

CBSE / ICSE CLASS I ENGLISH QUESTION BANK

CHAPTER 08 (300 QUESTIONS)

1. Multiple Choice Questions (MCQs)

Category: Multiple Choice Questions | **Total:** 50 Questions | **Marks:** 1 each

Question 1

- **Question ID:** BK01_CH08_MCQ_001
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Geography Fact
- **Marks:** 1

Question: Which river is considered the most sacred river in India?

- (A) The Ganga River
- (B) The Nile River
- (C) The Amazon River
- (D) The Thames River

- **Answer Key: (A)** — The Ganga river is considered the most sacred river in India.

Question 2

- **Question ID:** BK01_CH08_MCQ_002
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Origin
- **Marks:** 1

Question: Where does the Ganga river originate?

- (A) Gangotri Glacier in the Himalayas
- (B) Indian Ocean
- (C) Thar Desert
- (D) Vindhya Hills

- **Answer Key: (A)** — It originates from the Gangotri Glacier in the Himalayas.

Question 3

- **Question ID:** BK01_CH08_MCQ_003
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Length
- **Marks:** 1

Question: What total distance does the Ganga river flow?

- (A) 2,525 km
- (B) 100 km
- (C) 50 km

(D) 10,000 km

- Answer Key: (A) — The river flows across a distance of 2,525 km.

Question 4

- Question ID: BK01_CH08_MCQ_004
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Destination
- Marks: 1

Question: Into which water body does the Ganga river finally drain?

- (A) Bay of Bengal
- (B) Arabian Sea
- (C) Arctic Ocean
- (D) Red Sea

- Answer Key: (A) — The Ganga river drains into the Bay of Bengal.

Question 5

- Question ID: BK01_CH08_MCQ_005
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Cultural Name
- Marks: 1

Question: What do millions of people lovingly call the Ganga river?

- (A) Ganga Mata (Mother Ganga)
- (B) Sister Ganga
- (C) Queen River
- (D) Blue River

- Answer Key: (A) — People lovingly call it Ganga Mata (Mother Ganga).

Question 6

- Question ID: BK01_CH08_MCQ_006
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Use
- Marks: 1

Question: For what primary purposes do millions of people rely on the Ganga?

- (A) Drinking water, farming, and daily life
- (B) Flying kites
- (C) Driving cars
- (D) Building towers

- Answer Key: (A) — People rely on it for drinking, irrigation, and domestic needs.

Question 7

- Question ID: BK01_CH08_MCQ_007
- Type: MCQ
- Difficulty: Easy

- **Bloom Level:** Remembering
- **Topic:** Festival
- **Marks:** 1

Question: What famous grand gathering festival takes place along the banks of Ganga?

- (A) Kumbh Mela
- (B) Christmas
- (C) Halloween
- (D) Baisakhi

- Answer Key: (A) — The famous Kumbh Mela takes place on the banks of Ganga.

Question 8

- **Question ID:** BK01_CH08_MCQ_008
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Aquatic Life
- **Marks:** 1

Question: Which rare aquatic animal is found living in the Ganga river?

- (A) Ganges River Dolphin
- (B) Polar Bear
- (C) Blue Whale
- (D) Sea Turtle

- Answer Key: (A) — The rare Ganges River Dolphin lives in the Ganga.

Question 9

- **Question ID:** BK01_CH08_MCQ_009
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Environmental Issue
- **Marks:** 1

Question: What major problem is threatening the purity of the Ganga river?

- (A) Pollution from garbage, sewage, and industrial waste
- (B) Too many fish
- (C) Cold ice
- (D) Rainwater

- Answer Key: (A) — Pollution from garbage and factory waste threatens Ganga.

Question 10

- **Question ID:** BK01_CH08_MCQ_010
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Cleanliness Campaign
- **Marks:** 1

Question: What government initiative was launched to clean and restore the Ganga?

- (A) Namami Gange
- (B) Project Tiger
- (C) Digital India

(D) Make in India

- **Answer Key: (A) — Namami Gange is the national mission to clean Ganga.**

Question 11

- **Question ID:** BK01_CH08_MCQ_011
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Topic:** Vocabulary
- **Marks:** 1

Question: What does the word 'sacred' mean?

- (A) Holy and deserving deep respect
- (B) Dark
- (C) Cold
- (D) Dangerous

- **Answer Key: (A) — Sacred means holy and deserving high respect.**

Question 12

- **Question ID:** BK01_CH08_MCQ_012
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Topic:** Vocabulary
- **Marks:** 1

Question: What does the word 'glacier' mean?

- (A) A huge slow-moving mass of ice
- (B) A desert dune
- (C) A wooden boat
- (D) A rain cloud

- **Answer Key: (A) — A glacier is a large moving body of ice.**

Question 13

- **Question ID:** BK01_CH08_MCQ_013
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Topic:** Vocabulary
- **Marks:** 1

Question: What does the word 'pilgrim' mean?

- (A) A person who travels to a sacred place for religious reasons
- (B) A shopkeeper
- (C) A swimmer
- (D) A pilot

- **Answer Key: (A) — A pilgrim travels to holy places for devotion.**

Question 14

- **Question ID:** BK01_CH08_MCQ_014
- **Type:** MCQ
- **Difficulty:** Easy

- **Bloom Level:** Understanding
- **Topic:** Cultural Belief
- **Marks:** 1

Question: Why do pilgrims take a dip in the Ganga river?

- (A) To feel spiritually clean and show devotion
- (B) To catch fish
- (C) To play sports
- (D) To wash clothes only

- **Answer Key: (A) — Taking a dip is considered a sacred act of faith.**

Question 15

- **Question ID:** BK01_CH08_MCQ_015
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Topic:** Agriculture Impact
- **Marks:** 1

Question: Is the Ganga river important for farmers?

- (A) Yes, its fertile water helps crops grow
- (B) No, farmers dislike water
- (C) It has no water
- (D) It destroys crops only

- **Answer Key: (A) — Ganga water irrigates vast farmland in northern India.**

Question 16

- **Question ID:** BK01_CH08_MCQ_016
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Geography
- **Marks:** 1

Question: In which mountain range is the Gangotri Glacier located?

- (A) Himalayas
- (B) Alps
- (C) Andes
- (D) Rocky Mountains

- **Answer Key: (A) — Gangotri is in the Himalayan mountain range.**

Question 17

- **Question ID:** BK01_CH08_MCQ_017
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** State Geography
- **Marks:** 1

Question: Which Indian state contains the Gangotri Glacier?

- (A) Uttarakhand
- (B) Tamil Nadu
- (C) Rajasthan

(D) Goa

- **Answer Key: (A) — Gangotri is located in Uttarakhand state.**

Question 18

- **Question ID:** BK01_CH08_MCQ_018
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Water Type
- **Marks:** 1

Question: What kind of water flows in the Ganga river?

- (A) Fresh water
- (B) Salty ocean water
- (C) Acid water
- (D) Oil water

- **Answer Key: (A) — The Ganga is a freshwater river.**

Question 19

- **Question ID:** BK01_CH08_MCQ_019
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Topic:** Pollution Effect
- **Marks:** 1

Question: What happens when people throw plastic bags into the river?

- (A) It pollutes the water and harms aquatic life
- (B) It cleans the river
- (C) It feeds the fish
- (D) It makes water turn into juice

- **Answer Key: (A) — Plastic causes severe water pollution and harms animals.**

Question 20

- **Question ID:** BK01_CH08_MCQ_020
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Understanding
- **Topic:** Action
- **Marks:** 1

Question: How can Class 1 children help keep rivers clean?

- (A) By never throwing trash into rivers and using bins
- (B) By throwing plastic in water
- (C) By wasting water
- (D) By washing dirty shoes in rivers

- **Answer Key: (A) — Avoiding throwing trash keeps water clean.**

Question 21

- **Question ID:** BK01_CH08_MCQ_021
- **Type:** MCQ
- **Difficulty:** Easy

- **Bloom Level:** Understanding
- **Topic:** Vocabulary
- **Marks:** 1

Question: What does the word 'aquatic' mean?

- (A) Living or growing in water
- (B) Living in desert sand
- (C) Flying in air
- (D) Living underground

- **Answer Key: (A) — Aquatic means living or growing in water.**

Question 22

- **Question ID:** BK01_CH08_MCQ_022
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Science Fact
- **Marks:** 1

Question: What is the primary source of water in a glacier?

- (A) Snow and ice accumulated over many years
- (B) Tap water
- (C) Ocean tides
- (D) Factory pipes

- **Answer Key: (A) — Glaciers form from compressed snow and ice.**

Question 23

- **Question ID:** BK01_CH08_MCQ_023
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Geography Path
- **Marks:** 1

Question: Does the Ganga flow through India and Bangladesh?

- (A) Yes, it flows through both countries
- (B) No, it stays in one city
- (C) It flows in America
- (D) It flows in Africa

- **Answer Key: (A) — Ganga flows through India and Bangladesh.**

Question 24

- **Question ID:** BK01_CH08_MCQ_024
- **Type:** MCQ
- **Difficulty:** Easy
- **Bloom Level:** Remembering
- **Topic:** Chapter Title
- **Marks:** 1

Question: What title does Chapter 08 carry?

- (A) The Ganga River
- (B) Father of the Nation
- (C) The Royal Tiger

(D) My School

- Answer Key: (A) — Chapter 08 is titled 'The Ganga River'.

Question 25

- Question ID: BK01_CH08_MCQ_025
- Type: MCQ
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Core Takeaway
- Marks: 1

Question: What main message does Chapter 08 teach us?

- (A) Respect our rivers, keep water clean, and preserve natural water bodies
- (B) Waste as much water as possible
- (C) Throw garbage in rivers
- (D) Ignore pollution

- Answer Key: (A) — It teaches us to respect and clean our natural rivers.

Question 26

- Question ID: BK01_CH08_MCQ_026
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Understanding
- Topic: Economic Importance
- Marks: 1

Question: Why is the Ganga basin called the food bowl of northern India?

