_MCQ_026
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Understanding
- Topic: River Origin Importance
- Marks: 1

Question: Why are the Himalayas vital to the water supply of South Asia?

- (A) Because major rivers like the Indus, Ganges, and Brahmaputra originate from melting Himalayan glaciers
- (B) Because it rains every hour
- (C) Because people carry water there
- (D) Because the mountains are made of ice cream

- Answer Key: (A) — Melting glaciers feed major river systems like Ganges, Indus, Brahmaputra.

Question 27

- Question ID: BK02_CH09_MCQ_027
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Analyzing
- Topic: Climate Role
- Marks: 1

Question: How does the extreme height of the Himalayas affect weather and climate?

- (A) Its lofty snow peaks act as a natural barrier blocking cold northern winds and trapping monsoons
- (B) It makes the sun disappear permanently
- (C) It turns summer into hot desert
- (D) It has no effect on weather

- Answer Key: (A) — Acts as a massive natural climate barrier.

Question 28

- Question ID: BK02_CH09_MCQ_028
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Evaluating
- Topic: Historic Achievement
- Marks: 1

Question: What makes the 1953 climb by Hillary and Norgay a historic milestone in human history?

- (A) It proved that human bravery, physical endurance, and teamwork could conquer Earth's highest peak
- (B) They flew a helicopter to the top
- (C) They built a hotel on Everest
- (D) They drove a car up the mountain

- Answer Key: (A) — First human conquest of Earth's highest summit.

Question 29

- Question ID: BK02_CH09_MCQ_029
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Understanding
- Topic: Sherpa Expertise
- Marks: 1

Question: Why is Sherpa Tenzing Norgay's local knowledge crucial to mountain climbing?

- (A) Sherpas possess innate high-altitude adaptation and deep knowledge of hazardous mountain routes
- (B) Sherpas own all the mountain land
- (C) Sherpas use magic carpets
- (D) Sherpas carry helicopters

- Answer Key: (A) — Sherpas possess specialized high-altitude skill and local knowledge.

Question 30

- Question ID: BK02_CH09_MCQ_030
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Analyzing
- Topic: Etymological Analysis
- Marks: 1

Question: How does the Sanskrit breakdown 'Him + Alaya' describe the mountain range perfectly?

- (A) 'Him' (snow) + 'Alaya' (abode/house) literally describes a land permanently housed under snow
- (B) It means house of rocks
- (C) It means place of water
- (D) It means green forest

- Answer Key: (A) — Snow + Abode perfectly describes the snow-covered peaks.

Question 31

- Question ID: BK02_CH09_MCQ_031
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Understanding
- Topic: Border Significance
- Marks: 1

Question: What is the geographical significance of Mount Everest lying on the Nepal-Tibet border?

- (A) It acts as a natural physical boundary connecting and separating two distinct geographic regions
- (B) It causes wars between countries
- (C) It means half the mountain is invisible
- (D) It belongs to the ocean

- Answer Key: (A) — Acts as a natural geographic border.

Question 32

- Question ID: BK02_CH09_MCQ_032
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Analyzing
- Topic: Geological Scale
- Marks: 1

Question: Why do 9 out of Earth's 10 highest peaks exist in the single range of the Himalayas?

- (A) Because tectonic plate collisions created an extraordinarily concentrated zone of high-altitude uplift
- (B) Because people piled up rocks there
- (C) Because the sun pulls mountains higher there
- (D) Because it is near the ocean

- Answer Key: (A) — Massive tectonic uplift created concentrated high peaks.

Question 33

- Question ID: BK02_CH09_MCQ_033
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Understanding
- Topic: Mountaineering Hardships
- Marks: 1

Question: What challenges do mountaineers face when climbing 8,849 metres up Mount Everest?

- (A) Freezing cold, thin air with low oxygen, steep icy cliffs, and fierce blizzards
- (B) Hot sand and camels
- (C) Wild lions in the snow
- (D) Too many trees blocking the path

- Answer Key: (A) — Extreme cold, low oxygen, blizzards, steep ice.

Question 34

- **Question ID:** BK02_CH09_MCQ_034
- **Type:** MCQ
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** Permanent Snow
- **Marks:** 1

Question: How do the snow-capped peaks of the Himalayas remain white all year round?

- (A) High altitude keeps temperatures below freezing, preserving snow and ice permanently
- (B) People paint them white
- (C) Salt covers the tops
- (D) Clouds fall on them daily

- **Answer Key: (A) — Freezing high-altitude temperatures preserve permanent snow.**

Question 35

- **Question ID:** BK02_CH09_MCQ_035
- **Type:** MCQ
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** River Classification
- **Marks:** 1

Question: Why are the Ganges, Indus, and Brahmaputra called 'Himalayan Rivers'?

- (A) Because their source waters spring directly from Himalayan snowfields and glaciers
- (B) Because they flow uphill into mountains
- (C) Because they are named after mountains
- (D) Because they only flow in winter

- **Answer Key: (A) — Sources originate from Himalayan snow and glaciers.**

Question 36

- **Question ID:** BK02_CH09_MCQ_036
- **Type:** MCQ
- **Difficulty:** Medium
- **Bloom Level:** Evaluating
- **Topic:** Climber Traits
- **Marks:** 1

Question: What personality traits enabled Edmund Hillary and Tenzing Norgay to succeed?

- (A) Determination, courage, physical stamina, and mutual trust
- (B) Laziness and anger
- (C) Fear and panic
- (D) Carelessness

- **Answer Key: (A) — Determination, courage, stamina, and mutual trust.**

Question 37

- Question ID: BK02_CH09_MCQ_037
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Applying
- Topic: Educational Value
- Marks: 1

Question: How does Chapter 09 foster geographical awareness among Class 2 students?

- (A) By teaching mountain terminology, peak heights, country borders, and river origins
- (B) By asking them to draw fictional maps
- (C) By teaching computer programming
- (D) By memorizing city street names

- Answer Key: (A) — Teaches real physical geography, rivers, and borders.

Question 38

- Question ID: BK02_CH09_MCQ_038
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Analyzing
- Topic: Physical Geography Contrast
- Marks: 1

Question: What is the difference between a hill and a lofty mountain peak like Everest?

- (A) Hills are low, gentle elevations; lofty peaks are majestic, multi-thousand-metre snow-covered structures
- (B) Hills are taller than mountains
- (C) Mountains have no rocks
- (D) Hills are made of ice

- Answer Key: (A) — Elevation, scale, and permanent snow cover.

Question 39

- Question ID: BK02_CH09_MCQ_039
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Evaluating
- Topic: Agricultural Impact
- Marks: 1

Question: Why is snow melt from the Himalayas vital for agriculture in India?

- (A) River waters fed by melting snow irrigate vast fertile plains during hot dry months
- (B) Farmers use snow directly on crops
- (C) Snow cools down tractor engines
- (D) Snow turns into wheat

- Answer Key: (A) — Glacial melt feeds river irrigation across fertile plains.

Question 40

- **Question ID:** BK02_CH09_MCQ_040
- **Type:** MCQ
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** Climbing Tech
- **Marks:** 1

Question: What safety equipment do modern mountaineers carry that early climbers lacked?

- (A) Advanced oxygen tanks, thermal suits, satellite GPS, and lightweight climbing gear
- (B) Heavy iron chains and wooden boots
- (C) Flaming torches
- (D) Umbrellas

- **Answer Key: (A) — Modern oxygen, thermal gear, GPS, and lightweight equipment.**

Question 41

- **Question ID:** BK02_CH09_MCQ_041
- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Topic:** HOTS Dual Role
- **Marks:** 1

Question: Analyze how the Himalayas function as both a physical barrier and a life-giving water tower for Asia.

- (A) Physical barrier: blocks arctic winds and monsoon loss; Water tower: feeds major rivers sustaining over a billion people
- (B) Physical barrier: stops birds from flying; Water tower: stores bottled water
- (C) It only serves as a tourist spot
- (D) It blocks all rain from entering Asia

- **Answer Key: (A) — Climate barrier and freshwater reservoir for millions.**

Question 42

- **Question ID:** BK02_CH09_MCQ_042
- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Topic:** Ecological Fragility
- **Marks:** 1

Question: Evaluate the ecological fragility of high-altitude Himalayan ecosystems.

- (A) Global warming accelerates glacial retreat, threatening river water supplies and causing unpredictable natural disasters
- (B) High mountains cannot be affected by climate change
- (C) Glaciers grow faster when it gets warm
- (D) Snow never melts under any condition

- **Answer Key: (A) — Glacial retreat threatens water security and causes disasters.**

Question 43

- **Question ID:** BK02_CH09_MCQ_043

- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Topic:** Scale Deconstruction
- **Marks:** 1

Question: Deconstruct the physical scale of the Himalayas (2,500 km length, 8,849 m height, 9 of 10 top peaks).

- (A) Enormous length spanning multiple nations combined with unmatched vertical elevation creates Earth's most formidable landform
- (B) It is a small hill range in one country
- (C) The numbers are fictional
- (D) Height is less than average buildings

- **Answer Key: (A) — Unmatched horizontal span and vertical elevation.**

Question 44

- **Question ID:** BK02_CH09_MCQ_044
- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Topic:** Historical Comparison
- **Marks:** 1

Question: Compare the achievement of climbing Mount Everest in 1953 versus climbing it today.

- (A) 1953: uncharted routes, primitive gear, supreme risk; Today: mapped trails, commercial guides, advanced weather tracking
- (B) 1953 was easy; today is impossible
- (C) Gear was identical in both eras
- (D) No one climbs Everest today

- **Answer Key: (A) — Pioneering risk vs modern commercialized expeditions.**

Question 45

- **Question ID:** BK02_CH09_MCQ_045
- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Topic:** Spiritual Significance
- **Marks:** 1

Question: Assess the cultural and spiritual significance of the Himalayas in Indian heritage.

