CHAPTER 04 QUESTION BANK (250 QUESTIONS)

Subject: English	Class: IV
Chapter: 04	Total Questions: 250 (25 per category across 10 files)
Source: Praxis Comprehension & Composition 4	Board / Blueprint: ICSE Class IV English Pattern

1. Multiple Choice Questions (MCQs)

Question 1

Question ID: CH04-MCQ-001

Type: MCQ

Difficulty: Easy

Bloom Level: Remember

Topic: Purpose of Traffic Signals

Marks: 1

Question: What is the primary purpose of traffic signals on roads?

- (A) To display colorful light decorations
- (B) To regulate the flow of automobiles and reduce road accidents
- (C) To increase the speed of vehicles
- (D) To sell commercial advertisements

Question 2

Question ID: CH04-MCQ-002

Type: MCQ

Difficulty: Easy

Bloom Level: Remember

Topic: Historical Timeline

Marks: 1

Question: Did traffic signals come into existence before or after automobiles were invented?

- (A) Long before automobiles were invented
- (B) Long after automobiles were invented
- (C) On the exact same day
- (D) Traffic signals are not yet invented

Question 3

Question ID: CH04-MCQ-003

Type: MCQ

Difficulty: Easy

Bloom Level: Remember

Topic: Historical Date

Marks: 1

Question: On what exact date were the world's first gas-lit traffic lights installed?

- (A) August 15, 1947
- (B) December 10, 1868
- (C) January 26, 1950
- (D) October 2, 1869

Question 4

Question ID: CH04-MCQ-004

Type: MCQ

Difficulty: Easy

Bloom Level: Remember

Topic: Location

Marks: 1

Question: Where were the first gas-lit traffic lights installed in 1868?

- (A) Outside the White House in Washington
- (B) Outside the Houses of Parliament in London
- (C) Near the Eiffel Tower in Paris
- (D) In front of Buckingham Palace

Question 5

Question ID: CH04-MCQ-005

Type: MCQ

Difficulty: Easy

Bloom Level: Remember

Topic: Inventor / Engineer

Marks: 1

Question: Who proposed the installation of the first gas-lit traffic lights?

- (A) Garrett Morgan
- (B) J.P. Knight
- (C) Thomas Edison
- (D) Alexander Graham Bell

Question 6

Question ID: CH04-MCQ-006

Type: MCQ

Difficulty: Medium

Bloom Level: Remember

Topic: Profession

Marks: 1

Question: What was J.P. Knight's profession?

- (A) A car driver
- (B) A British railway engineer
- (C) A police officer
- (D) A ship captain

Question 7

Question ID: CH04-MCQ-007

Type: MCQ

Difficulty: Easy

Bloom Level: Remember

Topic: Electric Traffic Light Inventor

Marks: 1

Question: Who invented the electric traffic lights in the year 1923?

- (A) J.P. Knight
- (B) Garrett Morgan
- (C) Nikola Tesla
- (D) Wright Brothers

Question 8

Question ID: CH04-MCQ-008

Type: MCQ

Difficulty: Medium

Bloom Level: Understand

Topic: Signal Color Meaning

Marks: 1

Question: Why was **red** chosen as the signal color to stop carriages?

- (A) Because red is a dark color
- (B) Because red represented caution or danger in most cultures
- (C) Because red was the cheapest dye available
- (D) Because horses liked the color red

Question 9

Question ID: CH04-MCQ-009

Type: MCQ

Difficulty: Medium

Bloom Level: Understand

Topic: Signal Color Meaning

Marks: 1

Question: What was the meaning of the **green** light?

- (A) To stop immediately

- (B) To proceed, as green was determined to be a reassuring color
- (C) To turn back
- (D) To park the vehicle

Question 10

Question ID: CH04-MCQ-010

Type: MCQ

Difficulty: Easy

Bloom Level: Remember

Topic: Signal Color Meaning

Marks: 1

Question: Why was the ****yellow**** (amber) light added to traffic signals later on?

- (A) To make signals look colorful
- (B) To give time to commuters to get ready to move
- (C) To signal that rain is coming
- (D) To turn off the lights

Question 11

Question ID: CH04-MCQ-011

Type: MCQ

Difficulty: Medium

Bloom Level: Understand

Topic: Transport Mode in 1800s

Marks: 1

Question: How did people travel in the 1800s before cars became common?