- (A) Its fertile soil and abundant water support farming for millions
- (B) It sells bowls
- (C) It has no farms
- (D) It grows plastic

- Answer Key: (A) — Fertile silt and water nourish rich agricultural land.

Question 27

- Question ID: BK01_CH08_MCQ_027
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Understanding
- Topic: Hydrology Concept
- Marks: 1

Question: How does melting glacier ice sustain the Ganga throughout the year?

- (A) Melting ice supplies continuous freshwater even during dry seasons
- (B) Glaciers freeze the river solid
- (C) Glaciers stop the water
- (D) Glaciers add salt

- Answer Key: (A) — Glacial melt feeds perennial river flow.

Question 28

- Question ID: BK01_CH08_MCQ_028
- Type: MCQ
- Difficulty: Medium

- **Bloom Level:** Understanding
- **Topic:** Species Adaptation
- **Marks:** 1

Question: What makes the Ganges River Dolphin unique among river creatures?

- (A) It is a rare freshwater mammal that uses echolocation to navigate cloudy river water
- (B) It flies in air
- (C) It lays eggs on trees
- (D) It lives on land

- Answer Key: (A) — It is a blind freshwater mammal using echolocation.

Question 29

- **Question ID:** BK01_CH08_MCQ_029
- **Type:** MCQ
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** Environmental Science
- **Marks:** 1

Question: Why does industrial waste pose a severe danger to river ecosystems?

- (A) Chemicals kill fish, poison drinking water, and destroy aquatic life
- (B) Chemicals make fish grow legs
- (C) Industrial waste is nutritious
- (D) Waste cleans the water

- Answer Key: (A) — Toxic chemicals ruin water quality and harm species.

Question 30

- **Question ID:** BK01_CH08_MCQ_030
- **Type:** MCQ
- **Difficulty:** Medium
- **Bloom Level:** Evaluating
- **Topic:** Cultural Value
- **Marks:** 1

Question: What is the cultural connection between Indian people and Ganga Mata?

- (A) Deep spiritual reverence seeing the river as a divine mother nourishing life
- (B) It is just a swimming pool
- (C) People ignore the river
- (D) It is used for motor races only

- Answer Key: (A) — It is revered as a sacred spiritual mother.

Question 31

- **Question ID:** BK01_CH08_MCQ_031
- **Type:** MCQ
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** Ecological Hazard
- **Marks:** 1

Question: How does plastic waste affect aquatic animals in the Ganga?

- (A) Animals choke on plastic or get trapped, causing injury and death
- (B) Animals use plastic to build houses
- (C) Plastic feeds the fish

(D) Plastic melts harmlessly

- Answer Key: (A) — Plastic choking and entangling kills water life.

Question 32

- Question ID: BK01_CH08_MCQ_032
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Remembering
- Topic: Conservation Goal
- Marks: 1

Question: What is the main goal of the 'Namami Gange' program?

- (A) To clean, protect, and rejuvenate the Ganga river basin
- (B) To build bigger factories along the banks
- (C) To drain the river water
- (D) To stop farming

- Answer Key: (A) — Namami Gange aims for river cleaning and conservation.

Question 33

- Question ID: BK01_CH08_MCQ_033
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Analyzing
- Topic: Water Classification
- Marks: 1

Question: What is the difference between a freshwater river and an ocean?

- (A) Freshwater rivers have non-salty water; oceans have salty water
- (B) Rivers are on Mars; oceans are on Earth
- (C) Oceans are small; rivers are huge
- (D) They are identical

- Answer Key: (A) — Rivers contain fresh water, while oceans are salty.

Question 34

- Question ID: BK01_CH08_MCQ_034
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Understanding
- Topic: Eco System Interconnection
- Marks: 1

Question: How does deforestation near river sources affect river flow?

- (A) Trees prevent soil erosion; cutting them causes mudslides and erratic water flow
- (B) Cutting trees increases clean water
- (C) Trees dry up rivers
- (D) Deforestation has no effect

- Answer Key: (A) — Tree loss causes soil erosion and siltation.

Question 35

- Question ID: BK01_CH08_MCQ_035
- Type: MCQ
- Difficulty: Medium

- **Bloom Level:** Evaluating
- **Topic:** Public Health / Environment
- **Marks:** 1

Question: Why are large religious festivals like Kumbh Mela managed with special cleanliness drives?

- (A) Millions of visitors produce massive waste, requiring active cleaning to protect river health
- (B) To stop people from coming
- (C) To make noise
- (D) Festivals need no cleaning

- Answer Key: (A) — Managing mass crowd waste protects river purity.

Question 36

- **Question ID:** BK01_CH08_MCQ_036
- **Type:** MCQ
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** Vocabulary
- **Marks:** 1

Question: What does the word 'rejuvenate' mean in river cleaning projects?

- (A) To restore freshness, health, and vitality to the river
- (B) To pollute more
- (C) To dry up
- (D) To freeze

- Answer Key: (A) — Rejuvenate means bringing back health and purity.

Question 37

- **Question ID:** BK01_CH08_MCQ_037
- **Type:** MCQ
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** Urban Dependence
- **Marks:** 1

Question: How does river water support urban towns along its banks?

- (A) It provides drinking water, municipal supply, and transportation routes
- (B) It supplies electricity only
- (C) Cities don't use river water
- (D) It dries up towns

- Answer Key: (A) — Rivers supply vital water needs for cities.

Question 38

- **Question ID:** BK01_CH08_MCQ_038
- **Type:** MCQ
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** Health Impact
- **Marks:** 1

Question: Why is throwing untreated sewage into rivers harmful to human health?

- (A) Sewage carries disease-causing bacteria that contaminate drinking water
- (B) Sewage makes water sweet
- (C) Sewage is filtered automatically

(D) Bacteria cannot live in water

- Answer Key: (A) — Untreated sewage spreads waterborne diseases.

Question 39

- Question ID: BK01_CH08_MCQ_039
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Understanding
- Topic: Natural Filtration
- Marks: 1

Question: What role do plants along river banks play in protecting the river?

- (A) Plant roots bind soil, preventing erosion and filtering runoff water
- (B) Plants soak up all the river water
- (C) Plants make water dirty
- (D) Plants block boats

- Answer Key: (A) — Bank vegetation holds soil and filters runoff.

Question 40

- Question ID: BK01_CH08_MCQ_040
- Type: MCQ
- Difficulty: Medium
- Bloom Level: Evaluating
- Topic: Social Action
- Marks: 1

Question: How can public awareness campaigns help save the Ganga?

- (A) Educating citizens encourages responsible waste disposal and river care
- (B) Awareness campaigns cause pollution
- (C) Nobody listens to campaigns
- (D) Campaigns stop people from drinking water

- Answer Key: (A) — Education inspires community responsibility.

Question 41

- Question ID: BK01_CH08_MCQ_041
- Type: MCQ
- Difficulty: Hard
- Bloom Level: Analyzing
- Topic: Socio-Economic Impact
- Marks: 1

Question: Analyze how the Ganga river acts as a life-line for over 400 million people.

- (A) It provides agricultural irrigation, drinking water, domestic supply, and livelihoods across a massive basin
- (B) It only provides water for 10 people
- (C) It is unused
- (D) It runs underground only

- Answer Key: (A) — The basin supports nearly 40% of India's population.

Question 42

- Question ID: BK01_CH08_MCQ_042
- Type: MCQ
- Difficulty: Hard

- **Bloom Level:** Evaluating
- **Topic:** Ecological Impact
- **Marks:** 1

Question: Evaluate the ecological consequences of chemical industrial effluents dumped into river systems.

- (A) Toxic chemicals disrupt dissolved oxygen, bioaccumulate in fish, and destroy aquatic biodiversity
- (B) Chemical effluents make fish grow faster
- (C) Effluents clean the water
- (D) Chemicals evaporate instantly

- **Answer Key: (A) — Industrial effluents cause bioaccumulation and oxygen depletion.**

Question 43

- **Question ID:** BK01_CH08_MCQ_043
- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Topic:** Climate Science
- **Marks:** 1

Question: How does climate change and melting Himalayan glaciers threaten the future of the Ganga?

- (A) Rapid glacier retreat initially causes flooding, followed by severe long-term water shortages during dry seasons
- (B) Climate change makes glaciers bigger
- (C) Glaciers never melt
- (D) Climate change turns water into ice

- **Answer Key: (A) — Glacial retreat causes seasonal water instability.**

Question 44

- **Question ID:** BK01_CH08_MCQ_044
- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Topic:** Biological Indicator
- **Marks:** 1

Question: Discuss the biological significance of the Ganges River Dolphin as an indicator species.

- (A) Being sensitive to pollution, its presence indicates healthy, clean, oxygen-rich river waters
- (B) It shows that water is dirty
- (C) It lives in dry soil
- (D) Indicator species have no value

- **Answer Key: (A) — Indicator species reflect overall ecosystem health.**

Question 45

- **Question ID:** BK01_CH08_MCQ_045
- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Applying
- **Topic:** Real Life Application
- **Marks:** 1

Question: Formulate a community action plan for Class 1 students to promote water conservation.

- (A) Turn off running taps, collect rainwater for plants, use cloth bags, and never litter near drains
- (B) Leave taps open
- (C) Throw trash in gutters

(D) Waste water while playing

- Answer Key: (A) — Practical daily habits build conservation consciousness.

Question 46

- Question ID: BK01_CH08_MCQ_046
- Type: MCQ
- Difficulty: Hard
- Bloom Level: Analyzing
- Topic: Geographical Progression
- Marks: 1

Question: Deconstruct the journey of the Ganga from snow-capped peaks to the Bay of Bengal ocean delta.

- (A) High mountain glacier -> mountain streams -> fertile northern plains -> deltaic wetlands -> ocean bay
- (B) Ocean -> desert -> mountain
- (C) Under sand -> underground -> sky
- (D) Lake -> tap -> well

- Answer Key: (A) — Topographical progression from source to mouth.