- (A) Revered as sacred 'Abode of Gods' (Devbhumi), inspiring ancient literature, pilgrimage, and spiritual contemplation
- (B) Seen only as a mining site
- (C) Ignored in ancient scriptures
- (D) Used only for sports

- **Answer Key: (A) — Sacred Devbhumi, inspiration for literature and spirituality.**

Question 46

- **Question ID:** BK02_CH09_MCQ_046

- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Topic:** Civilizational Impact
- **Marks:** 1

Question: How do the Indus, Ganges, and Brahmaputra rivers shape the civilizational history of South Asia?

- (A) Perennial river flow created fertile alluvial plains that nurtured ancient civilizations, agriculture, and major cities
- (B) The rivers caused people to abandon Asia
- (C) The rivers flow only through deserts
- (D) The rivers are dry sand beds

- **Answer Key: (A) — Nurtured fertile plains, agriculture, and ancient civilizations.**

Question 47

- **Question ID:** BK02_CH09_MCQ_047
- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Topic:** Partnership Dynamics
- **Marks:** 1

Question: Examine the teamwork dynamics between Sir Edmund Hillary and Sherpa Tenzing Norgay.

- (A) True partnership: Hillary's endurance and Norgay's high-altitude mastery combined equally to achieve human conquest
- (B) Hillary climbed alone while Norgay waited below
- (C) Norgay carried Hillary on his back
- (D) They competed angrily on the mountain

- **Answer Key: (A) — Complementary skills, mutual trust, and equal partnership.**

Question 48

- **Question ID:** BK02_CH09_MCQ_048
- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Topic:** Poetic & Scientific Accuracy
- **Marks:** 1

Question: Why is the phrase 'Abode of Snow' a poetically and scientifically accurate description of the Himalayas?

- (A) Poetic: evokes majestic beauty; Scientific: holds the largest mass of ice and snow outside the polar regions
- (B) It means snow falls in summer only
- (C) It means the mountains are man-made
- (D) It is inaccurate because there is no snow

- **Answer Key: (A) — Largest non-polar ice mass + poetic aesthetic beauty.**

Question 49

- **Question ID:** BK02_CH09_MCQ_049
- **Type:** MCQ

- **Difficulty:** Hard
- **Bloom Level:** Creating
- **Topic:** Roof of World Concept
- **Marks:** 1

Question: Formulate a geographical summary explaining why Mount Everest is called the 'Roof of the World'.

- (A) Standing at 8,849 metres on the Tibetan border, its summit reaches higher into the atmosphere than any other point on Earth
- (B) Because houses on Everest have flat roofs
- (C) Because it covers the sky like a ceiling
- (D) Because rain starts from its top

- **Answer Key:** (A) — Highest elevation point reaching into Earth's atmosphere.

Question 50

- **Question ID:** BK02_CH09_MCQ_050
- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Topic:** Core Synthesis
- **Marks:** 1

Question: Synthesize the key learnings of Chapter 09 for young Class 2 learners.

- (A) Respect nature's awe-inspiring scale, appreciate vital water sources, and draw courage from pioneers who conquer great heights!
- (B) Avoid visiting mountains
- (C) Snow is dangerous and useless
- (D) Rivers are unneeded for life

- **Answer Key:** (A) — Nature's majesty, vital water sources, and human courage.

Fill in the Blanks — Chapter 09: The Himalayas

Category: Fill in the Blanks | **Total:** 50 Questions | **Marks:** 1 each

Question 1

- **Question ID:** BK02_CH09_FIB_001
- **Type:** Fill in the Blanks
- **Difficulty:** Easy
- **Marks:** 1

Question: The word 'Himalaya' comes from Him and Alaya, meaning abode of _____ in Sanskrit.

- **Answer Key:** snow (Abode of snow.)

Question 2

- Question ID: BK02_CH09_FIB_002
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: The lofty peaks of the Himalayas are covered with snow all the _____ round.

- Answer Key: year (Covered with snow all year round.)

Question 3

- Question ID: BK02_CH09_FIB_003
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: The Himalayas stretch for almost _____ kilometers from west to east.

- Answer Key: 2,500 (Stretches for almost 2,500 km.)

Question 4

- Question ID: BK02_CH09_FIB_004
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: The Himalayas stretch from west to _____.

- Answer Key: east (From west to east.)

Question 5

- Question ID: BK02_CH09_FIB_005
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: Nine of Earth's _____ highest peaks are Himalayan.

- Answer Key: 10 (9 of Earth's 10 highest peaks.)

Question 6

- Question ID: BK02_CH09_FIB_006
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: The world's highest peak is Mount _____.

- Answer Key: Everest (Mount Everest is the highest peak.)

Question 7

- Question ID: BK02_CH09_FIB_007
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: Mount Everest is _____ metres high.

- Answer Key: 8,849 (8,849 metres high.)

Question 8

- Question ID: BK02_CH09_FIB_008
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: Mount Everest lies on the border between Nepal and the Tibet Autonomous Region of _____.

- Answer Key: China (Border of Nepal and Tibet (China).)

Question 9

- Question ID: BK02_CH09_FIB_009
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: Three important rivers—the Indus, the Ganges, and the _____ originate in the Himalayas.

- Answer Key: Brahmaputra (Indus, Ganges, Brahmaputra.)

Question 10

- Question ID: BK02_CH09_FIB_010
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: The river Ganges originates in the _____.

- Answer Key: Himalayas (Ganges originates in Himalayas.)

Question 11

- Question ID: BK02_CH09_FIB_011
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: The river Indus originates in the _____.

- Answer Key: Himalayas (Indus originates in Himalayas.)

Question 12

- Question ID: BK02_CH09_FIB_012
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: In the 1950s, mountaineers reached the summit of Mount Everest in _____.

- Answer Key: 1953 (Reached summit in 1953.)

Question 13

- Question ID: BK02_CH09_FIB_013
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: The New Zealander who climbed Mount Everest was Edmund _____.

- Answer Key: Hillary (Edmund Hillary.)

Question 14

- Question ID: BK02_CH09_FIB_014
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: The Sherpa who climbed Mount Everest with Hillary was Tenzing _____.

- Answer Key: Norgay (Tenzing Norgay.)

Question 15

- Question ID: BK02_CH09_FIB_015
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: The word 'abode' means the place where one _____.

- Answer Key: lives (Place where one lives.)

Question 16

- Question ID: BK02_CH09_FIB_016
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: The word 'lofty' means very tall and _____.

- Answer Key: impressive (Very tall and impressive.)

Question 17

- Question ID: BK02_CH09_FIB_017
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: Mount Everest is located on the border of _____ and Tibet.

- Answer Key: Nepal (Border of Nepal and Tibet.)

Question 18

- Question ID: BK02_CH09_FIB_018
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: A person who climbs high mountains is called a _____.

- Answer Key: mountaineer (Called a mountaineer.)

Question 19

- Question ID: BK02_CH09_FIB_019
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: The top of a mountain is called its summit or _____.

- Answer Key: peak (Summit or peak.)

Question 20

- Question ID: BK02_CH09_FIB_020
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: Himalayan peaks are covered in white _____.

- Answer Key: snow (Covered in white snow.)

Question 21

- Question ID: BK02_CH09_FIB_021
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: Mount Everest is the highest peak in the _____.

- Answer Key: world (Highest peak in the world.)

Question 22

- Question ID: BK02_CH09_FIB_022
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: The Brahmaputra is a major _____ originating in the Himalayas.

- Answer Key: river (Brahmaputra is a river.)

Question 23

- Question ID: BK02_CH09_FIB_023
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: Sherpa Tenzing Norgay was an expert mountain _____.

- Answer Key: climber (Expert mountain climber/guide.)

Question 24

- Question ID: BK02_CH09_FIB_024
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: Edmund Hillary was a mountaineer from New _____.

- Answer Key: Zealand (From New Zealand.)

Question 25

- Question ID: BK02_CH09_FIB_025
- Type: Fill in the Blanks
- Difficulty: Easy
- Marks: 1

Question: Chapter 09 is titled 'The _____'.

- Answer Key: Himalayas (Titled 'The Himalayas'.)

Question 26

- Question ID: BK02_CH09_FIB_026
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: The vast range of the Himalayas acts as a natural wall across northern _____.

- Answer Key: India (Across northern India/Asia.)

Question 27

- Question ID: BK02_CH09_FIB_027
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: Glaciers in the Himalayas melt during summer to feed perennial _____.

- Answer Key: rivers (Feeds perennial rivers.)

Question 28

- Question ID: BK02_CH09_FIB_028
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: Reaching the summit of Mount Everest requires climbing to an altitude of 8,849 _____.

- Answer Key: metres (Altitude of 8,849 metres.)

Question 29

- Question ID: BK02_CH09_FIB_029
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: Sherpas are famous for their skill and endurance in high-altitude _____.

- Answer Key: mountaineering (High-altitude mountaineering.)

Question 30

- Question ID: BK02_CH09_FIB_030
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: The Ganges river is essential for farming in the northern _____ of India.

- Answer Key: plains (Northern plains of India.)

Question 31

- Question ID: BK02_CH09_FIB_031
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: Cold winds from the north are blocked by the _____ mountain wall.

- Answer Key: Himalayan (Himalayan mountain wall.)

Question 32

- Question ID: BK02_CH09_FIB_032
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: Mount Everest's extreme height makes the air very _____ near the summit.

- Answer Key: thin (Air is very thin/low oxygen.)

Question 33

- Question ID: BK02_CH09_FIB_033
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: The Brahmaputra river flows through Tibet, India, and _____.

- Answer Key: Bangladesh (Flows through Tibet, India, Bangladesh.)

Question 34

- Question ID: BK02_CH09_FIB_034
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: High mountains covered in permanent snow are called snow-_____ peaks.

- Answer Key: capped (Snow-capped peaks.)

Question 35

- Question ID: BK02_CH09_FIB_035
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: In 1953, Hillary and Norgay achieved human victory over Earth's highest _____.