- (A) On high-speed trains
- (B) On foot or driven around in horse-drawn carriages
- (C) In electric buses
- (D) On motorcycles

Question 12

Question ID: CH04-MCQ-012

Type: MCQ

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 1

Question: What is the textbook meaning of the word ****pedestrian****?

- (A) A person riding a bicycle
- (B) A person who is walking on the streets
- (C) A person driving a sports car
- (D) A traffic police officer

Question 13

Question ID: CH04-MCQ-013

Type: MCQ

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 1

Question: What does the word **'commuter'** mean?

- (A) A person who regularly travels between work and home
- (B) A computer engineer
- (C) A shopkeeper
- (D) A tourist visiting a country

Question 14

Question ID: CH04-MCQ-014

Type: MCQ

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 1

Question: What is the meaning of the word **'crossroads'**?

- (A) A railway track
- (B) A place where two or more roads cross each other
- (C) A dead-end street
- (D) A highway bridge

Question 15

Question ID: CH04-MCQ-015

Type: MCQ

Difficulty: Hard

Bloom Level: Analyze

Topic: Evolution of Technology

Marks: 1

Question: Why were early gas-fuelled traffic lights considered tricky and strenuous?

- (A) They were too bright.
- (B) They required manual control and gas fuel, posing operational difficulty and risk.
- (C) They were too cheap.
- (D) They required computer programming.

Question 16

Question ID: CH04-MCQ-016

Type: MCQ

Difficulty: Medium

Bloom Level: Apply

Topic: Modern Technology

Marks: 1

Question: What type of traffic lights do we have today at major intersections worldwide?

- (A) Hand-held candle lanterns
- (B) Advanced electronic automated lights
- (C) Coal-fired steam lights
- (D) Kerosene oil lamps

Question 17

Question ID: CH04-MCQ-017

Type: MCQ

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 1

Question: What does **'regulate'** mean in **'regulate the flow of automobiles'**?

- (A) To stop completely
- (B) To control something by using rules or laws
- (C) To speed up recklessly
- (D) To destroy

Question 18

Question ID: CH04-MCQ-018

Type: MCQ

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 1

Question: What is the meaning of **'intervals'** in **'turns at regular intervals'**?

- (A) A sudden loud noise
- (B) A period of time between two events
- (C) A long road trip
- (D) A heavy rainstorm

Question 19

Question ID: CH04-MCQ-019

Type: MCQ

Difficulty: Hard

Bloom Level: Analyze

Topic: Text Purpose

Marks: 1

Question: What genre of text is **'Beginnings of Traffic Lights'**?

- (A) A Panchatantra fable
- (B) An informative / historical non-fiction text
- (C) A fairy tale
- (D) A poem

Question 20

Question ID: CH04-MCQ-020

Type: MCQ

Difficulty: Medium

Bloom Level: Apply

Topic: Grammar - Parts of Speech

Marks: 1

Question: In the phrase **"gas-lit traffic lights"**, what part of speech is **'gas-lit'**?

- (A) Noun
- (B) Verb
- (C) Adjective
- (D) Adverb

Question 21

Question ID: CH04-MCQ-021

Type: MCQ

Difficulty: Medium

Bloom Level: Apply

Topic: Grammar - Proper Nouns

Marks: 1

Question: Which pair contains Proper Nouns from Chapter 04?

- (A) road, car
- (B) J.P. Knight, London
- (C) green, yellow
- (D) carriage, light

Question 22

Question ID: CH04-MCQ-022

Type: MCQ

Difficulty: Hard

Bloom Level: Evaluate

Topic: Societal Benefit

Marks: 1

Question: How do automated traffic lights benefit modern society?

- (A) By eliminating the need for roads.
- (B) By ensuring smooth traffic flow, safe pedestrian crossing, and reduced road accidents.
- (C) By making cars fly.

- (D) By charging tolls automatically.