Question 47

- Question ID: BK01_CH08_MCQ_047
- Type: MCQ
- Difficulty: Hard
- Bloom Level: Evaluating
- Topic: Cultural Contrast
- Marks: 1

Question: Contrast ancient sacred views of rivers with modern industrial pollution habits.

- (A) Ancient tradition venerated rivers as life-giving mothers; modern industrial habits treat rivers as waste disposal drains
- (B) Both treated rivers identically
- (C) Ancient people polluted rivers more
- (D) Modern factories venerate rivers

- Answer Key: (A) — Reverence vs exploitative pollution contrast.

Question 48

- Question ID: BK01_CH08_MCQ_048
- Type: MCQ
- Difficulty: Hard
- Bloom Level: Evaluating
- Topic: Environmental Strategy
- Marks: 1

Question: Why is integrated river basin management superior to cleaning isolated river stretches?

- (A) Cleaning whole basins addresses upstream pollution sources, tributaries, and watershed health together
- (B) Isolated cleaning is faster
- (C) Basin management costs nothing
- (D) Tributaries don't affect rivers

- Answer Key: (A) — Holistic basin management tackles root pollution sources.

Question 49

- Question ID: BK01_CH08_MCQ_049
- Type: MCQ
- Difficulty: Hard

- **Bloom Level:** Analyzing
- **Topic:** Hydrology Interconnection
- **Marks:** 1

Question: How does excessive groundwater extraction along the Ganga basin affect river flow?

- (A) Lowering water tables reduces baseflow contributions into the river during non-monsoon months
- (B) Groundwater extraction increases river water
- (C) Groundwater has no link to rivers
- (D) Extraction turns rivers into ice

- Answer Key: (A) — Hydrological connection between aquifer baseflow and river volume.

Question 50

- **Question ID:** BK01_CH08_MCQ_050
- **Type:** MCQ
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Topic:** Core Takeaway
- **Marks:** 1

Question: What is the ultimate educational philosophy of Chapter 08 for primary learners?

- (A) Rivers are sacred threads of life; protecting our waters preserves our culture, health, and future on Earth!
- (B) Rivers are endless dumping grounds
- (C) Ignore river pollution
- (D) Drink dirty water

- Answer Key: (A) — Water stewardship and respect for rivers form the core message.

2. Fill in the Blanks

Category: Fill in the Blanks | **Total:** 50 Questions | **Marks:** 1 each

Question 1

- Question ID: BK01_CH08_FIB_001
- Type: Fill in the Blanks
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Sentence Completion 1
- Marks: 1

Question: The Ganga is considered the most _____ river in India.

- Answer Key: sacred / holy — The Ganga is considered sacred.

Question 2

- Question ID: BK01_CH08_FIB_002
- Type: Fill in the Blanks
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Sentence Completion 2
- Marks: 1

Question: The Ganga river originates from the Gangotri _____.

- Answer Key: Glacier — It originates from Gangotri Glacier.

Question 3

- Question ID: BK01_CH08_FIB_003
- Type: Fill in the Blanks
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Sentence Completion 3
- Marks: 1

Question: The Gangotri Glacier is in the _____ mountains.

- Answer Key: Himalayan / Himalaya — It is located in the Himalayas.

Question 4

- Question ID: BK01_CH08_FIB_004
- Type: Fill in the Blanks
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Sentence Completion 4
- Marks: 1

Question: The Ganga river flows for a distance of _____ km.

- Answer Key: 2,525 — Its total length is 2,525 km.

Question 5

- Question ID: BK01_CH08_FIB_005
- Type: Fill in the Blanks
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Sentence Completion 5

- Marks: 1

Question: The Ganga river finally flows into the Bay of _____.

- **Answer Key: Bengal — It drains into the Bay of Bengal.**

Question 6

- **Question ID:** BK01_CH08_FIB_006

- **Type:** Fill in the Blanks

- **Difficulty:** Easy

- **Bloom Level:** Remembering

- **Topic:** Sentence Completion 6

- Marks: 1

Question: People lovingly call the river Ganga _____.

- **Answer Key: Mata — People call it Ganga Mata.**

Question 7

- **Question ID:** BK01_CH08_FIB_007

- **Type:** Fill in the Blanks

- **Difficulty:** Easy

- **Bloom Level:** Remembering

- **Topic:** Sentence Completion 7

- Marks: 1

Question: Millions of people depend on the Ganga for _____ water.

- **Answer Key: drinking — People rely on it for drinking water.**

Question 8

- **Question ID:** BK01_CH08_FIB_008

- **Type:** Fill in the Blanks

- **Difficulty:** Easy

- **Bloom Level:** Remembering

- **Topic:** Sentence Completion 8

- Marks: 1

Question: Farmers use Ganga water for agricultural _____.

- **Answer Key: farming / irrigation — Farmers use it for farming.**

Question 9

- **Question ID:** BK01_CH08_FIB_009

- **Type:** Fill in the Blanks

- **Difficulty:** Easy

- **Bloom Level:** Remembering

- **Topic:** Sentence Completion 9

- Marks: 1

Question: The famous religious gathering held on the banks of Ganga is the _____ Mela.

- **Answer Key: Kumbh — Kumbh Mela is held on its banks.**

Question 10

- **Question ID:** BK01_CH08_FIB_010

- **Type:** Fill in the Blanks

- **Difficulty:** Easy

- **Answer Key: survive — Correct word directly from the story passage.**

Question 38

- **Question ID:** BK01_CH08_STORY_FIB_038

- **Type:** Story Cloze Fillup

- **Difficulty:** Medium

- **Bloom Level:** Understanding

- **Topic:** Story Passage Context 38

- Marks: 1

Question: Complete the story line: "Pilgrims light small lamps and float them on the _____."

- **Answer Key: water — Correct word directly from the story passage.**

Question 39

- **Question ID:** BK01_CH08_STORY_FIB_039

- **Type:** Story Cloze Fillup

- **Difficulty:** Medium

- **Bloom Level:** Understanding

- **Topic:** Story Passage Context 39

- Marks: 1

Question: Complete the story line: "The Ganga river joins the ocean at the Bay of _____."

- **Answer Key: Bengal — Correct word directly from the story passage.**

Question 40

- **Question ID:** BK01_CH08_STORY_FIB_040

- **Type:** Story Cloze Fillup

- **Difficulty:** Medium

- **Bloom Level:** Understanding

- **Topic:** Story Passage Context 40

- Marks: 1

Question: Complete the story line: "Protecting Ganga safeguards our natural _____."

- **Answer Key: heritage — Correct word directly from the story passage.**

Question 41

- **Question ID:** BK01_CH08_STORY_FIB_041

- **Type:** Story Cloze Fillup

- **Difficulty:** Hard

- **Bloom Level:** Analyzing

- **Topic:** Story Passage Context 41

- Marks: 1

Question: Complete the story line: "Glacial retreat threatens the perennial flow of the _____."

- **Answer Key: Ganga — Correct word directly from the story passage.**

Question 42

- **Question ID:** BK01_CH08_STORY_FIB_042

- **Type:** Story Cloze Fillup

- **Difficulty:** Hard

- **Bloom Level:** Analyzing

- **Topic:** Story Passage Context 42

- Marks: 1

Question: Complete the story line: "Chemical effluents deplete dissolved oxygen in river _____."

- **Answer Key: ecosystems — Correct word directly from the story passage.**

Question 43

- **Question ID:** BK01_CH08_STORY_FIB_043

- **Type:** Story Cloze Fillup

- **Difficulty:** Hard

- **Bloom Level:** Analyzing

- **Topic:** Story Passage Context 43

- Marks: 1

Question: Complete the story line: "The Ganges River Dolphin is India's National Aquatic _____."

- **Answer Key: Animal — Correct word directly from the story passage.**

Question 44

- **Question ID:** BK01_CH08_STORY_FIB_044

- **Type:** Story Cloze Fillup

- **Difficulty:** Hard

- **Bloom Level:** Analyzing

- **Topic:** Story Passage Context 44

- Marks: 1

Question: Complete the story line: "Integrated basin management cleans tributaries and main _____."

- **Answer Key: channels — Correct word directly from the story passage.**

Question 45

- **Question ID:** BK01_CH08_STORY_FIB_045

- **Type:** Story Cloze Fillup

- **Difficulty:** Hard

- **Bloom Level:** Analyzing

- **Topic:** Story Passage Context 45

- Marks: 1

Question: Complete the story line: "Sustainable agriculture minimizes pesticide runoff into the _____."

- **Answer Key: river — Correct word directly from the story passage.**

Question 46

- Question ID: BK01_CH08_STORY_FIB_046

- Type: Story Cloze Fillup

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Story Passage Context 46

- Marks: 1

Question: Complete the story line: "Sacred traditions must be paired with environmental _____."

- **Answer Key: protection — Correct word directly from the story passage.**

Question 47

- Question ID: BK01_CH08_STORY_FIB_047

- Type: Story Cloze Fillup

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Story Passage Context 47

- Marks: 1

Question: Complete the story line: "The Sundarbans Delta is formed by Ganga and _____."

- **Answer Key: Brahmaputra — Correct word directly from the story passage.**

Question 48

- Question ID: BK01_CH08_STORY_FIB_048

- Type: Story Cloze Fillup

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Story Passage Context 48

- Marks: 1

Question: Complete the story line: "Class 1 learners adopt habits to stop water _____."

- **Answer Key: waste — Correct word directly from the story passage.**

Question 49

- Question ID: BK01_CH08_STORY_FIB_049

- Type: Story Cloze Fillup

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Story Passage Context 49

- Marks: 1

Question: Complete the story line: "Pure river water is vital for ecological _____."

- **Answer Key: balance — Correct word directly from the story passage.**

Question 50

- Question ID: BK01_CH08_STORY_FIB_050

- Type: Story Cloze Fillup

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Story Passage Context 50

- Marks: 1

Question: Complete the story line: "Chapter 08 inspires nationwide pride in Ganga's _____."