- Answer Key: point (Earth's highest point/peak.)

Question 36

- Question ID: BK02_CH09_FIB_036
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: The Sanskrit word 'Alaya' translates to house or _____.

- Answer Key: abode (Translates to house/abode.)

Question 37

- Question ID: BK02_CH09_FIB_037
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: Melting ice from Himalayan glaciers forms the source of freshwater for millions of _____.

- Answer Key: people (Freshwater for millions.)

Question 38

- Question ID: BK02_CH09_FIB_038
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: Climbing Mount Everest tests human physical _____ and mental courage.

- Answer Key: stamina (Physical stamina and courage.)

Question 39

- Question ID: BK02_CH09_FIB_039
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: Nepal and China share the geographical border where Mount _____ stands.

- Answer Key: Everest (Mount Everest stands.)

Question 40

- Question ID: BK02_CH09_FIB_040
- Type: Fill in the Blanks
- Difficulty: Medium
- Marks: 1

Question: The Himalayas contain nine out of ten of the highest peaks on _____.

- Answer Key: Earth (Highest peaks on Earth.)

Question 41

- Question ID: BK02_CH09_FIB_041
- Type: Fill in the Blanks
- Difficulty: Hard
- Marks: 1

Question: The Himalayan mountain system represents a colossal geological _____.

- Answer Key: uplift (Colossal geological uplift.)

Question 42

- Question ID: BK02_CH09_FIB_042
- Type: Fill in the Blanks
- Difficulty: Hard
- Marks: 1

Question: Perennial river origin in the Himalayas ensures continuous water supply to South Asian _____.

- Answer Key: agriculture (Supply to South Asian agriculture.)

Question 43

- Question ID: BK02_CH09_FIB_043
- Type: Fill in the Blanks
- Difficulty: Hard
- Marks: 1

Question: Edmund Hillary and Tenzing Norgay's historic conquest took place on May 29, _____.

- Answer Key: 1953 (May 29, 1953.)

Question 44

- Question ID: BK02_CH09_FIB_044
- Type: Fill in the Blanks
- Difficulty: Hard
- Marks: 1

Question: The Tibetan name for Mount Everest is Qomolangma, while in Nepal it is called _____.

- Answer Key: Sagarmatha (Called Sagarmatha in Nepal.)

Question 45

- Question ID: BK02_CH09_FIB_045
- Type: Fill in the Blanks
- Difficulty: Hard
- Marks: 1

Question: High-altitude hypoxia occurs because atmospheric pressure decreases with increasing _____.

- Answer Key: elevation (Decreases with increasing elevation.)

Question 46

- Question ID: BK02_CH09_FIB_046
- Type: Fill in the Blanks
- Difficulty: Hard
- Marks: 1

Question: The Himalayas act as the third polar ice reservoir on Planet _____.

- Answer Key: Earth (Third polar ice reservoir on Earth.)

Question 47

- Question ID: BK02_CH09_FIB_047
- Type: Fill in the Blanks
- Difficulty: Hard
- Marks: 1

Question: Sustaining Himalayan ecological stability is crucial for global climate _____.

- Answer Key: balance (Crucial for climate balance.)

Question 48

- Question ID: BK02_CH09_FIB_048
- Type: Fill in the Blanks
- Difficulty: Hard
- Marks: 1

Question: The expedition led by John Hunt in 1953 put Hillary and Norgay on the final _____.

- Answer Key: assault (Final assault/summit push.)

Question 49

- Question ID: BK02_CH09_FIB_049
- Type: Fill in the Blanks

- Marks: 1

Question: Glacial rivers carry nutrient-rich silt down to the fertile Gangetic _____.

- Answer Key: valley (Fertile Gangetic valley/plains.)

Question 50

- Question ID: BK02_CH09_FIB_050
- Type: Fill in the Blanks
- Difficulty: Hard
- Marks: 1

Question: Conquering Mount Everest demonstrated the ultimate power of human determination over extreme _____.

- Answer Key: nature (Determination over extreme nature.)

True / False — Chapter 09: The Himalayas

Category: True / False | **Total:** 50 Questions | **Marks:** 1 each

Question 1

- Question ID: BK02_CH09_TF_001
- Type: True/False
- Difficulty: Easy

- Marks: 1

Statement: The word 'Himalaya' means 'abode of snow' in Sanskrit.

- Answer Key: True — Him + Alaya = abode of snow.

Question 2

- Question ID: BK02_CH09_TF_002

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: The peaks of the Himalayas are covered with snow only in winter.

- Answer Key: False — They are covered with snow all the year round.

Question 3

- Question ID: BK02_CH09_TF_003

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: The Himalayas stretch for almost 2,500 kilometers from west to east.

- Answer Key: True — They stretch for almost 2,500 km west to east.

Question 4

- Question ID: BK02_CH09_TF_004

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Nine of Earth's 10 highest peaks are in the Himalayas.

- Answer Key: True — Nine out of 10 highest peaks are Himalayan.

Question 5

- Question ID: BK02_CH09_TF_005

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Mount Everest is the highest mountain peak in the world.

- Answer Key: True — Mount Everest is the world's highest peak.

Question 6

- Question ID: BK02_CH09_TF_006

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Mount Everest is 8,849 metres high.

- Answer Key: True — It is 8,849 metres high.

Question 7

- Question ID: BK02_CH09_TF_007

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Mount Everest is located entirely inside India.

- Answer Key: False — It lies on the border between Nepal and Tibet (China).

Question 8

- Question ID: BK02_CH09_TF_008

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: The Ganges river originates in the Himalayas.

- Answer Key: True — The Ganges originates in the Himalayas.

Question 9

- Question ID: BK02_CH09_TF_009

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: The Nile river originates in the Himalayas.

- Answer Key: False — The Nile is in Africa; Indus, Ganges, and Brahmaputra originate in the Himalayas.

Question 10

- Question ID: BK02_CH09_TF_010

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Edmund Hillary and Tenzing Norgay were the first to reach the summit of Mount Everest.

- Answer Key: True — They reached the summit first in 1953.

Question 11

- Question ID: BK02_CH09_TF_011

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Edmund Hillary was a mountaineer from Australia.

- Answer Key: False — Edmund Hillary was a New Zealander.

Question 12

- Question ID: BK02_CH09_TF_012

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Tenzing Norgay was a Sherpa climber.

- Answer Key: True — He was Sherpa Tenzing Norgay.

Question 13

- Question ID: BK02_CH09_TF_013

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: The word 'abode' means a place where one lives.

- Answer Key: True — Abode is defined as the place where one lives.

Question 14

- Question ID: BK02_CH09_TF_014

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: The word 'lofty' means very small and low.

- Answer Key: False — Lofty means very tall and impressive.

Question 15

- Question ID: BK02_CH09_TF_015

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: The Himalayas stretch from north to south.

- Answer Key: False — They stretch from west to east.

Question 16

- Question ID: BK02_CH09_TF_016

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: The Brahmaputra river originates in the Himalayas.

- Answer Key: True — The Brahmaputra originates in the Himalayas.

Question 17

- Question ID: BK02_CH09_TF_017

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: The Indus river originates in the Himalayas.

- Answer Key: True — The Indus originates in the Himalayas.

Question 18

- Question ID: BK02_CH09_TF_018

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Mount Everest is less than 5,000 metres high.

- Answer Key: False — Mount Everest is 8,849 metres high.

Question 19

- Question ID: BK02_CH09_TF_019

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Hillary and Norgay reached the summit of Mount Everest in 1953.

- Answer Key: True — They reached the summit in 1953.

Question 20

- Question ID: BK02_CH09_TF_020

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: There are no rivers originating in the Himalayas.

- Answer Key: False — Indus, Ganges, Brahmaputra, and many others originate there.

Question 21

- Question ID: BK02_CH09_TF_021

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Sherpa Tenzing Norgay was born in New Zealand.

- Answer Key: False — Edmund Hillary was from New Zealand; Tenzing Norgay was a local Sherpa.

Question 22

- Question ID: BK02_CH09_TF_022

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: The Himalayas are the tallest mountain range on Earth.

- Answer Key: True — No other mountain range on Earth compares to the Himalayas.

Question 23

- Question ID: BK02_CH09_TF_023

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Snow on Himalayan peaks melts completely during summer.

- Answer Key: False — Lofty peaks remain covered with snow all the year round.

Question 24

- Question ID: BK02_CH09_TF_024

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Mountaineers climb high peaks for sport and exploration.

- Answer Key: True — Mountaineers climb high peaks for exploration and sport.

Question 25

- Question ID: BK02_CH09_TF_025

- Type: True/False

- Difficulty: Easy

- Marks: 1

Statement: Chapter 09 is titled 'The Himalayas'.

- Answer Key: True — Chapter 09 is titled 'The Himalayas'.

Question 26

- Question ID: BK02_CH09_TF_026

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: The Himalayas provide freshwater to major South Asian rivers.

- Answer Key: True — Glaciers feed rivers like Ganges, Indus, and Brahmaputra.

Question 27

- Question ID: BK02_CH09_TF_027

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: Mount Everest is situated on the border between Nepal and Tibet.

- Answer Key: True — It sits on the border between Nepal and Tibet (China).

Question 28

- Question ID: BK02_CH09_TF_028

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: All ten of Earth's highest peaks are located outside Asia.

- Answer Key: False — Nine of Earth's 10 highest peaks are in the Himalayas in Asia.

Question 29

- Question ID: BK02_CH09_TF_029

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: The name 'Him + Alaya' was given because the mountains are always green.

- Answer Key: False — It means 'abode of snow' because the peaks are covered in snow all year.

Question 30

- Question ID: BK02_CH09_TF_030

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: Edmund Hillary and Tenzing Norgay climbed Mount Everest without any preparation.

- Answer Key: False — Mountaineering Everest required extensive team planning, gear, and endurance.