Question 23

Question ID: CH04-MCQ-023

Type: MCQ

Difficulty: Medium

Bloom Level: Apply

Topic: Grammar - Antonyms

Marks: 1

Question: What is the antonym of the word **'strenuous'** (tiring/difficult)?

- (A) Hard
- (B) Easy / Effortless
- (C) Heavy
- (D) Dangerous

Question 24

Question ID: CH04-MCQ-024

Type: MCQ

Difficulty: Medium

Bloom Level: Apply

Topic: Grammar - Tenses

Marks: 1

Question: What is the past tense of the verb **'invent'**?

- (A) Inventing
- (B) Invented
- (C) Invents
- (D) Inventory

Question 25

Question ID: CH04-MCQ-025

Type: MCQ

Difficulty: Easy

Bloom Level: Remember

Topic: Chapter Summary

Marks: 1

Question: Which sequence represents the correct order of light colors in a standard modern traffic signal?

- (A) Green -> Red -> Yellow
- (B) Red -> Yellow -> Green
- (C) Yellow -> Red -> Blue
- (D) White -> Red -> Green

Answer Key

| **CH04-MCQ-001** | **(B)** | Page 19 states: 'It is to regulate the flow of automobiles and help pedestrians... reduce chances of accidents.' |

- | **CH04-MCQ-002** | **(A)** | Traffic signals came into existence long before automobiles were invented (1868 vs late 1800s cars). |
- | **CH04-MCQ-003** | **(B)** | Page 19 states: 'On December 10, 1868, the first gas-lit traffic lights were installed.' |
- | **CH04-MCQ-004** | **(B)** | Installed outside the Houses of Parliament in London. |
- | **CH04-MCQ-005** | **(B)** | Proposed by British railway engineer J.P. Knight. |
- | **CH04-MCQ-006** | **(B)** | J.P. Knight was a British railway engineer. |
- | **CH04-MCQ-007** | **(B)** | Garrett Morgan invented electric traffic lights in 1923. |
- | **CH04-MCQ-008** | **(B)** | Red light represented caution or danger. |
- | **CH04-MCQ-009** | **(B)** | Green meant to proceed as it was a reassuring color. |
- | **CH04-MCQ-010** | **(B)** | Yellow was added to give time to commuters to get ready to move. |
- | **CH04-MCQ-011** | **(B)** | People walked or rode in horse-drawn carriages in the 1800s. |
- | **CH04-MCQ-012** | **(B)** | Pedestrian: A person who is walking on the streets. |
- | **CH04-MCQ-013** | **(A)** | Commuter: A person who regularly travels between work and home. |
- | **CH04-MCQ-014** | **(B)** | Crossroads: A place where two or more roads cross each other. |
- | **CH04-MCQ-015** | **(B)** | Manual gas-lit systems required physical labor and posed fire hazards. |
- | **CH04-MCQ-016** | **(B)** | Today we have advanced electronic automated lights. |
- | **CH04-MCQ-017** | **(B)** | Regulate means to control using rules/laws. |
- | **CH04-MCQ-018** | **(B)** | Intervals means a period of time between two events. |
- | **CH04-MCQ-019** | **(B)** | It is an informative historical text explaining technology origins. |
- | **CH04-MCQ-020** | **(C)** | 'Gas-lit' describes the noun 'traffic lights' (Adjective). |
- | **CH04-MCQ-021** | **(B)** | J.P. Knight and London are specific names (Proper Nouns). |
- | **CH04-MCQ-022** | **(B)** | Automated signals streamline traffic, prevent collisions, and safeguard pedestrians. |
- | **CH04-MCQ-023** | **(B)** | Strenuous (tiring/demanding) is opposite to easy/effortless. |
- | **CH04-MCQ-024** | **(B)** | Past tense of invent is invented. |
- | **CH04-MCQ-025** | **(B)** | Red (stop) -> Yellow (get ready) -> Green (proceed). |

2. Fill in the Blanks (Fillups)

Question 1

Question ID: CH04-FIL-001

Type: Fill in the Blanks

Difficulty: Easy

Bloom Level: Remember

Topic: Location of First Signal

Marks: 1

Question: The first gas-lit traffic lights were installed outside the Houses of Parliament in _____.