- Answer Key: heritage — Correct word directly from the story passage.

4. True / False Questions

Category: True / False | **Total:** 50 Questions | **Marks:** 1 each

Question 1

- Question ID: BK01_CH08_TF_001
- Type: True/False
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Statement Evaluation 1
- Marks: 1

Question: State True or False: The Ganga is considered the most sacred river in India.

- Answer Key: True — The Ganga is considered sacred in India.

Question 2

- Question ID: BK01_CH08_TF_002
- Type: True/False
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Statement Evaluation 2
- Marks: 1

Question: State True or False: The Ganga originates from the Gangotri Glacier in the Himalayas.

- Answer Key: True — It originates from the Gangotri Glacier.

Question 3

- Question ID: BK01_CH08_TF_003
- Type: True/False
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Statement Evaluation 3
- Marks: 1

Question: State True or False: The Ganga river flows for a total length of 2,525 km.

- Answer Key: True — Its total distance is 2,525 km.

Question 4

- Question ID: BK01_CH08_TF_004
- Type: True/False
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Statement Evaluation 4
- Marks: 1

Question: State True or False: The Ganga river drains into the Arabian Sea.

- Answer Key: False — It drains into the Bay of Bengal.

Question 5

- Question ID: BK01_CH08_TF_005
- Type: True/False
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Statement Evaluation 5

- Marks: 1

Question: State True or False: People lovingly call the river 'Ganga Mata'.

- Answer Key: True — It is lovingly called Ganga Mata.

Question 6

- Question ID: BK01_CH08_TF_006

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 6

- Marks: 1

Question: State True or False: Millions of people depend on the Ganga for drinking water and farming.

- Answer Key: True — People rely on Ganga for drinking and farming.

Question 7

- Question ID: BK01_CH08_TF_007

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 7

- Marks: 1

Question: State True or False: The famous Kumbh Mela takes place on the banks of the Ganga.

- Answer Key: True — Kumbh Mela is held along its banks.

Question 8

- Question ID: BK01_CH08_TF_008

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 8

- Marks: 1

Question: State True or False: The rare Ganges River Dolphin lives in the Ganga river.

- Answer Key: True — The Ganges River Dolphin lives in the river.

Question 9

- Question ID: BK01_CH08_TF_009

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 9

- Marks: 1

Question: State True or False: Industrial waste and garbage do not affect the Ganga's water purity.

- Answer Key: False — Waste and garbage cause severe pollution.

Question 10

- Question ID: BK01_CH08_TF_010

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 10

- Marks: 1

Question: State True or False: Namami Gange is a government project to clean and protect the Ganga.

- Answer Key: True — Namami Gange is a river clean-up project.

Question 11

- Question ID: BK01_CH08_TF_011

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 11

- Marks: 1

Question: State True or False: The word 'sacred' means dirty and useless.

- Answer Key: False — Sacred means holy and deserving deep respect.

Question 12

- Question ID: BK01_CH08_TF_012

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 12

- Marks: 1

Question: State True or False: A glacier is a large mass of moving ice.

- Answer Key: True — A glacier is a moving mass of ice.

Question 13

- Question ID: BK01_CH08_TF_013

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 13

- Marks: 1

Question: State True or False: A pilgrim travels to holy places for religious reasons.

- Answer Key: True — Pilgrims travel to holy sites for faith.

Question 14

- Question ID: BK01_CH08_TF_014

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 14

- Marks: 1

Question: State True or False: The Ganga river flows through Uttarakhand, UP, Bihar, and West Bengal.

- Answer Key: True — It passes through these Indian states.

Question 15

- Question ID: BK01_CH08_TF_015

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 15

- Marks: 1

Question: State True or False: Throwing plastic into rivers is good for fish.

- **Answer Key: False — Plastic pollutes water and harms fish.**

Question 16

- Question ID: BK01_CH08_TF_016

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 16

- Marks: 1

Question: State True or False: The Ganga is a salty sea water body.

- **Answer Key: False — The Ganga is a freshwater river.**

Question 17

- Question ID: BK01_CH08_TF_017

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 17

- Marks: 1

Question: State True or False: Taking a holy dip in the Ganga is a tradition during festivals.

- **Answer Key: True — Devotees take holy dips during festivals.**

Question 18

- Question ID: BK01_CH08_TF_018

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 18

- Marks: 1

Question: State True or False: The Gangotri Glacier is in Rajasthan.

- **Answer Key: False — Gangotri Glacier is in Uttarakhand.**

Question 19

- Question ID: BK01_CH08_TF_019

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 19

- Marks: 1

Question: State True or False: Ganga water helps farmers grow crops in northern India.

- **Answer Key: True — Its fertile water feeds crops.**

Question 20

- Question ID: BK01_CH08_TF_020

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 20

- Marks: 1

Question: State True or False: Dolphins in the Ganga use echolocation to swim and hunt.

- Answer Key: True — River dolphins use echolocation.

Question 21

- Question ID: BK01_CH08_TF_021

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 21

- Marks: 1

Question: State True or False: Chapter 08 is titled 'The Ganga River'.

- Answer Key: True — Chapter 08 is titled 'The Ganga River'.

Question 22

- Question ID: BK01_CH08_TF_022

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 22

- Marks: 1

Question: State True or False: We should dump house garbage into rivers.

- Answer Key: False — Garbage must be dumped in trash bins, not rivers.

Question 23

- Question ID: BK01_CH08_TF_023

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 23

- Marks: 1

Question: State True or False: The Ganga river also flows through Bangladesh.

- Answer Key: True — It flows through India and Bangladesh.

Question 24

- Question ID: BK01_CH08_TF_024

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 24

- Marks: 1

Question: State True or False: Glaciers are formed from compressed snow and ice over many years.

- Answer Key: True — Glaciers form from compressed snow and ice.

Question 25

- Question ID: BK01_CH08_TF_025

- Type: True/False

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Statement Evaluation 25

- Marks: 1

Question: State True or False: Chapter 08 teaches us to respect and protect our rivers.

- Answer Key: True — It teaches water protection and respect.

Question 26

- Question ID: BK01_CH08_TF_026

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 26

- Marks: 1

Question: State True or False: The Ganga basin is one of the most fertile farming areas in the world.

- Answer Key: True — It is a highly fertile agricultural plain.

Question 27

- Question ID: BK01_CH08_TF_027

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 27

- Marks: 1

Question: State True or False: Melting glacier ice stops completely in summer, drying up the river.

- Answer Key: False — Melting glacier ice feeds the river year-round.

Question 28

- Question ID: BK01_CH08_TF_028

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 28

- Marks: 1

Question: State True or False: Chemical waste from factories makes river water unsafe for drinking.

- Answer Key: True — Factory chemicals pollute drinking water.

Question 29

- Question ID: BK01_CH08_TF_029

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 29

- Marks: 1

Question: State True or False: The word 'aquatic' means living or growing in water.

- Answer Key: True — Aquatic means water-dwelling.

Question 30

- Question ID: BK01_CH08_TF_030

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 30

- Marks: 1

Question: State True or False: Plastic bottles take hundreds of years to decompose in rivers.

- Answer Key: True — Plastic takes centuries to break down.

Question 31

- Question ID: BK01_CH08_TF_031

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 31

- Marks: 1

Question: State True or False: Namami Gange works to build sewage treatment plants along the river.

- Answer Key: True — Namami Gange builds sewage treatment plants.

Question 32

- Question ID: BK01_CH08_TF_032

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 32

- Marks: 1

Question: State True or False: Varanasi is a famous holy city located along the banks of the Ganga.

- Answer Key: True — Varanasi is a holy city on the Ganga.

Question 33

- Question ID: BK01_CH08_TF_033

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 33

- Marks: 1

Question: State True or False: Trees along river banks increase soil erosion.

- Answer Key: False — Tree roots hold soil and prevent erosion.

Question 34

- Question ID: BK01_CH08_TF_034

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 34

- Marks: 1

Question: State True or False: The Ganges River Dolphin is a freshwater mammal, not a fish.

- Answer Key: True — Dolphins are aquatic mammals.

Question 35

- Question ID: BK01_CH08_TF_035

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 35

- Marks: 1

Question: State True or False: Polluted river water can cause stomach illnesses and skin infections.

- Answer Key: True — Polluted water spreads waterborne diseases.

Question 36

- Question ID: BK01_CH08_TF_036

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 36

- Marks: 1

Question: State True or False: The Ganga river begins high in the Himalayas and ends at the ocean delta.

- Answer Key: True — It flows from mountains to ocean delta.

Question 37

- Question ID: BK01_CH08_TF_037

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 37

- Marks: 1

Question: State True or False: Every citizen can help clean rivers by reducing plastic usage.

- Answer Key: True — Reducing plastic reduces river waste.

Question 38

- Question ID: BK01_CH08_TF_038

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 38

- Marks: 1

Question: State True or False: The Bay of Bengal is located to the east of India.

- Answer Key: True — Bay of Bengal lies east of India.

Question 39

- Question ID: BK01_CH08_TF_039

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 39

- Marks: 1

Question: State True or False: Fresh water makes up only a small fraction of all water on Earth.

- Answer Key: True — Fresh water is a tiny percentage of Earth's water.

Question 40

- Question ID: BK01_CH08_TF_040

- Type: True/False

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Statement Evaluation 40

- Marks: 1

Question: State True or False: Cleaning rivers protects both human health and animal lives.

- **Answer Key: True — Clean rivers benefit humans and animals.**

Question 41

- Question ID: BK01_CH08_TF_041

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Statement Evaluation 41

- Marks: 1

Question: State True or False: Over 400 million people depend on the Ganga river basin for livelihood.

- **Answer Key: True — The Ganga basin supports over 400M people.**

Question 42

- Question ID: BK01_CH08_TF_042

- Type: True/False

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Statement Evaluation 42

- Marks: 1

Question: State True or False: Chemical effluents in rivers can cause fish to die from lack of oxygen.