Question 31

- Question ID: BK02_CH09_TF_031

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: The Ganges river is vital for agriculture in northern India.

- Answer Key: True — The Ganges supplies water for vast agricultural plains.

Question 32

- Question ID: BK02_CH09_TF_032

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: Air becomes thinner and oxygen decreases as mountaineers climb higher up Everest.

- Answer Key: True — High altitude features thin air and low oxygen levels.

Question 33

- Question ID: BK02_CH09_TF_033

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: The Himalayas stretch over a distance of 2,500 kilometers.

- Answer Key: True — They stretch for almost 2,500 km from west to east.

Question 34

- Question ID: BK02_CH09_TF_034

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: Sherpas are well-known for their expertise in guiding Himalayan climbing expeditions.

- Answer Key: True — Sherpas are famous for high-altitude climbing skill and guidance.

Question 35

- Question ID: BK02_CH09_TF_035

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: Mount Everest's height is measured as 8,849 metres above sea level.

- Answer Key: True — It is 8,849 metres above sea level.

Question 36

- Question ID: BK02_CH09_TF_036

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: The Indus river flows into the Atlantic Ocean.

- Answer Key: False — The Indus flows into the Arabian Sea.

Question 37

- Question ID: BK02_CH09_TF_037

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: Cold weather and freezing temperatures keep snow on Himalayan peaks year-round.

- Answer Key: True — Freezing high-altitude temperatures preserve permanent snow.

Question 38

- Question ID: BK02_CH09_TF_038

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: The 1953 Everest expedition was led by Edmund Hillary alone.

- Answer Key: False — It was a team expedition; Hillary and Norgay were the summit pair.

Question 39

- Question ID: BK02_CH09_TF_039

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: The Himalayas act as a geographical barrier between Central and South Asia.

- Answer Key: True — The range forms a massive physical barrier between regions.

Question 40

- Question ID: BK02_CH09_TF_040

- Type: True/False

- Difficulty: Medium

- Marks: 1

Statement: Learning about Mount Everest teaches students about physical geography and endurance.

- Answer Key: True — It covers geography, height, climate, and human courage.

Question 41

- Question ID: BK02_CH09_TF_041

- Type: True/False

- Difficulty: Hard

- Marks: 1

Statement: The Himalayas hold the largest body of ice outside the Polar regions.

- Answer Key: True — The Himalayas are often called the 'Third Pole' due to vast ice reserves.

Question 42

- Question ID: BK02_CH09_TF_042

- Type: True/False

- Difficulty: Hard

- Marks: 1

Statement: Glacial melting in the Himalayas has no impact on river water levels.

- Answer Key: False — Glacial melt directly supplies spring and summer flow to major rivers.

Question 43

- Question ID: BK02_CH09_TF_043

- Type: True/False

- Difficulty: Hard

- Marks: 1

Statement: Tenzing Norgay and Edmund Hillary reached the summit of Everest on May 29, 1953.

- Answer Key: True — May 29, 1953 was the exact date of their summit success.

Question 44

- Question ID: BK02_CH09_TF_044

- Type: True/False

- Difficulty: Hard

- Marks: 1

Statement: Mount Everest is growing slightly higher every year due to tectonic activity.

- Answer Key: True — Tectonic collision continues to push the Himalayas upward slowly.

Question 45

- Question ID: BK02_CH09_TF_045

- Type: True/False

- Difficulty: Hard

- Marks: 1

Statement: The word 'lofty' describes low, flat plains near river basins.

- Answer Key: False — Lofty means very tall, majestic, and impressive.

Question 46

- Question ID: BK02_CH09_TF_046

- Type: True/False

- Difficulty: Hard

- Marks: 1

Statement: The Brahmaputra river is known as the Yarlung Tsangpo in Tibet.

- Answer Key: True — In Tibet, the Brahmaputra is called Yarlung Tsangpo.

Question 47

- Question ID: BK02_CH09_TF_047

- Type: True/False

- Difficulty: Hard

- Marks: 1

Statement: Edmund Hillary was knighted by Queen Elizabeth II for his Everest climb.

- Answer Key: True — He became Sir Edmund Hillary after the successful 1953 climb.

Question 48

- Question ID: BK02_CH09_TF_048

- Type: True/False

- Difficulty: Hard

- Marks: 1

Statement: The Himalayas stretch across five countries: India, Nepal, Bhutan, China, and Pakistan.

- Answer Key: True — The Himalayan system spans across these five South Asian nations.

Question 49

- Question ID: BK02_CH09_TF_049

- Type: True/False

- Difficulty: Hard

- Marks: 1

Statement: Thin atmospheric oxygen at 8,849 metres poses no risk to human life.

- Answer Key: False — Low oxygen (hypoxia) poses extreme life-threatening risk to climbers.

Question 50

- Question ID: BK02_CH09_TF_050

- Type: True/False

- Difficulty: Hard

- Marks: 1

Statement: Chapter 09 combines etymology, physical geography, and historical exploration.

- Answer Key: True — It covers word origin (Sanskrit), geographical facts, and 1953 climbing history.

Short Answer Questions — Chapter 09: The Himalayas

Category: Short Answer | **Total:** 50 Questions | **Marks:** 2 each

Question 1

- Question ID: BK02_CH09_SA_001
- Type: Short Answer
- Difficulty: Easy

Question: What covers the lofty peaks of the Himalayas throughout the year?

- **Answer Key:** Permanent snow and ice cover the lofty peaks all year round.

Question 12

- **Question ID:** BK02_CH09_SA_012
- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 2

Question: What nationality was Edmund Hillary?

- **Answer Key:** Edmund Hillary was a mountaineer from New Zealand.

Question 13

- **Question ID:** BK02_CH09_SA_013
- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 2

Question: Who was Tenzing Norgay?

- **Answer Key:** Tenzing Norgay was a famous local Sherpa mountaineer who climbed Mount Everest with Hillary.

Question 14

- **Question ID:** BK02_CH09_SA_014

- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 2

Question: Why are the Himalayas famous around the world?

- **Answer Key:** They are famous because they form the highest mountain range on Earth, containing Mount Everest and 9 of the top 10 peaks.

Question 15

- **Question ID:** BK02_CH09_SA_015
- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Marks:** 2

Question: What is a summit?

- **Answer Key:** The summit is the highest point or top peak of a mountain.

Question 16

- **Question ID:** BK02_CH09_SA_016
- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 2

Question: Does the Ganges river originate in the Himalayas?

- **Answer Key:** Yes, the Ganges river originates in the Himalayas.

Question 17

- **Question ID:** BK02_CH09_SA_017
- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 2

Question: Does the Indus river originate in the Himalayas?

- **Answer Key:** Yes, the Indus river originates in the Himalayas.

Question 18

- **Question ID:** BK02_CH09_SA_018
- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 2

Question: Does the Brahmaputra river originate in the Himalayas?

- **Answer Key:** Yes, the Brahmaputra river originates in the Himalayas.

Question 19

- **Question ID:** BK02_CH09_SA_019
- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Marks:** 2

Question: What happens to snow on the Himalayas during warmer months?

- **Answer Key:** Glacial snow slowly melts, supplying freshwater to major rivers like the Ganges.

Question 20

- **Question ID:** BK02_CH09_SA_020
- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Marks:** 2

Question: Why is Mount Everest dangerous to climb?

- **Answer Key:** It is dangerous due to extreme freezing cold, thin air with low oxygen, steep ice, and blizzards.

Question 21

- **Question ID:** BK02_CH09_SA_021
- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Marks:** 2

Question: What is a Sherpa?

- **Answer Key:** A Sherpa is an ethnic group from the Himalayan region of Nepal, renowned for expert mountain climbing skills.

Question 22

- **Question ID:** BK02_CH09_SA_022
- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 2

Question: In which direction do the Himalayas stretch?

- **Answer Key:** They stretch from west to east.

Question 23

- **Question ID:** BK02_CH09_SA_023

- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 2

Question: How high is Mount Everest in metres?

- **Answer Key:** Mount Everest is 8,849 metres high.

Question 24

- **Question ID:** BK02_CH09_SA_024
- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Marks:** 2

Question: Why are rivers originating in the Himalayas important for people?

- **Answer Key:** They supply essential freshwater for drinking, farming, and daily life for millions of people.

Question 25

- **Question ID:** BK02_CH09_SA_025
- **Type:** Short Answer
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 2

Question: What is the title of Chapter 09?

- **Answer Key:** The title of Chapter 09 is 'The Himalayas'.

Question 26

- **Question ID:** BK02_CH09_SA_026
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Marks:** 2

Question: Why are the Himalayas referred to as the 'Water Tower of Asia'?

- **Answer Key:** Because their massive glaciers store frozen freshwater that feeds major rivers like the Ganges, Indus, and Brahmaputra, providing water for millions.

Question 27

- **Question ID:** BK02_CH09_SA_027
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Marks:** 2

Question: Explain the literal breakdown of the Sanskrit word 'Himalaya'.

- **Answer Key:** 'Him' means snow, and 'Alaya' means abode or home. Together, 'Himalaya' translates literally to 'Abode of Snow'.

Question 28

- **Question ID:** BK02_CH09_SA_028
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Marks:** 2

Question: How does Mount Everest's location on the Nepal-Tibet border affect mountaineering expeditions?

- **Answer Key:** Climbers can attempt to reach the summit from either the southern route in Nepal or the northern route in Tibet (China).

Question 29

- **Question ID:** BK02_CH09_SA_029
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Marks:** 2

Question: What makes the Himalayas unique compared to all other mountain ranges on Earth?

- **Answer Key:** No other range compares in elevation: it spans 2,500 km and contains 9 of the 10 highest mountain peaks on Planet Earth.

Question 30

- **Question ID:** BK02_CH09_SA_030
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Evaluating
- **Marks:** 2

Question: Describe the achievement of Edmund Hillary and Tenzing Norgay in 1953.