Question 2

Question ID: CH04-FIL-002

Type: Fill in the Blanks

Difficulty: Easy

Bloom Level: Remember

Topic: Historical Date

Marks: 1

Question: The first gas-lit traffic lights were installed on December 10, _____.

Question 3

Question ID: CH04-FIL-003

Type: Fill in the Blanks

Difficulty: Easy

Bloom Level: Remember

Topic: British Engineer

Marks: 1

Question: The first traffic lights were proposed by a British railway engineer named _____.

Question 4

Question ID: CH04-FIL-004

Type: Fill in the Blanks

Difficulty: Easy

Bloom Level: Remember

Topic: Electric Light Inventor

Marks: 1

Question: Electric traffic lights were invented by _____ in 1923.

Question 5

Question ID: CH04-FIL-005

Type: Fill in the Blanks

Difficulty: Easy

Bloom Level: Remember

Topic: Color Significance

Marks: 1

Question: Red light signaled carriages to stop because red represented caution or _____.

Question 6

Question ID: CH04-FIL-006

Type: Fill in the Blanks

Difficulty: Easy

Bloom Level: Remember

Topic: Color Significance

Marks: 1

Question: Green light meant to proceed as it was a more _____ color in most cultures.

Question 7

Question ID: CH04-FIL-007

Type: Fill in the Blanks

Difficulty: Medium

Bloom Level: Understand

Topic: Yellow Light Purpose

Marks: 1

Question: The _____ color was added to give time to commuters to get ready to move.

Question 8

Question ID: CH04-FIL-008

Type: Fill in the Blanks

Difficulty: Medium

Bloom Level: Understand

Topic: Earlier Technology

Marks: 1

Question: Earlier traffic lights were _____-fuelled and manually controlled.

Question 9

Question ID: CH04-FIL-009

Type: Fill in the Blanks

Difficulty: Medium

Bloom Level: Understand

Topic: Modern Technology

Marks: 1

Question: Modern traffic lights use advanced _____ automated systems.

Question 10

Question ID: CH04-FIL-010

Type: Fill in the Blanks

Difficulty: Easy

Bloom Level: Remember

Topic: Original Purpose

Marks: 1

Question: The first traffic signals were installed to control the traffic of _____ carriages.

Question 11

Question ID: CH04-FIL-011

Type: Fill in the Blanks

Difficulty: Medium

Bloom Level: Understand

Topic: Pedestrian Safety

Marks: 1

Question: Traffic signals help _____ to cross the road safely at crossroads.

Question 12

Question ID: CH04-FIL-012

Type: Fill in the Blanks

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 1

Question: A person who is walking on the street is called a _____.

Question 13

Question ID: CH04-FIL-013

Type: Fill in the Blanks

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 1

Question: A person who regularly travels between home and work is called a _____.

Question 14

Question ID: CH04-FIL-014

Type: Fill in the Blanks

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 1

Question: A place where two or more roads cross each other is called a _____.

Question 15

Question ID: CH04-FIL-015

Type: Fill in the Blanks

Difficulty: Hard

Bloom Level: Analyze

Topic: Pre-Automobile Era

Marks: 1

Question: The idea for developing traffic signals began in the _____ when people walked or rode horse-drawn carriages.

Question 16

Question ID: CH04-FIL-016

Type: Fill in the Blanks

Difficulty: Medium

Bloom Level: Apply

Topic: Grammar - Adjectives

Marks: 1

Question: Operating gas-fuelled traffic lights manually was a very tricky and _____ job.

Question 17

Question ID: CH04-FIL-017

Type: Fill in the Blanks

Difficulty: Easy

Bloom Level: Remember

Topic: Cloze Exercise Item

Marks: 1

Question: Traffic signals turn from red to yellow to green at regular _____.

Question 18

Question ID: CH04-FIL-018

Type: Fill in the Blanks

Difficulty: Medium

Bloom Level: Understand

Topic: Cloze Exercise Item

Marks: 1

Question: Traffic signals regulate the flow of _____ and help pedestrians at crossroads.

Question 19

Question ID: CH04-FIL-019

Type: Fill in the Blanks

Difficulty: Hard

Bloom Level: Apply

Topic: Grammar - Voice

Marks: 1

Question: The first gas-lit traffic lights were _____ outside the Houses of Parliament.