- **Answer Key: True — Decomposition depletes dissolved oxygen.**

Question 43

- Question ID: BK01_CH08_TF_043

- Type: True/False

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Statement Evaluation 43

- Marks: 1

Question: State True or False: The Ganges River Dolphin is blind and navigates using sound waves.

- **Answer Key: True — It is blind and relies on echolocation.**

Question 44

- Question ID: BK01_CH08_TF_044

- Type: True/False

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Statement Evaluation 44

- Marks: 1

Question: State True or False: Himalayan glacier retreat due to climate change threatens long-term river flow.

- **Answer Key: True — Glacial retreat endangers seasonal river flow.**

Question 45

- Question ID: BK01_CH08_TF_045

- Type: True/False

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Statement Evaluation 45

- Marks: 1

Question: State True or False: Deforestation in mountain catchments increases soil silt in rivers.

- Answer Key: True — Deforestation accelerates siltation.

Question 46

- Question ID: BK01_CH08_TF_046

- Type: True/False

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Statement Evaluation 46

- Marks: 1

Question: State True or False: Municipal sewage must be treated before being discharged into rivers.

- Answer Key: True — Sewage treatment prevents contamination.

Question 47

- Question ID: BK01_CH08_TF_047

- Type: True/False

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Statement Evaluation 47

- Marks: 1

Question: State True or False: Cultural reverence for rivers automatically prevents industrial pollution.

- Answer Key: False — Reverence must be supported by legal regulations.

Question 48

- Question ID: BK01_CH08_TF_048

- Type: True/False

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Statement Evaluation 48

- Marks: 1

Question: State True or False: The Ganga and Brahmaputra form the world's largest river delta (Sundarbans).

- Answer Key: True — They form the massive Sundarbans Delta.

Question 49

- Question ID: BK01_CH08_TF_049

- Type: True/False

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Statement Evaluation 49

- Marks: 1

Question: State True or False: High levels of dissolved oxygen indicate dirty, polluted river water.

- Answer Key: False — High dissolved oxygen indicates clean, healthy water.

Question 50

- Question ID: BK01_CH08_TF_050

- Type: True/False

- Difficulty: Hard

- Bloom Level: Analyzing

- Topic: Statement Evaluation 50

- Marks: 1

Question: State True or False: Chapter 08 promotes sustainable water management for future generations.

- Answer Key: True — It promotes sustainable water management.

5. Short Answer Questions

Category: Short Answer Questions | **Total:** 50 Questions | **Marks:** 2 each

Question 1

- Question ID: BK01_CH08_SA_001
- Type: Short Answer
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Short Comprehension 1
- Marks: 2

Question: Which river is considered the most sacred in India?

- Answer Key: The Ganga river is considered the most sacred river in India.

Question 2

- Question ID: BK01_CH08_SA_002
- Type: Short Answer
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Short Comprehension 2
- Marks: 2

Question: Where does the Ganga river originate?

- Answer Key: It originates from the Gangotri Glacier in the Himalayan mountains of Uttarakhand.

Question 3

- Question ID: BK01_CH08_SA_003
- Type: Short Answer
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Short Comprehension 3
- Marks: 2

Question: How long is the Ganga river?

- Answer Key: The Ganga river flows for a total distance of 2,525 km.

Question 4

- Question ID: BK01_CH08_SA_004
- Type: Short Answer
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Short Comprehension 4
- Marks: 2

Question: Where does the Ganga river finally drain?

- Answer Key: The Ganga river drains into the Bay of Bengal ocean.

Question 5

- Question ID: BK01_CH08_SA_005
- Type: Short Answer
- Difficulty: Easy
- Bloom Level: Remembering
- Topic: Short Comprehension 5

- Marks: 2

Question: What do people lovingly call the Ganga river?

- Answer Key: People lovingly call the river 'Ganga Mata' (Mother Ganga).

Question 6

- Question ID: BK01_CH08_SA_006

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 6

- Marks: 2

Question: Name two main uses of Ganga water for human life.

- Answer Key: Ganga water is used for drinking water supply and agricultural farming.

Question 7

- Question ID: BK01_CH08_SA_007

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 7

- Marks: 2

Question: What famous religious gathering happens along the Ganga river?

- Answer Key: The famous Kumbh Mela gathering takes place along the banks of the Ganga.

Question 8

- Question ID: BK01_CH08_SA_008

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 8

- Marks: 2

Question: Which rare aquatic animal lives in the Ganga river?

- Answer Key: The rare Ganges River Dolphin lives in the Ganga river.

Question 9

- Question ID: BK01_CH08_SA_009

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 9

- Marks: 2

Question: What major problem threatens the cleanliness of the Ganga?

- Answer Key: Pollution from factory waste, city sewage, and plastic garbage threatens its cleanliness.

Question 10

- Question ID: BK01_CH08_SA_010

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 10

- Marks: 2

Question: What is the name of the government program launched to clean the Ganga?

- **Answer Key:** The government program is called 'Namami Gange'.

Question 11

- Question ID: BK01_CH08_SA_011

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 11

- Marks: 2

Question: What does the word 'sacred' mean?

- **Answer Key:** 'Sacred' means holy, divine, and deserving deep respect.

Question 12

- Question ID: BK01_CH08_SA_012

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 12

- Marks: 2

Question: What does the word 'glacier' mean?

- **Answer Key:** 'Glacier' means a huge, slow-moving mass of ice formed from snow.

Question 13

- Question ID: BK01_CH08_SA_013

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 13

- Marks: 2

Question: What does the word 'pilgrim' mean?

- **Answer Key:** 'Pilgrim' means a person who travels to a sacred place for religious devotion.

Question 14

- Question ID: BK01_CH08_SA_014

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 14

- Marks: 2

Question: What does the word 'aquatic' mean?

- **Answer Key:** 'Aquatic' means living, growing, or taking place in water.

Question 15

- Question ID: BK01_CH08_SA_015

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 15

- Marks: 2

Question: Which state contains the Gangotri Glacier?

- **Answer Key:** The Gangotri Glacier is located in the mountain state of Uttarakhand.

Question 16

- Question ID: BK01_CH08_SA_016

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 16

- Marks: 2

Question: Why do millions of pilgrims take a holy dip in the Ganga?

- **Answer Key:** They take a holy dip to feel spiritually clean, offer prayers, and show devotion.

Question 17

- Question ID: BK01_CH08_SA_017

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 17

- Marks: 2

Question: Is the Ganga a freshwater river or a saltwater sea?

- **Answer Key:** The Ganga is a freshwater river.

Question 18

- Question ID: BK01_CH08_SA_018

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 18

- Marks: 2

Question: What happens when people throw plastic bags into the river?

- **Answer Key:** Plastic bags pollute the water, block river channels, and harm fish and aquatic animals.

Question 19

- Question ID: BK01_CH08_SA_019

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 19

- Marks: 2

Question: Which countries does the Ganga river flow through?

- **Answer Key:** The Ganga river flows through India and Bangladesh.

Question 20

- Question ID: BK01_CH08_SA_020

- Type: Short Answer

- Difficulty: Easy

- Bloom Level: Remembering

- Topic: Short Comprehension 20

- Marks: 2

Question: How does Ganga water help farmers?

- **Answer Key:** Ganga water provides rich soil nutrients and water to irrigate crops in northern India.

Question 21

- **Question ID:** BK01_CH08_SA_021

- **Type:** Short Answer

- **Difficulty:** Easy

- **Bloom Level:** Remembering

- **Topic:** Short Comprehension 21

- Marks: 2

Question: What title does Chapter 08 carry?

- **Answer Key:** Chapter 08 is titled 'The Ganga River'.

Question 22

- **Question ID:** BK01_CH08_SA_022

- **Type:** Short Answer

- **Difficulty:** Easy

- **Bloom Level:** Remembering

- **Topic:** Short Comprehension 22

- Marks: 2

Question: Why is clean drinking water necessary for human health?

- **Answer Key:** Clean water prevents waterborne diseases and keeps our bodies healthy.

Question 23

- **Question ID:** BK01_CH08_SA_023

- **Type:** Short Answer

- **Difficulty:** Easy

- **Bloom Level:** Remembering

- **Topic:** Short Comprehension 23

- Marks: 2

Question: What tool do Ganges River Dolphins use to navigate in cloudy water?

- **Answer Key:** Ganges River Dolphins use sound waves called echolocation to navigate and hunt.

Question 24

- **Question ID:** BK01_CH08_SA_024

- **Type:** Short Answer

- **Difficulty:** Easy

- **Bloom Level:** Remembering

- **Topic:** Short Comprehension 24

- Marks: 2

Question: Why should we keep river banks clean?

- **Answer Key:** Keeping river banks clean stops trash from washing into the water and polluting it.

Question 25

- **Question ID:** BK01_CH08_SA_025

- **Type:** Short Answer

- **Difficulty:** Easy

- **Bloom Level:** Remembering

- **Topic:** Short Comprehension 25

- Marks: 2

Question: What key message does Chapter 08 teach Class 1 students?

- Answer Key: It teaches students to respect rivers, avoid throwing trash, and save clean water.

Question 26

- Question ID: BK01_CH08_SA_026

- Type: Short Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Short Comprehension 26

- Marks: 2

Question: Why is the Ganga basin called the 'agricultural lifeline' of northern India?

- Answer Key: Because its water and fertile silt irrigate vast farmlands that feed over 400 million people.

Question 27

- Question ID: BK01_CH08_SA_027

- Type: Short Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Short Comprehension 27

- Marks: 2

Question: How do Himalayan glaciers keep the Ganga flowing throughout the year?

- Answer Key: Glacier ice melts slowly during warm months, providing a continuous supply of fresh water to the river.

Question 28

- Question ID: BK01_CH08_SA_028

- Type: Short Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Short Comprehension 28

- Marks: 2

Question: What are the main sources of water pollution in the Ganga?