- **Answer Key:** They became the first human beings in recorded history to successfully stand on the 8,849-metre summit of Mount Everest, proving human courage.

Question 31

- **Question ID:** BK02_CH09_SA_031
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Marks:** 2

Question: Why is high altitude climbing difficult for human breathing?

- **Answer Key:** At high altitudes like 8,849 metres, atmospheric pressure drops, making the air thin and containing much less oxygen.

Question 32

- Question ID: BK02_CH09_SA_032
- Type: Short Answer
- Difficulty: Medium
- Bloom Level: Analyzing
- Marks: 2

Question: How do the Himalayas influence India's climate?

- Answer Key: The massive mountain wall blocks freezing arctic winds from Central Asia and traps moisture-laden monsoon winds inside India.

Question 33

- Question ID: BK02_CH09_SA_033
- Type: Short Answer
- Difficulty: Medium
- Bloom Level: Understanding
- Marks: 2

Question: What role do Sherpas play in Mount Everest expeditions?

- Answer Key: Sherpas act as expert guides, fix climbing ropes, carry heavy supplies, and use their high-altitude adaptation to ensure safety.

Question 34

- Question ID: BK02_CH09_SA_034
- Type: Short Answer
- Difficulty: Medium
- Bloom Level: Evaluating
- Marks: 2

Question: Why is the Ganges river considered a lifeline for northern India?

- Answer Key: The Ganges flows from Himalayan glaciers across fertile plains, supplying irrigation water for crops and drinking water for cities.

Question 35

- Question ID: BK02_CH09_SA_035
- Type: Short Answer
- Difficulty: Medium
- Bloom Level: Remembering
- Marks: 2

Question: What equipment do mountaineers use when climbing Mount Everest?

- Answer Key: They use oxygen tanks, insulated thermal suits, spiked boots (crampons), climbing ropes, ice axes, and tents.

Question 36

- Question ID: BK02_CH09_SA_036

- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Marks:** 2

Question: Summarize Page 34 of the textbook in two sentences.

- **Answer Key:** The Himalayas ('abode of snow' in Sanskrit) stretch 2,500 km from west to east and contain 9 of Earth's 10 highest peaks, including Mount Everest (8,849 m). Major rivers like the Indus, Ganges, and Brahmaputra originate here, and Hillary and Norgay first conquered Everest in 1953.

Question 37

- **Question ID:** BK02_CH09_SA_037
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Marks:** 2

Question: How long is the Himalayan range compared to a country like India?

- **Answer Key:** Stretching 2,500 km, the range spans almost the entire northern border of India from west to east.

Question 38

- **Question ID:** BK02_CH09_SA_038
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Evaluating
- **Marks:** 2

Question: Why are permanent snow peaks important for earth's ecosystem?

- **Answer Key:** They store frozen freshwater, reflect solar heat, regulate regional temperatures, and feed rivers during dry seasons.

Question 39

- **Question ID:** BK02_CH09_SA_039
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Evaluating
- **Marks:** 2

Question: What qualities did Tenzing Norgay and Edmund Hillary share?

- **Answer Key:** Both possessed extraordinary physical stamina, determination, courage, humility, and trust in each other.

Question 40

- **Question ID:** BK02_CH09_SA_040
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Applying
- **Marks:** 2

Question: How does Chapter 09 build geographical vocabulary for Class 2 students?

- **Answer Key:** It introduces key terms like abode, lofty, summit, peak, range, border, glacier, and river origin.

Question 41

- **Question ID:** BK02_CH09_SA_041
- **Type:** Short Answer
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Marks:** 2

Question: Critique the environmental impact of modern commercial tourism on Mount Everest.

- **Answer Key:** Commercial expeditions cause severe littering (oxygen bottles, food packaging), trail overcrowding, and pollution, threatening the delicate high-altitude ecosystem.

Question 42

- **Question ID:** BK02_CH09_SA_042
- **Type:** Short Answer
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Marks:** 2

Question: Analyze how the geological formation of the Himalayas created Earth's highest landform.

- **Answer Key:** The collision of the Indian tectonic plate with the Eurasian plate pushed up marine sediments, creating immense vertical uplift and 9 of the 10 highest peaks.

Question 43

- **Question ID:** BK02_CH09_SA_043
- **Type:** Short Answer
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Marks:** 2

Question: Deconstruct the 1953 Everest expedition teamwork model.

- **Answer Key:** Success required team coordination: logistics managers, route-finding Sherpas, support climbers stocking high camps, and the final summit pair (Hillary and Norgay).

Question 44

- **Question ID:** BK02_CH09_SA_044
- **Type:** Short Answer
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Marks:** 2

Question: Compare the source and course of the Indus, Ganges, and Brahmaputra rivers.

- **Answer Key:** All three spring from Himalayan glaciers: the Indus flows west into the Arabian Sea; the Ganges flows southeast through India; the Brahmaputra flows east through Tibet before turning south into India and Bangladesh.

Question 45

- Question ID: BK02_CH09_SA_045
- Type: Short Answer
- Difficulty: Hard
- Bloom Level: Evaluating
- Marks: 2

Question: Evaluate the spiritual significance of the Himalayas in Indian literature and culture.

- Answer Key: In Indian culture, the Himalayas are revered as Devbhumi (Land of Gods), serving as a retreat for sages, a symbol of stability, and inspiration for sacred texts.

Question 46

- Question ID: BK02_CH09_SA_046
- Type: Short Answer
- Difficulty: Hard
- Bloom Level: Applying
- Marks: 2

Question: How can a school teacher explain altitude and air density to young students using Mount Everest?

- Answer Key: The teacher can explain that air is like stacked blankets: at sea level, many blankets press down (thick air); on top of Everest, few blankets press down (thin air).

Question 47

- Question ID: BK02_CH09_SA_047
- Type: Short Answer
- Difficulty: Hard
- Bloom Level: Evaluating
- Marks: 2

Question: Assess the impact of global warming on Himalayan glaciers.

- Answer Key: Rising temperatures accelerate glacial melting, causing dangerous glacial lake outbursts initially, followed by long-term river drying that threatens Asia's water supply.

Question 48

- Question ID: BK02_CH09_SA_048
- Type: Short Answer
- Difficulty: Hard
- Bloom Level: Analyzing
- Marks: 2

Question: Why is Tenzing Norgay's success significant for indigenous Himalayan communities?

- Answer Key: Norgay's historic achievement proved the world-class climbing mastery of local Sherpa people, bringing international respect and economic opportunities to Nepal.

Question 49

- Question ID: BK02_CH09_SA_049
- Type: Short Answer
- Difficulty: Hard
- Bloom Level: Creating
- Marks: 2

Question: Formulate a short descriptive paragraph depicting the view from the summit of Mount Everest.

- Answer Key: 'Standing on the 8,849-metre summit of Mount Everest, the world unfolds beneath you. Snow-capped Himalayan peaks pierce the deep blue sky like silent white giants, while giant glaciers curve down into deep, quiet valleys below.'

Question 50

- Question ID: BK02_CH09_SA_050
- Type: Short Answer
- Difficulty: Hard
- Bloom Level: Evaluating
- Marks: 2

Question: Synthesize the main educational lesson of Chapter 09 for young Class 2 learners.

- Answer Key: Appreciate the majestic scale of nature, respect the vital rivers that sustain life, and remember that with courage, trust, and hard work, humans can conquer the highest peaks!

Long Answer Questions — Chapter 09: The Himalayas

Category: Long Answer | **Total:** 50 Questions | **Marks:** 5 each

Question 1

- Question ID: BK02_CH09_LA_001
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 5

Question: Describe the meaning of the word 'Himalaya' in Sanskrit and why the mountain range is called by this name.

- Answer Key: The word 'Himalaya' is derived from two Sanskrit words: 'Him' meaning snow, and 'Alaya' meaning abode or house. Together, Himalaya means 'abode of snow'. It was given this beautiful name because its lofty, majestic peaks reach so high into the freezing sky that they remain permanently covered with snow and ice all the year round, looking like a grand house made of snow.

Question 2

- Question ID: BK02_CH09_LA_002
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 5

Question: Detail the geographic scale of the Himalayas, including its length and highest peaks.

- **Answer Key:** The Himalayas form a massive mountain system stretching for almost 2,500 kilometers from west to east across South Asia. It is the most impressive mountain range on Earth. Remarkably, 9 out of Planet Earth's 10 highest mountain peaks are located in the Himalayas. The tallest of all is Mount Everest, standing at 8,849 metres high on the border between Nepal and Tibet (China).

Question 3

- **Question ID:** BK02_CH09_LA_003
- **Type:** Long Answer
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 5

Question: Name the three major rivers that originate in the Himalayas and explain their importance.

- **Answer Key:** The three major rivers originating in the Himalayas are:

1. The Indus
2. The Ganges
3. The Brahmaputra

These rivers are formed by the melting of snowfields and glaciers. They flow down into the plains, providing essential drinking water, fertile soil, and crop irrigation for hundreds of millions of people.

Question 4

- **Question ID:** BK02_CH09_LA_004
- **Type:** Long Answer
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 5

Question: Describe the historic first climb of Mount Everest in 1953 by Hillary and Norgay.

- **Answer Key:** In 1953, a famous mountaineering expedition tackled Mount Everest. On May 29, 1953, New Zealander Edmund Hillary and local Sherpa Tenzing Norgay braved freezing winds, steep ice, and thin air to become the first human beings to reach the 8,849-metre summit. Their victory proved that human courage, physical endurance, and teamwork could conquer Earth's highest point.

Question 5

- **Question ID:** BK02_CH09_LA_005
- **Type:** Long Answer
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Marks:** 5

Question: Explain the meanings of the vocabulary words 'abode' and 'lofty' as used in Chapter 09.

- **Answer Key:** 1. **Abode:** Refers to a home, dwelling place, or place where one lives permanently (e.g., house of snow).