- Answer Key: Main sources include untreated city sewage, toxic industrial chemicals, plastic waste, and garbage.

Question 29

- Question ID: BK01_CH08_SA_029

- Type: Short Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Short Comprehension 29

- Marks: 2

Question: Why is the Ganges River Dolphin an endangered mammal?

- Answer Key: It is endangered due to water pollution, plastic waste, fishing nets, and dam constructions.

Question 30

- Question ID: BK01_CH08_SA_030

- Type: Short Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Short Comprehension 30

- Marks: 2

Question: What steps does the 'Namami Gange' project take to clean the river?

- Answer Key: It builds sewage treatment plants, stops factory waste, cleans riverfronts, and plants trees along banks.

Question 31

- Question ID: BK01_CH08_SA_031

- Type: Short Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Short Comprehension 31

- Marks: 2

Question: How does plastic waste harm aquatic life in rivers?

- Answer Key: Aquatic animals eat plastic thinking it is food or get tangled in plastic waste, causing choking and death.

Question 32

- Question ID: BK01_CH08_SA_032

- Type: Short Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Short Comprehension 32

- Marks: 2

Question: What is the difference between a river source and a river mouth?

- Answer Key: A river source is where the river begins (Glacier); a river mouth is where it empties into an ocean (Bay of Bengal).

Question 33

- Question ID: BK01_CH08_SA_033

- Type: Short Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Short Comprehension 33

- Marks: 2

Question: Why are holy cities like Haridwar and Varanasi located on the banks of Ganga?

- Answer Key: Because the river provided fresh water, transportation, and spiritual sanctity, leading to ancient city settlements.

Question 34

- Question ID: BK01_CH08_SA_034

- Type: Short Answer

- Difficulty: Medium

- Bloom Level: Understanding

- Topic: Short Comprehension 34

- Marks: 2

Question: How do tree roots planted along river banks prevent soil erosion?

- Answer Key: Tree roots hold soil tightly together, preventing rainwater and river currents from washing soil away.

Question 35

- Question ID: BK01_CH08_SA_035

- Type: Short Answer

- Difficulty: Medium

- **Bloom Level:** Understanding
- **Topic:** Short Comprehension 35
- **Marks:** 2

Question: Why is untreated industrial waste dangerous for river water?

- **Answer Key:** Industrial waste contains toxic chemicals that poison fish, destroy aquatic plants, and ruin drinking water.

Question 36

- **Question ID:** BK01_CH08_SA_036
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** Short Comprehension 36
- **Marks:** 2

Question: How does waterborne disease spread through polluted rivers?

- **Answer Key:** Bacteria and viruses in polluted river water infect people who drink or bathe in the contaminated water.

Question 37

- **Question ID:** BK01_CH08_SA_037
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** Short Comprehension 37
- **Marks:** 2

Question: What role do citizens play in keeping local water bodies clean?

- **Answer Key:** Citizens can stop throwing trash into drains, reduce plastic use, and participate in community clean-up drives.

Question 38

- **Question ID:** BK01_CH08_SA_038
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** Short Comprehension 38
- **Marks:** 2

Question: How does the Ganga river change as it flows from mountains to flat plains?

- **Answer Key:** In mountains it is fast, cold, and narrow; in flat plains it becomes wide, slower, and carries fertile silt.

Question 39

- **Question ID:** BK01_CH08_SA_039
- **Type:** Short Answer
- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** Short Comprehension 39
- **Marks:** 2

Question: Why is fresh water considered a precious natural resource?

- **Answer Key:** Because only a tiny fraction of Earth's water is fresh and drinkable, and all land life depends on it.

Question 40

- **Question ID:** BK01_CH08_SA_040
- **Type:** Short Answer

- **Difficulty:** Medium
- **Bloom Level:** Understanding
- **Topic:** Short Comprehension 40
- **Marks:** 2

Question: Summarize Chapter 08 in two clear sentences.

- Answer Key: Chapter 08 explains that the Ganga is India's sacred 2,525 km river originating from the Himalayas and flowing into the Bay of Bengal. It emphasizes the need to protect the river from pollution and keep its water clean.

Question 41

- **Question ID:** BK01_CH08_SA_041
- **Type:** Short Answer
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Topic:** Short Comprehension 41
- **Marks:** 2

Question: Analyze the socio-economic significance of the Ganga river basin to India.

- Answer Key: The Ganga basin supports nearly 40% of India's population, driving agriculture, fisheries, industry, tourism, and spiritual culture across northern states.

Question 42

- **Question ID:** BK01_CH08_SA_042
- **Type:** Short Answer
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Topic:** Short Comprehension 42
- **Marks:** 2

Question: Evaluate the impact of chemical effluents on dissolved oxygen levels in rivers.

- Answer Key: Chemical effluents promote excessive algae growth and bacterial decomposition, which consumes dissolved oxygen, causing mass fish deaths.

Question 43

- **Question ID:** BK01_CH08_SA_043
- **Type:** Short Answer
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Topic:** Short Comprehension 43
- **Marks:** 2

Question: How does climate change and rapid glacier melting threaten the Ganga's future flow?

- Answer Key: Accelerated melting initially causes destructive flooding, followed by severe long-term water shortages during dry summer months.

Question 44

- **Question ID:** BK01_CH08_SA_044
- **Type:** Short Answer
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Topic:** Short Comprehension 44
- **Marks:** 2

Question: Why is the Ganges River Dolphin classified as an 'indicator species' for ecosystem health?

- Answer Key: Because dolphins require clean, oxygen-rich freshwater; their presence confirms healthy water, while their absence signals high pollution.

Question 45

- Question ID: BK01_CH08_SA_045
- Type: Short Answer
- Difficulty: Hard
- Bloom Level: Analyzing
- Topic: Short Comprehension 45
- Marks: 2

Question: Formulate a Class 1 school campaign to raise awareness about river cleanliness.

- Answer Key: Students create colorful posters titled 'Clean Ganga, Green India', pledge to use cloth bags, and perform a short play on saving water.

Question 46

- Question ID: BK01_CH08_SA_046
- Type: Short Answer
- Difficulty: Hard
- Bloom Level: Analyzing
- Topic: Short Comprehension 46
- Marks: 2

Question: Deconstruct the topographical journey of the Ganga from origin to sea.

- Answer Key: Gangotri Glacier (Source) -> Himalayan streams -> Gangetic Plains (Agriculture) -> Sundarbans Delta -> Bay of Bengal (Destination).

Question 47

- Question ID: BK01_CH08_SA_047
- Type: Short Answer
- Difficulty: Hard
- Bloom Level: Analyzing
- Topic: Short Comprehension 47
- Marks: 2

Question: Compare traditional spiritual veneration of Ganga with modern industrial exploitation.

- Answer Key: Tradition honors Ganga as a divine mother nourishing life; modern industrialization treats the river as a convenient drain for toxic waste.

Question 48

- Question ID: BK01_CH08_SA_048
- Type: Short Answer
- Difficulty: Hard
- Bloom Level: Analyzing
- Topic: Short Comprehension 48
- Marks: 2

Question: Why is integrated watershed management more effective than cleaning isolated river stretches?

- Answer Key: Watershed management cleans the main river along with all its tributaries, addressing pollution at its root source across the entire basin.

Question 49

- Question ID: BK01_CH08_SA_049
- Type: Short Answer

- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Topic:** Short Comprehension 49
- **Marks:** 2

Question: How does excessive groundwater pumping impact river baseflow during dry seasons?

- **Answer Key:** Lowering underground aquifers reduces natural groundwater seepage into rivers, causing river levels to drop severely during dry months.

Question 50

- **Question ID:** BK01_CH08_SA_050
- **Type:** Short Answer
- **Difficulty:** Hard
- **Bloom Level:** Analyzing
- **Topic:** Short Comprehension 50
- **Marks:** 2

Question: Synthesize the ultimate educational message of Chapter 08 for primary learners.

- **Answer Key:** Our rivers are life-giving treasures: protect them from pollution, conserve every drop of water, and honor nature's sacred gift!

6. Long Answer Questions

Category: Long Answer Questions | **Total:** 50 Questions | **Marks:** 5 each

Question 1

- Question ID: BK01_CH08_LA_001
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Comprehensive Analysis 1
- Marks: 5

Question: Write a simple summary of Chapter 08 'The Ganga River'.

- Answer Key: The Ganga is considered the most sacred river in India. It originates from the Gangotri Glacier in the Himalayan mountains of Uttarakhand and flows over a distance of 2,525 km through northern India and Bangladesh before entering the Bay of Bengal. Millions of people rely on the Ganga for drinking water, farming, and daily life. People lovingly call it Ganga Mata. Famous festivals like the Kumbh Mela take place on its banks. It is home to the rare Ganges River Dolphin. However, pollution from factory waste and garbage threatens its purity. Government programs like Namami Gange aim to clean and protect this sacred river.

Question 2

- Question ID: BK01_CH08_LA_002
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Comprehensive Analysis 2
- Marks: 5

Question: Describe the origin, journey, and final destination of the Ganga river.

- Answer Key: The Ganga river begins its journey high up in the cold Himalayan mountains of Uttarakhand from the Gangotri Glacier. From the mountains, it flows down into the wide, fertile plains of northern and eastern India, passing through states like Uttar Pradesh, Bihar, and West Bengal. It then flows into Bangladesh and finally empties into the Bay of Bengal ocean, covering a grand distance of 2,525 km.

Question 3

- Question ID: BK01_CH08_LA_003
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Comprehensive Analysis 3
- Marks: 5

Question: Why is the Ganga river called 'Ganga Mata' by millions of people?

- Answer Key: The Ganga river is called 'Ganga Mata' (Mother Ganga) because it acts like a mother to millions of people. It provides clean drinking water, feeds crops on farms, supports daily living, and nourishes the land. People hold deep spiritual respect for the river and treat it as a sacred life-giver.

Question 4

- Question ID: BK01_CH08_LA_004
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Comprehensive Analysis 4

- Marks: 5

Question: Explain the importance of the Ganga river for farmers and agriculture.

- Answer Key: The Ganga river is vital for agriculture in northern India. As it flows, it carries rich silt and mineral-rich sediment from the mountains, making the surrounding soil extremely fertile. Farmers use river water to irrigate crops like rice, wheat, and sugarcane, providing food for millions.

Question 5

- Question ID: BK01_CH08_LA_005

- Type: Long Answer

- Difficulty: Easy

- Bloom Level: Understanding

- Topic: Comprehensive Analysis 5

- Marks: 5

Question: Describe the Ganges River Dolphin and its habitat in the Ganga.

- Answer Key: The Ganges River Dolphin is a rare freshwater aquatic mammal that lives in the Ganga river. It is nearly blind and relies on sound waves (echolocation) to navigate and hunt fish in the river's fresh waters. It is India's National Aquatic Animal and needs clean water to survive.

Question 6

- Question ID: BK01_CH08_LA_006

- Type: Long Answer

- Difficulty: Easy

- Bloom Level: Understanding

- Topic: Comprehensive Analysis 6

- Marks: 5

Question: What are the major causes of pollution in the Ganga river?

- Answer Key: The major causes of pollution in the Ganga river include factory chemical waste (industrial effluents), untreated city sewage dumped into the river, plastic bags, household garbage, and unmanaged waste from large religious gatherings along the river banks.

Question 7

- Question ID: BK01_CH08_LA_007

- Type: Long Answer

- Difficulty: Easy

- Bloom Level: Understanding

- Topic: Comprehensive Analysis 7

- Marks: 5

Question: What is the 'Namami Gange' mission and what does it do?

- Answer Key: Namami Gange is a major clean-up mission launched by the Indian government to clean and protect the Ganga river. It builds sewage treatment plants to stop dirty water from entering the river, cleans riverfronts, plants trees along banks, and spreads public awareness about water cleanliness.

Question 8

- Question ID: BK01_CH08_LA_008

- Type: Long Answer

- Difficulty: Easy

- Bloom Level: Understanding

- Topic: Comprehensive Analysis 8

- Marks: 5

Question: Why is taking a holy dip in the Ganga significant for pilgrims?

- Answer Key: Taking a holy dip in the Ganga is a sacred tradition for millions of Hindu pilgrims. Devotees believe that bathing in its holy waters cleanses spiritual impurities, brings peace to the mind, and expresses deep faith and gratitude to Mother Ganga.

Question 9

- Question ID: BK01_CH08_LA_009
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Comprehensive Analysis 9
- Marks: 5

Question: Explain the meaning of the terms 'sacred', 'glacier', 'pilgrim', and 'aquatic'.

- Answer Key: • Sacred: Holy, divine, and deserving deep respect.

- Glacier: A huge, slow-moving mass of ice formed from snow.
- Pilgrim: A person who travels to a sacred place for religious faith.
- Aquatic: Related to living, growing, or existing in water.

Question 10

- Question ID: BK01_CH08_LA_010
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Comprehensive Analysis 10
- Marks: 5

Question: How does plastic garbage harm fish and river dolphins in the Ganga?

- Answer Key: When plastic bottles and bags are thrown into the river, fish and river dolphins can mistake plastic for food, causing choking and digestive blockage. Animals can also become trapped in plastic waste, leading to injuries and death.

Question 11

- Question ID: BK01_CH08_LA_011
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Comprehensive Analysis 11
- Marks: 5

Question: Describe the famous Kumbh Mela festival held along the Ganga.

- Answer Key: The Kumbh Mela is one of the largest peaceful religious gatherings in the world. Millions of pilgrims, sadhus, and visitors assemble on the banks of the Ganga at holy cities like Haridwar and Prayagraj to pray, sing hymns, and take holy baths in the sacred river.

Question 12

- Question ID: BK01_CH08_LA_012
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Comprehensive Analysis 12
- Marks: 5

Question: Why is fresh river water essential for towns and cities along its banks?

- Answer Key: Towns and cities rely on fresh river water for daily municipal drinking water, cooking, cleaning, sanitation, industrial processing, and watering public gardens. Without river water, urban life cannot function.

Question 13

- Question ID: BK01_CH08_LA_013
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Comprehensive Analysis 13
- Marks: 5

Question: How do trees and plants along river banks help keep the river healthy?

- Answer Key: Trees and plants along river banks have deep roots that bind the soil, preventing bank erosion during floods. Their roots also filter dirt and pollutants from rainwater runoff before it reaches the river.

Question 14

- Question ID: BK01_CH08_LA_014
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Comprehensive Analysis 14
- Marks: 5

Question: What can Class 1 children do to save water and keep rivers clean?

- Answer Key: Children can save water by turning off running taps while brushing teeth, using buckets instead of hoses, using trash bins instead of littering, using cloth bags instead of plastic, and spreading awareness at home.

Question 15

- Question ID: BK01_CH08_LA_015
- Type: Long Answer
- Difficulty: Easy
- Bloom Level: Understanding
- Topic: Comprehensive Analysis 15
- Marks: 5

Question: What basic lessons does Chapter 08 teach us about environmental care?

- Answer Key: Chapter 08 teaches us that natural rivers are precious lifelines. We must respect water bodies, stop water pollution, preserve aquatic animals like dolphins, and work together to keep our environment clean and green.

Question 16

- Question ID: BK01_CH08_LA_016
- Type: Long Answer
- Difficulty: Medium
- Bloom Level: Analyzing
- Topic: Comprehensive Analysis 16
- Marks: 5

Question: Analyze how the Ganga river supports the economy and population of northern India.

- Answer Key: The Ganga basin supports over 400 million people by fueling agricultural production, providing municipal drinking water, supporting river fisheries, generating hydroelectric energy, and driving pilgrimage tourism in cities like Haridwar, Rishikesh, and Varanasi.

Question 17

- Question ID: BK01_CH08_LA_017

- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Topic:** Comprehensive Analysis 17
- **Marks:** 5

Question: Explain the natural water cycle that forms and feeds the Ganga river.

- **Answer Key:** Moisture from the ocean forms clouds that drop snow on the high Himalayas. Snow compresses into the Gangotri Glacier. In warm months, glacier ice melts into mountain streams that join together to form the Ganga river, which flows back to the Bay of Bengal ocean.

Question 18

- **Question ID:** BK01_CH08_LA_018
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Topic:** Comprehensive Analysis 18
- **Marks:** 5

Question: Discuss the biological features that make the Ganges River Dolphin a unique mammal.

- **Answer Key:** The Ganges River Dolphin has adapted specifically to river life. Being blind in muddy water, it evolved a sophisticated echolocation system, emitting ultrasonic clicks that bounce off objects to create a mental map for swimming and catching fish.

Question 19

- **Question ID:** BK01_CH08_LA_019
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Topic:** Comprehensive Analysis 19
- **Marks:** 5

Question: Why is untreated municipal sewage a massive threat to river ecosystems?

- **Answer Key:** Untreated sewage introduces heavy organic load and disease-causing pathogens. Bacteria consuming the sewage use up dissolved oxygen in the water, causing 'dead zones' where fish and aquatic plants suffocate and die.

Question 20

- **Question ID:** BK01_CH08_LA_020
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Topic:** Comprehensive Analysis 20
- **Marks:** 5

Question: How does climate change threaten both Himalayan glaciers and river flow?

- **Answer Key:** Global warming accelerates glacier melting. In the short term, rapid melt causes devastating flash floods; in the long term, depleted glaciers will lead to severe water shortages in the Ganga during dry summer months.

Question 21

- **Question ID:** BK01_CH08_LA_021
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Topic:** Comprehensive Analysis 21

- Marks: 5

Question: Compare the Ganga river in its mountain stage with its plain stage.

- Answer Key: In the mountain stage (Uttarakhand), the Ganga is fast-flowing, cold, narrow, and cuts through deep rock gorges. In the plain stage (UP, Bihar, West Bengal), the river becomes wide, slow-moving, carries fertile silt, and feeds vast farmlands.

Question 22

- Question ID: BK01_CH08_LA_022

- Type: Long Answer

- Difficulty: Medium

- Bloom Level: Analyzing

- Topic: Comprehensive Analysis 22

- Marks: 5

Question: Write a short speech for a school assembly on 'Save Our Rivers, Save Ganga'.

- Answer Key: 'Respected Principal, teachers, and dear friends! Water is life, and the Ganga is India's sacred mother river. But plastic and factory waste are hurting Ganga Mata. Let us pledge today to stop using single-use plastic, save every drop of water, and keep our rivers clean! Thank you!'

Question 23

- Question ID: BK01_CH08_LA_023

- Type: Long Answer

- Difficulty: Medium

- Bloom Level: Analyzing

- Topic: Comprehensive Analysis 23

- Marks: 5

Question: Explain the concept of 'Bioaccumulation' in aquatic food chains.

- Answer Key: When factories dump chemical pollutants like heavy metals into rivers, small plankton absorb them. Small fish eat plankton, and big fish eat small fish. The concentration of toxic chemicals increases at each level, poisoning fish and humans who eat them.

Question 24

- Question ID: BK01_CH08_LA_024

- Type: Long Answer

- Difficulty: Medium

- Bloom Level: Analyzing

- Topic: Comprehensive Analysis 24

- Marks: 5

Question: How do ancient cultural traditions and modern environmental science agree on river care?

- Answer Key: Ancient culture revered rivers as sacred mothers to be kept pure. Modern environmental science confirms that clean, unpolluted rivers are vital for human health, biodiversity, and planetary survival. Both agree that rivers must be protected.

Question 25

- Question ID: BK01_CH08_LA_025

- Type: Long Answer

- Difficulty: Medium

- Bloom Level: Analyzing

- Topic: Comprehensive Analysis 25

- Marks: 5

Question: Describe the steps needed to make the 'Namami Gange' project completely successful.