2. **Lofty:** Refers to something that is extremely tall, majestic, high up in the sky, and visually impressive (e.g., lofty snow peaks).

Question 6

- Question ID: BK02_CH09_LA_006
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Marks: 5

Question: Why are the Himalayas important for the climate and agriculture of India?

- Answer Key: The Himalayas serve as a giant natural wall along India's northern border. They block cold arctic winds from Central Asia, keeping India warm. They also trap rain-bearing monsoon clouds, causing rainfall across Indian fields. In summer, melting Himalayan snow feeds rivers like the Ganges, supplying vital water for farming.

Question 7

- Question ID: BK02_CH09_LA_007
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 5

Question: What is Mount Everest, where is it located, and how tall is it?

- Answer Key: Mount Everest is the highest mountain peak in the world. It stands at an elevation of 8,849 metres above sea level. It is located in Asia, positioned directly on the international border between the country of Nepal and the Tibet Autonomous Region of China.

Question 8

- Question ID: BK02_CH09_LA_008
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Marks: 5

Question: Who are the Sherpas and why are they famous in mountain climbing history?

- Answer Key: Sherpas are an ethnic community living in the high mountain valleys of the Himalayas in Nepal. They are world-famous in mountaineering history because their bodies are naturally adapted to high altitudes. They possess unparalleled route-finding skills, physical strength, and courage, guiding international climbers up Everest.

Question 9

- Question ID: BK02_CH09_LA_009
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Marks: 5

Question: How does the snow on the Himalayas help supply freshwater to rivers?

- Answer Key: The lofty Himalayan peaks collect huge amounts of snow every winter. During the warmer spring and summer months, the sun slowly melts the edges of these high glaciers and snowfields. This melted water trickles down mountain streams to form giant, permanent rivers like the Ganges and Indus.

Question 10

- Question ID: BK02_CH09_LA_010
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Marks: 5

Question: What moral values can students learn from the story of Edmund Hillary and Tenzing Norgay?

- Answer Key: Students learn that setting high goals requires preparation, perseverance, and bravery. Climbing Everest showed that when two people from different backgrounds trust each other and work as a team, they can achieve historic goals that seemed impossible.

Question 11

- Question ID: BK02_CH09_LA_011
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 5

Question: Why is Mount Everest called the highest peak on Earth?

- Answer Key: It is called the highest peak because its summit reaches 8,849 metres above sea level, higher than any other mountain top on Planet Earth.

Question 12

- Question ID: BK02_CH09_LA_012
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Marks: 5

Question: Explain the stretch of the Himalayas from west to east.

- Answer Key: The Himalayas form a huge crescent-shaped mountain arc stretching nearly 2,500 kilometers across northern South Asia, from Pakistan and India through Nepal, Bhutan, and China.

Question 13

- Question ID: BK02_CH09_LA_013
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Marks: 5

Question: What challenges do mountaineers face when climbing in the Himalayas?

- Answer Key: Mountaineers face extreme freezing temperatures, fierce blizzards, avalanches, steep ice walls, and dangerous thin air with very low oxygen levels.

Question 14

- Question ID: BK02_CH09_LA_014
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Marks: 5

Question: Why are 9 of the 10 highest peaks in the world found in the Himalayas?

- Answer Key: Geological plate collisions pushed the land upward with immense force, creating a dense cluster of the tallest mountain peaks on Earth in one continuous range.

Question 15

- Question ID: BK02_CH09_LA_015
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Marks: 5

Question: What role does the Ganges river play in the lives of millions of people?

- Answer Key: The Ganges provides fresh drinking water, feeds agricultural fields, supports wildlife, and holds deep cultural and spiritual reverence for millions of people in India.

Question 16

- Question ID: BK02_CH09_LA_016
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Marks: 5

Question: How did Edmund Hillary and Tenzing Norgay prepare for their final summit push?

- Answer Key: They set up high-altitude camps, used artificial oxygen bottles, checked weather conditions, tied themselves together with climbing ropes, and worked as a coordinated team.

Question 17

- Question ID: BK02_CH09_LA_017
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 5

Question: What makes the Himalayas look so beautiful and majestic?

- Answer Key: Their giant, soaring heights, crisp blue skies, glistening white snow peaks, giant blue ice glaciers, and green valley bases create breathtaking natural beauty.

Question 18

- Question ID: BK02_CH09_LA_018
- Type: Long Answer
- Difficulty: Easy

- **Bloom Level:** Understanding
- **Marks:** 5

Question: Why does the air become cold at the top of high mountains like Everest?

- **Answer Key:** As altitude increases, atmospheric pressure drops and air becomes thinner, making it unable to hold heat, leading to permanent sub-zero freezing temperatures.

Question 19

- **Question ID:** BK02_CH09_LA_019
- **Type:** Long Answer
- **Difficulty:** Easy
- **Bloom Level:** Applying
- **Marks:** 5

Question: How does Chapter 09 encourage children to appreciate geography?

- **Answer Key:** By introducing exciting real-world facts—the world's highest peak (Everest), giant rivers (Ganges), famous climbers, and Sanskrit word origins.

Question 20

- **Question ID:** BK02_CH09_LA_020
- **Type:** Long Answer
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Marks:** 5

Question: Describe the journey of a raindrop or snowflake in the Himalayas.

- **Answer Key:** It falls as snow on a lofty peak, turns into glacial ice, slowly melts in summer sun, trickles into a mountain stream, joins the Ganges river, and flows across plains to the ocean.

Question 21

- **Question ID:** BK02_CH09_LA_021
- **Type:** Long Answer
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 5

Question: Why is New Zealand proud of Sir Edmund Hillary?

- **Answer Key:** Edmund Hillary put New Zealand in international history books by becoming the first person, along with Tenzing Norgay, to stand on top of the world on Mount Everest.

Question 22

- **Question ID:** BK02_CH09_LA_022
- **Type:** Long Answer
- **Difficulty:** Easy
- **Bloom Level:** Analyzing
- **Marks:** 5

Question: What is the difference between climbing a small hill and climbing Mount Everest?

- **Answer Key:** A hill takes an hour of walking in normal air. Everest requires months of training, specialized ice gear, oxygen tanks, Sherpa guides, and surviving deadly weather.

Question 23

- **Question ID:** BK02_CH09_LA_023
- **Type:** Long Answer
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Marks:** 5

Question: Why do major rivers flow continuously even in hot dry summers?

- **Answer Key:** Because hot summer sun melts high Himalayan snow and glaciers, maintaining steady river flow when rain is scarce.

Question 24

- **Question ID:** BK02_CH09_LA_024
- **Type:** Long Answer
- **Difficulty:** Easy
- **Bloom Level:** Evaluating
- **Marks:** 5

Question: How does the title 'Abode of Snow' capture the essence of the Himalayas?

- **Answer Key:** It captures both the physical reality (permanent snow and ice cover) and the poetic imagery of a grand home built of snow.

Question 25

- **Question ID:** BK02_CH09_LA_025
- **Type:** Long Answer
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Marks:** 5

Question: Summarize Chapter 09 in five key sentences.

- **Answer Key:** The Himalayas ('abode of snow' in Sanskrit) stretch 2,500 km west to east. It contains 9 of Earth's 10 highest peaks, led by Mount Everest at 8,849 metres. Major rivers like the Indus, Ganges, and Brahmaputra originate from its snowfields. In 1953, Edmund Hillary and Tenzing Norgay became the first to reach Everest's summit. The range is a vital, majestic treasure of Earth.

Question 26

- **Question ID:** BK02_CH09_LA_026
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Marks:** 5

Question: Analyze the ecological connection between Himalayan glaciers and South Asian civilization.

- **Answer Key:** Himalayan glaciers act as natural freshwater storage towers. During summer, controlled melting supplies continuous water to the Indus, Ganges, and Brahmaputra river systems. These rivers deposit nutrient-rich alluvial soil across vast agricultural plains, supporting over 1.3 billion people. Without these glaciers, South Asia would face acute water shortages and agricultural collapse.

Question 27

- **Question ID:** BK02_CH09_LA_027
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Marks:** 5

Question: Examine the physical factors that make Mount Everest (8,849 m) the ultimate human endurance test.

- **Answer Key:** At 8,849 metres, Mount Everest enters the 'Death Zone' where atmospheric oxygen is one-third of sea level. Climbers face severe hypoxia, frostbite from -40°C winds, hurricane-force blizzards, treacherous crevasses, and physical exhaustion. Reaching the summit tests the absolute limits of human endurance, mental grit, and biological capability.

Question 28

- **Question ID:** BK02_CH09_LA_028
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Evaluating
- **Marks:** 5

Question: Discuss the cultural and historical partnership between Sir Edmund Hillary and Sherpa Tenzing Norgay.

- **Answer Key:** Their 1953 partnership bridged western technical mountaineering and local Himalayan indigenous mastery. Hillary brought physical stamina and methodical planning; Norgay brought high-altitude adaptation and route-finding genius. Their mutual respect and shared step onto the summit symbolized cross-cultural unity and equal triumph.

Question 29

- **Question ID:** BK02_CH09_LA_029
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Marks:** 5

Question: Explore the etymological and physical significance of mountain naming in Chapter 09.

- **Answer Key:** Naming the range 'Himalaya' ('Him' = snow, 'Alaya' = abode) highlights the defining physical characteristic of the range—its permanent snow cover. Similarly, naming Everest's summit 'Roof of the World' captures its unmatched elevation. Etymology in geography connects linguistic beauty with physical reality.

Question 30

- **Question ID:** BK02_CH09_LA_030
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Applying

- Marks: 5

Question: How can Class 2 teachers use Chapter 09 to integrate Science, Geography, and Social Studies?

- Answer Key: Teachers can integrate:

1. **Science:** States of water (snow melting into river water) and high-altitude air pressure.
2. **Geography:** Map reading (Nepal, China, India, 2,500 km range, river paths).
3. **Social Studies:** History of the 1953 Everest expedition and Sherpa culture.

Question 31

- Question ID: BK02_CH09_LA_031

- Type: Long Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Marks: 5

Question: Why is Mount Everest located on an international border rather than inside one country?

- Answer Key: Because the Himalayan crest forms a natural continental divide. The ridge of Mount Everest acts as the physical border separating the high plateau of Tibet (China) to the north from the mountain kingdom of Nepal to the south.

Question 32

- Question ID: BK02_CH09_LA_032

- Type: Long Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Marks: 5

Question: Describe the path of the river Ganges from Himalayan glaciers to the Indian plains.

- Answer Key: The Ganges begins high in the Himalayas at the Gangotri glacier. It cascades down steep rocky gorges, joins other mountain tributaries, emerges onto the fertile plains at Haridwar, and flows across northern India to the ocean.

Question 33

- Question ID: BK02_CH09_LA_033

- Type: Long Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Marks: 5

Question: What makes the Himalayan mountain system young in geological terms?

- Answer Key: The Himalayas were formed relatively recently in Earth's history by the collision of tectonic plates. Because the plates are still pressing against each other, the Himalayas are still growing slowly today.

Question 34

- Question ID: BK02_CH09_LA_034

- Type: Long Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Marks: 5

Question: How does high altitude affect temperature even when the sun is shining?

- **Answer Key:** At high altitudes, thin air cannot trap solar heat. Even under bright sunshine, ambient temperatures remain below freezing because heat radiates away instantly into space.

Question 35

- Question ID: BK02_CH09_LA_035

- Type: Long Answer

- Difficulty: Medium

- Bloom Level: Evaluating

- Marks: 5

Question: Why was reaching the summit of Everest in 1953 celebrated worldwide?

- **Answer Key:** In 1953, reaching Everest was considered one of the last great unexplored frontiers on Earth, similar to reaching the North Pole or South Pole. The success thrilled humanity.

Question 36

- Question ID: BK02_CH09_LA_036

- Type: Long Answer

- Difficulty: Medium

- Bloom Level: Analyzing

- Marks: 5

Question: Compare the source waters of the Indus river with the Brahmaputra river.

- **Answer Key:** Both rivers originate near Mount Kailash in the Himalayas. The Indus flows northwest through India and Pakistan into the Arabian Sea, while the Brahmaputra flows east through Tibet before turning south into India and Bangladesh.

Question 37

- Question ID: BK02_CH09_LA_037

- Type: Long Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Marks: 5

Question: Why do mountaineers use oxygen cylinders above 8,000 metres?

- **Answer Key:** Above 8,000 metres, air density drops so low that the human brain and lungs cannot get enough oxygen to survive naturally. Oxygen cylinders supply artificial air to prevent organ failure.

Question 38

- Question ID: BK02_CH09_LA_038

- Type: Long Answer

- Difficulty: Medium

- Bloom Level: Analyzing

- Marks: 5

Question: Explain why the Himalayas are essential for regulating Asian monsoons.

- **Answer Key:** The 2,500 km long, high-altitude mountain wall acts as a barrier that prevents moist summer monsoon winds from escaping into Central Asia, forcing heavy rainfall over India and South Asia.

Question 39

- **Question ID:** BK02_CH09_LA_039
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Evaluating
- **Marks:** 5

Question: How does Chapter 09 inspire courage and perseverance in young students?

- **Answer Key:** It presents Hillary and Norgay's climb as proof that facing extreme difficulties with preparation, trust, and refusal to give up allows humans to conquer the highest challenges.

Question 40

- **Question ID:** BK02_CH09_LA_040
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Creating
- **Marks:** 5

Question: Construct a 4-line poem honoring the majestic Himalayas.

- **Answer Key:** 'O majestic Himalayas, house of white snow,

Where giant cold rivers to sunny plains flow!

With lofty high peaks touching blue skies above,

You guard our great land with strength and with love!

Question 41

- **Question ID:** BK02_CH09_LA_041
- **Type:** Long Answer
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Marks:** 5

Question: Critique the ecological threat posed by global climate change to the Himalayan glaciers.

- **Answer Key:** Global warming is causing Himalayan glaciers to melt at unprecedented rates. In the short term, this creates catastrophic glacial lake outburst floods. In the long term, severe glacial depletion will cause major rivers like the Ganges and Indus to dry up seasonally, threatening food and water security for 1.3 billion people in Asia.

Question 42

- **Question ID:** BK02_CH09_LA_042
- **Type:** Long Answer
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Marks:** 5

Question: Deconstruct the physical scale and geopolitical importance of the Himalayan mountain system.

- **Answer Key:** Spanning 2,500 km across five nations (India, Nepal, Bhutan, China, Pakistan), the Himalayas serve as a natural physical wall, international border zone, weather barrier, and freshwater source. Its geopolitical stability is essential for regional peace, water sharing, and environmental protection.

Question 43

- **Question ID:** BK02_CH09_LA_043
- **Type:** Long Answer
- **Difficulty:** Hard
- **Bloom Level:** Synthesizing
- **Marks:** 5

Question: Synthesize the scientific and human factors that enabled the 1953 Everest ascent.

- **Answer Key:** 1. **Scientific Factors:** Development of lightweight closed-circuit oxygen gear, wind-proof nylon tents, and accurate weather forecasting.

2. **Human Factors:** Hillary's relentless stamina, Norgay's Sherpa adaptability, John Hunt's military planning, and seamless team trust.

Question 44

- **Question ID:** BK02_CH09_LA_044
- **Type:** Long Answer
- **Difficulty:** Hard
- **Bloom Level:** Creating
- **Marks:** 5

Question: Formulate a lesson module for teaching 'Himalayan River Systems' to primary students.

- **Answer Key:** - **Visual:** Map showing glacier origins of Indus, Ganges, Brahmaputra.

- **Experiment:** Ice cube melting on a slanted tray to show how glacial melt forms flowing rivers.
- **Discussion:** Importance of clean river water for drinking and farming.
- **Activity:** Labeling the three major rivers on an outline map.

Question 45

- **Question ID:** BK02_CH09_LA_045
- **Type:** Long Answer
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Marks:** 5

Question: Evaluate the impact of high-altitude Sherpa culture on global mountaineering expeditions.

- **Answer Key:** Without Sherpa expertise, commercial mountaineering on Everest would be virtually impossible. Sherpas perform the most dangerous tasks: fixing safety ropes through Khumbu Icefall, setting up high camps, carrying heavy loads, and conducting life-saving mountain rescues.

Question 46

- **Question ID:** BK02_CH09_LA_046
- **Type:** Long Answer

- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Marks:** 5

Question: Analyze why the Himalayas are called the 'Third Pole' of Planet Earth.

- **Answer Key:** After the Arctic (North Pole) and Antarctica (South Pole), the Himalayas contain the largest volume of permanent ice and snow on Earth, earning the title 'Third Pole' for their massive frozen water reserves.

Question 47

- **Question ID:** BK02_CH09_LA_047
- **Type:** Long Answer
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Marks:** 5

Question: Compare the horizontal extent (2,500 km) vs vertical elevation (8,849 m) of the Himalayas.

- **Answer Key:** The 2,500 km horizontal extent creates a massive continental climate and biological barrier, while the 8,849 m vertical elevation pushes land into atmospheric zones that support permanent ice and arctic conditions in tropical latitudes.

Question 48

- **Question ID:** BK02_CH09_LA_048
- **Type:** Long Answer
- **Difficulty:** Hard
- **Bloom Level:** Creating
- **Marks:** 5

Question: Draft a news headline and opening paragraph announcing the 1953 Everest summit victory.

- **Answer Key:** 'WORLD CONQUERED! HILLARY AND NORGAY REACH EVEREST SUMMIT! London/Kathmandu, May 1953 — In a glorious triumph of human endurance, Edmund Hillary of New Zealand and Sherpa Tenzing Norgay have stood on top of the world at 8,849 metres!'

Question 49

- **Question ID:** BK02_CH09_LA_049
- **Type:** Long Answer
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Marks:** 5

Question: Assess the responsibility of tourists and climbers in preserving Mount Everest.

- **Answer Key:** Climbers must adhere to 'Leave No Trace' ethics—bringing down all trash, unused oxygen canisters, and human waste to prevent Mount Everest from becoming a high-altitude dumping ground.

Question 50

- **Question ID:** BK02_CH09_LA_050
- **Type:** Long Answer
- **Difficulty:** Hard
- **Bloom Level:** Creating

- Marks: 5

Question: Synthesize the ultimate moral lesson of Chapter 09 into a guiding motto for Class 2 students.

- **Answer Key:** 'Be steadfast like the Himalayas, let your wisdom flow like great rivers, and climb every goal in life with courage and trust!'

Extract Based Questions — Chapter 09: The Himalayas

Category: Extract Based | **Total:** 10 Extract Sets (50 Questions) | **Marks:** 3 per set

Extract Set 1

"The Himalayas (Him + Alaya) means "abode of snow" in Sanskrit. It is given this name because its lofty peaks are covered with snow all the year round."

Question 1

- Question ID: BK02_CH09_EXT_001
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: What does the word 'Himalaya' mean in Sanskrit?

- **Answer Key:** Abode of snow.

Question 2

- Question ID: BK02_CH09_EXT_002
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: Which two Sanskrit words form 'Himalaya'?

- **Answer Key:** Him + Alaya.

Question 3

- Question ID: BK02_CH09_EXT_003
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: Why was this name given to the mountain range?

- **Answer Key:** Because its lofty peaks are covered with snow all the year round.

Question 4

- Question ID: BK02_CH09_EXT_004
- Type: Extract Based
- Difficulty: Medium
- Bloom Level: Understanding
- Marks: 1

Question: What does the word 'abode' mean?

- Answer Key: The place where one lives.

Question 5

- Question ID: BK02_CH09_EXT_005
- Type: Extract Based
- Difficulty: Medium
- Bloom Level: Understanding
- Marks: 1

Question: What does the word 'lofty' mean?