- Answer Key: To achieve complete success, Namami Gange requires building modern sewage treatment plants in all riverside cities, enforcing zero-discharge laws on factories, promoting organic farming to stop chemical runoff, and inspiring public participation in cleanliness.

Question 26

- Question ID: BK01_CH08_LA_026
- Type: Long Answer
- Difficulty: Medium
- Bloom Level: Analyzing
- Topic: Comprehensive Analysis 26
- Marks: 5

Question: Why are wetlands and river deltas (like the Sundarbans) ecologically important?

- Answer Key: Wetlands and deltas absorb floodwaters, filter water pollutants naturally, protect coastlines from ocean storms, and provide unique mangrove habitats for wildlife like Bengal tigers and rare birds.

Question 27

- Question ID: BK01_CH08_LA_027
- Type: Long Answer
- Difficulty: Medium
- Bloom Level: Analyzing
- Topic: Comprehensive Analysis 27
- Marks: 5

Question: How does soil erosion affect river beds and increase flood risks?

- Answer Key: When trees are cut down, rain washes soil into the river. This silt settles on the riverbed, making the river shallower. During heavy rains, the shallow river cannot hold water, causing severe overflow and flooding in nearby villages.

Question 28

- Question ID: BK01_CH08_LA_028
- Type: Long Answer
- Difficulty: Medium
- Bloom Level: Analyzing
- Topic: Comprehensive Analysis 28
- Marks: 5

Question: Explain why single-use plastic is the worst pollutant for freshwater rivers.

- Answer Key: Single-use plastic items like bags and straws do not biodegrade. They break into tiny microplastics, pollute the water for centuries, block river drainage, and choke aquatic life like fish and turtles.

Question 29

- Question ID: BK01_CH08_LA_029
- Type: Long Answer
- Difficulty: Medium
- Bloom Level: Analyzing
- Topic: Comprehensive Analysis 29
- Marks: 5

Question: How does river transport (inland waterways) benefit economic trade?

- Answer Key: Transporting goods by river barges is cheaper, uses less fuel, and produces less carbon pollution compared to road trucks, making inland waterways an eco-friendly freight option.

Question 30

- **Question ID:** BK01_CH08_LA_030
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Topic:** Comprehensive Analysis 30
- **Marks:** 5

Question: What is the role of student eco-clubs in protecting local water bodies?

- **Answer Key:** Student eco-clubs organize river bank clean-up drives, test water quality in school labs, plant trees along streams, create awareness posters, and campaign against plastic waste in their neighborhoods.

Question 31

- **Question ID:** BK01_CH08_LA_031
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Topic:** Comprehensive Analysis 31
- **Marks:** 5

Question: How do seasonal monsoons affect the flow and volume of the Ganga?

- **Answer Key:** During monsoon season (July-September), heavy rainfall dramatically increases the river's volume, causing high water levels that deposit rich fresh silt across farmlands while presenting flood challenges.

Question 32

- **Question ID:** BK01_CH08_LA_032
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Topic:** Comprehensive Analysis 32
- **Marks:** 5

Question: Describe how holy cities along the Ganga manage waste during major festivals.

- **Answer Key:** Holy cities deploy thousands of sanitation workers, set up temporary eco-toilets, place waste segregation bins along ghats, install trash nets in water, and ban plastic bags to handle festival crowds.

Question 33

- **Question ID:** BK01_CH08_LA_033
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Topic:** Comprehensive Analysis 33
- **Marks:** 5

Question: Why is clean water essential for achieving good public health in India?

- **Answer Key:** Clean water eliminates waterborne diseases like cholera, typhoid, and dysentery, reducing child illness, lowering medical costs, and improving overall community health and productivity.

Question 34

- **Question ID:** BK01_CH08_LA_034
- **Type:** Long Answer
- **Difficulty:** Medium
- **Bloom Level:** Analyzing
- **Topic:** Comprehensive Analysis 34
- **Marks:** 5

Question: How does deforestation in mountain catchments impact downstream cities?

- Answer Key: Deforestation in Himalayan slopes causes landslides, rapid runoff, and severe siltation, leading to sudden flash floods and mud deposits in downstream cities along the plains.

Question 35

- Question ID: BK01_CH08_LA_035
- Type: Long Answer
- Difficulty: Medium
- Bloom Level: Analyzing
- Topic: Comprehensive Analysis 35
- Marks: 5

Question: Summarize Chapter 08 in four comprehensive bullet points.

- Answer Key: • The Ganga is India's sacred 2,525 km river flowing from Gangotri Glacier to the Bay of Bengal.

- It supports 400M+ people, feeds rich farmlands, and shelters rare Ganges River Dolphins.
- Pollution from industrial chemicals, sewage, and plastic severely threatens river health.
- National projects like Namami Gange and public awareness are vital to restore its purity.

Question 36

- Question ID: BK01_CH08_LA_036
- Type: Long Answer
- Difficulty: Hard
- Bloom Level: Evaluating
- Topic: Comprehensive Analysis 36
- Marks: 5

Question: Critique the conflict between rapid industrial urbanization and river ecosystem preservation along the Ganga basin.

- Answer Key: Rapid urbanization and industrial expansion along the Gangetic plain generate massive volumes of untreated sewage and toxic effluents. Prioritizing short-term economic output over environmental regulation has degraded water quality, threatened aquatic biodiversity, and endangered public health.

Question 37

- Question ID: BK01_CH08_LA_037
- Type: Long Answer
- Difficulty: Hard
- Bloom Level: Evaluating
- Topic: Comprehensive Analysis 37
- Marks: 5

Question: Deconstruct the hydrological relationship between Himalayan glaciers, monsoon dynamics, and river discharge.

- Answer Key: The Ganga's flow is sustained by a dual hydrological engine: snowpack/glacier melt provides perennial baseflow during dry spring months, while summer monsoon precipitation provides massive seasonal surges. Disruption of either engine due to climate change threatens year-round water security.

Question 38

- Question ID: BK01_CH08_LA_038
- Type: Long Answer
- Difficulty: Hard
- Bloom Level: Evaluating
- Topic: Comprehensive Analysis 38
- Marks: 5

Question: Evaluate the ecological role of the Sundarbans Delta as a natural barrier and biodiversity hotspot.

- Answer Key: Formed by the confluence of Ganga and Brahmaputra, the Sundarbans is the world's largest mangrove delta. It acts as a bio-shield buffering inland regions from tropical cyclones, traps river silt, and harbors endangered species like the Royal Bengal tiger and estuarine crocodile.

Question 39

- Question ID: BK01_CH08_LA_039
- Type: Long Answer
- Difficulty: Hard
- Bloom Level: Evaluating
- Topic: Comprehensive Analysis 39
- Marks: 5

Question: Analyze the concept of 'Environmental Flow' (E-Flow) for river health.

- Answer Key: Environmental Flow refers to the minimum water volume and quality required to maintain river ecosystem health, transport sediment, sustain aquatic life, and support human livelihoods. Dam construction must preserve E-Flows to prevent rivers from drying into stagnant pools.

Question 40

- Question ID: BK01_CH08_LA_040
- Type: Long Answer
- Difficulty: Hard
- Bloom Level: Evaluating
- Topic: Comprehensive Analysis 40
- Marks: 5

Question: Discuss the integration of legal rights for natural entities (e.g., granting living entity status to rivers).

- Answer Key: Granting legal personhood to rivers like the Ganga gives them legal rights against pollution and destruction. Courts appoint guardians to sue polluters on behalf of the river, elevating environmental protection to fundamental legal rights.

Question 41

- Question ID: BK01_CH08_LA_041
- Type: Long Answer
- Difficulty: Hard
- Bloom Level: Evaluating
- Topic: Comprehensive Analysis 41
- Marks: 5

Question: Formulate an interdisciplinary Class 1 learning project integrating Geography, Science, and Ethics around Chapter 08.

- Answer Key: Students map the river's path from mountains to sea (Geography), experiment with water filtration using sand and pebbles (Science), and write promises to respect water bodies (Ethics), building holistic understanding.

Question 42

- Question ID: BK01_CH08_LA_042
- Type: Long Answer
- Difficulty: Hard
- Bloom Level: Evaluating
- Topic: Comprehensive Analysis 42
- Marks: 5

Question: Differentiate between point-source pollution and non-point-source pollution in river systems.

- Answer Key: • Point-source pollution enters rivers from single identifiable pipes (factory discharge, municipal drain).

- Non-point-source pollution enters from broad diffuse areas (agricultural fertilizer runoff, urban rainwater wash-off).

Question 43

- **Question ID:** BK01_CH08_LA_043
- **Type:** Long Answer
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Topic:** Comprehensive Analysis 43
- **Marks:** 5

Question: Examine the biochemical impact of heavy metal accumulation (mercury, lead) in Gangetic fish.

- Answer Key: Factory effluents release heavy metals into river water. Metals bioaccumulate in fish tissue without breaking down. Consuming contaminated fish causes neurological, renal, and developmental disorders in human populations.

Question 44

- **Question ID:** BK01_CH08_LA_044
- **Type:** Long Answer
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Topic:** Comprehensive Analysis 44
- **Marks:** 5

Question: Why is public policy enforcement often the weakest link in river restoration programs?

- Answer Key: Despite robust legislation, weak enforcement stems from municipal corruption, industrial lobbying, lack of monitoring technology, and fragmented jurisdiction across multiple state governments along the river's path.

Question 45

- **Question ID:** BK01_CH08_LA_045
- **Type:** Long Answer
- **Difficulty:** Hard
- **Bloom Level:** Evaluating
- **Topic:** Comprehensive Analysis 45
- **Marks:** 5

Question: Synthesize the ultimate educational philosophy of Chapter 08 for primary learners.

- Answer Key: Water is the sacred essence of life. Respecting the Ganga means recognizing our shared responsibility to honor natural resources, stop environmental degradation, and preserve a clean, living planet for generations to come!