- Answer Key: Very tall and impressive.

Extract Set 2

"This great mountain system stretches for almost 2,500 kilometers from west to east."

Question 6

- Question ID: BK02_CH09_EXT_006
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: What type of geographical structure is the Himalayas?

- Answer Key: A great mountain system.

Question 7

- Question ID: BK02_CH09_EXT_007
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: How far does the mountain system stretch?

- Answer Key: Almost 2,500 kilometers.

Question 8

- Question ID: BK02_CH09_EXT_008
- Type: Extract Based

- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: In which direction does it stretch?

- **Answer Key:** From west to east.

Question 9

- **Question ID:** BK02_CH09_EXT_009
- **Type:** Extract Based
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Marks:** 1

Question: Is 2,500 kilometers a small or massive distance?

- **Answer Key:** A massive distance spanning across South Asia.

Question 10

- **Question ID:** BK02_CH09_EXT_010
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: Which continent contains this mountain system?

- **Answer Key:** Asia.

Extract Set 3

"No other mountain range on Earth compares to the Himalayas. Nine of Earth's 10 highest peaks are Himalayan."

Question 11

- **Question ID:** BK02_CH09_EXT_011
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: Does any other mountain range on Earth compare to the Himalayas?

- **Answer Key:** No, no other mountain range compares.

Question 12

- **Question ID:** BK02_CH09_EXT_012
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: How many of Earth's 10 highest peaks are located in the Himalayas?

- **Answer Key:** Nine peaks.

Question 13

- **Question ID:** BK02_CH09_EXT_013
- **Type:** Extract Based
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Marks:** 1

Question: What does this fact show about the Himalayas?

- **Answer Key:** It shows that the Himalayas are the tallest mountain range on Planet Earth.

Question 14

- **Question ID:** BK02_CH09_EXT_014
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: Where are Earth's highest peaks concentrated?

- **Answer Key:** In the Himalayan mountain system.

Question 15

- **Question ID:** BK02_CH09_EXT_015
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Marks:** 1

Question: Find a word in the extract that means 'top of a mountain'.

- **Answer Key:** Peak.

Extract Set 4

"The world's highest peak, Mount Everest (8849 metres) is a part of Himalayas and lies on the border between Nepal and the Tibet Autonomous Region of China."

Question 16

- **Question ID:** BK02_CH09_EXT_016
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: What is the name of the world's highest peak?

- **Answer Key:** Mount Everest.

Question 17

- Question ID: BK02_CH09_EXT_017
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: How high is Mount Everest in metres?

- Answer Key: 8,849 metres.

Question 18

- Question ID: BK02_CH09_EXT_018
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: Which mountain range does Mount Everest belong to?

- Answer Key: The Himalayas.

Question 19

- Question ID: BK02_CH09_EXT_019
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: Which country and region share the border where Mount Everest lies?

- Answer Key: Nepal and the Tibet Autonomous Region of China.

Question 20

- Question ID: BK02_CH09_EXT_020
- Type: Extract Based
- Difficulty: Medium
- Bloom Level: Understanding
- Marks: 1

Question: Is Mount Everest located inside a single country?

- Answer Key: No, it lies on the international border between Nepal and Tibet (China).

Extract Set 5

"Three important rivers-the Indus, the Ganges and the Brahmaputra originate in the Himalayas."

Question 21

- Question ID: BK02_CH09_EXT_021

- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: How many major rivers mentioned in the extract originate in the Himalayas?

- **Answer Key:** Three important rivers.

Question 22

- **Question ID:** BK02_CH09_EXT_022
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: Name the three rivers mentioned.

- **Answer Key:** The Indus, the Ganges, and the Brahmaputra.

Question 23

- **Question ID:** BK02_CH09_EXT_023
- **Type:** Extract Based
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Marks:** 1

Question: What does the word 'originate' mean in this context?

- **Answer Key:** To begin or start flowing from a source.

Question 24

- **Question ID:** BK02_CH09_EXT_024
- **Type:** Extract Based
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Marks:** 1

Question: What feeds these rivers in the high mountains?

- **Answer Key:** Melting snow and glaciers from the Himalayas.

Question 25

- **Question ID:** BK02_CH09_EXT_025
- **Type:** Extract Based
- **Difficulty:** Medium
- **Bloom Level:** Evaluating
- **Marks:** 1

Question: Why are these rivers important to people?

- **Answer Key:** They supply vital freshwater for drinking, agriculture, and life.

Extract Set 6

"In the 1900s mountaineers climbed the high peaks for the first time. The New Zealander Edmund Hillary and Sherpa Tenzing Norgay reached the summit of Mount Everest in 1953."

Question 26

- Question ID: BK02_CH09_EXT_026
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: When did mountaineers first start climbing high Himalayan peaks?

- Answer Key: In the 1900s.

Question 27

- Question ID: BK02_CH09_EXT_027
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: Who was Edmund Hillary and where was he from?

- Answer Key: He was a mountaineer from New Zealand.

Question 28

- Question ID: BK02_CH09_EXT_028
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: Who climbed Mount Everest alongside Edmund Hillary?

- Answer Key: Sherpa Tenzing Norgay.

Question 29

- Question ID: BK02_CH09_EXT_029
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: In which year did Hillary and Norgay reach the summit of Mount Everest?

- Answer Key: 1953.

Question 30

- Question ID: BK02_CH09_EXT_030
- Type: Extract Based

- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Marks:** 1

Question: What does the word 'summit' mean?

- **Answer Key:** The top peak of a mountain.

Extract Set 7

"Word Meaning: Abode: The place where one lives | Lofty: Very tall and impressive"

Question 31

- **Question ID:** BK02_CH09_EXT_031
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: What is the meaning of 'abode'?

- **Answer Key:** The place where one lives.

Question 32

- **Question ID:** BK02_CH09_EXT_032
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: What is the meaning of 'lofty'?

- **Answer Key:** Very tall and impressive.

Question 33

- **Question ID:** BK02_CH09_EXT_033
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Marks:** 1

Question: Which word describes the tall snow-capped peaks of the Himalayas?

- **Answer Key:** Lofty.

Question 34

- **Question ID:** BK02_CH09_EXT_034
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Marks:** 1

Question: Which word describes the house or home of snow in 'Himalaya'?

- **Answer Key:** Abode.

Question 35

- **Question ID:** BK02_CH09_EXT_035
- **Type:** Extract Based
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Marks:** 1

Question: Give a synonym for 'lofty'.

- **Answer Key:** Tall / majestic / high.

Extract Set 8

"The Himalayas (Him + Alaya) means "abode of snow" in Sanskrit. It is given this name because its lofty peaks are covered with snow all the year round."

Question 36

- **Question ID:** BK02_CH09_EXT_036
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: What language does the name 'Himalaya' come from?

- **Answer Key:** Sanskrit.

Question 37

- **Question ID:** BK02_CH09_EXT_037
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: What does 'Him' translate to?

- **Answer Key:** Snow.

Question 38

- **Question ID:** BK02_CH09_EXT_038
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: What does 'Alaya' translate to?

- **Answer Key:** Abode / house.

Question 39

- Question ID: BK02_CH09_EXT_039
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: How often are the peaks covered with snow?

- Answer Key: All the year round.

Question 40

- Question ID: BK02_CH09_EXT_040
- Type: Extract Based
- Difficulty: Medium
- Bloom Level: Understanding
- Marks: 1

Question: Why is the snow permanent on these peaks?

- Answer Key: Because high altitude keeps temperatures below freezing year-round.

Extract Set 9

"The world's highest peak, Mount Everest (8849 metres) is a part of Himalayas and lies on the border between Nepal and the Tibet Autonomous Region of China."

Question 41

- Question ID: BK02_CH09_EXT_041
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: What is the elevation of Mount Everest?

- Answer Key: 8,849 metres.

Question 42

- Question ID: BK02_CH09_EXT_042
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: Is Mount Everest part of the Himalayas?

- Answer Key: Yes.

Question 43

- Question ID: BK02_CH09_EXT_043
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: Which mountain peak is the highest in the world?

- Answer Key: Mount Everest.

Question 44

- Question ID: BK02_CH09_EXT_044
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: Which Autonomous Region of China borders Mount Everest?

- Answer Key: Tibet Autonomous Region.

Question 45

- Question ID: BK02_CH09_EXT_045
- Type: Extract Based
- Difficulty: Medium
- Bloom Level: Understanding
- Marks: 1

Question: Why do climbers visit Nepal or Tibet?

- Answer Key: To attempt climbing Mount Everest from either side of the border.

Extract Set 10

"The New Zealander Edmund Hillary and Sherpa Tenzing Norgay reached the summit of Mount Everest in 1953."

Question 46

- Question ID: BK02_CH09_EXT_046
- Type: Extract Based
- Difficulty: Easy
- Bloom Level: Remembering
- Marks: 1

Question: Name the climber from New Zealand.

- Answer Key: Edmund Hillary.

Question 47

- Question ID: BK02_CH09_EXT_047
- Type: Extract Based
- Difficulty: Easy

- **Bloom Level:** Remembering
- **Marks:** 1

Question: Name the Sherpa climber who reached the summit.

- **Answer Key:** Tenzing Norgay.

Question 48

- **Question ID:** BK02_CH09_EXT_048
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: What mountain summit did they reach?

- **Answer Key:** Mount Everest.

Question 49

- **Question ID:** BK02_CH09_EXT_049
- **Type:** Extract Based
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Marks:** 1

Question: What year did this historic event happen?

- **Answer Key:** 1953.

Question 50

- **Question ID:** BK02_CH09_EXT_050
- **Type:** Extract Based
- **Difficulty:** Medium
- **Bloom Level:** Evaluating
- **Marks:** 1

Question: Summarize the importance of their achievement.

- **Answer Key:** They were the first humans in history to reach the top of Mount Everest.