Question 20

Question ID: CH04-FIL-020

Type: Fill in the Blanks

Difficulty: Medium

Bloom Level: Understand

Topic: Safety Objective

Marks: 1

Question: Traffic signals reduce the chances of _____ on roads.

Question 21

Question ID: CH04-FIL-021

Type: Fill in the Blanks

Difficulty: Easy

Bloom Level: Remember

Topic: Global Adoption

Marks: 1

Question: Soon after being implemented, the traffic signal system was adopted all over the _____.

Question 22

Question ID: CH04-FIL-022

Type: Fill in the Blanks

Difficulty: Medium

Bloom Level: Apply

Topic: Year of Invention

Marks: 1

Question: Garrett Morgan invented electric traffic lights in the year _____.

Question 23

Question ID: CH04-FIL-023

Type: Fill in the Blanks

Difficulty: Hard

Bloom Level: Analyze

Topic: Work Quality

Marks: 1

Question: Modern automated lights help traffic move smoothly and reach their destination _____.

Question 24

Question ID: CH04-FIL-024

Type: Fill in the Blanks

Difficulty: Medium

Bloom Level: Apply

Topic: Grammar - Antonyms

Marks: 1

Question: The opposite of 'manually controlled' is _____ controlled.

Question 25

Question ID: CH04-FIL-025

Type: Fill in the Blanks

Difficulty: Easy

Bloom Level: Remember

Topic: Summary

Marks: 1

Question: Red light means stop, green means proceed, and yellow means get _____ to move.

Answer Key

| ****CH04-FIL-001**** | ****London**** | Installed outside Houses of Parliament in London. |

| ****CH04-FIL-002**** | ****1868**** | Installed on December 10, 1868. |

| ****CH04-FIL-003**** | ****J.P. Knight**** | Proposed by J.P. Knight. |

| ****CH04-FIL-004**** | ****Garrett Morgan**** | Electric traffic lights invented by Garrett Morgan. |

| ****CH04-FIL-005**** | ****danger**** | Red represented caution or danger. |

| ****CH04-FIL-006**** | ****reassuring**** | Green was determined to be a reassuring color. |

| ****CH04-FIL-007**** | ****yellow**** | Yellow gave time to get ready to move. |

| ****CH04-FIL-008**** | ****gas**** | Earlier lights were gas-fuelled and manual. |

| ****CH04-FIL-009**** | ****electronic**** | Today we have electronic automated systems. |

| ****CH04-FIL-010**** | ****horse**** | Installed to control horse carriage traffic. |

| ****CH04-FIL-011**** | ****pedestrians**** | Helps pedestrians cross safely. |

| ****CH04-FIL-012**** | ****pedestrian**** | Textbook word meaning: Pedestrian. |

| ****CH04-FIL-013**** | ****commuter**** | Textbook word meaning: Commuter. |

| ****CH04-FIL-014**** | ****crossroads**** | Textbook word meaning: Crossroads. |

| ****CH04-FIL-015**** | ****1800s**** | Began in the 1800s. |

| ****CH04-FIL-016**** | ****strenuous**** | Text describes manual work as tricky and strenuous. |

| ****CH04-FIL-017**** | ****intervals**** | Text states 'turns at regular intervals'. |

| ****CH04-FIL-018**** | ****automobiles**** | Regulate the flow of automobiles. |

| ****CH04-FIL-019**** | ****installed**** | Passive voice verb form: were installed. |

| ****CH04-FIL-020**** | ****accidents**** | Installed to reduce road accidents. |

| ****CH04-FIL-021**** | ****world**** | Adopted all over the world. |

| ****CH04-FIL-022**** | ****1923**** | Invented in 1923. |

| ****CH04-FIL-023**** | ****timely**** | Text states 'reach their destination timely'. |

| ****CH04-FIL-024**** | ****automatically / electronically**** | Opposite of manual is automated. |

| ****CH04-FIL-025**** | ****ready**** | Yellow signals to get ready. |

3. True or False Statements

Question 1

Question ID: CH04-TF-001

Type: True or False

Difficulty: Easy

Bloom Level: Remember

Topic: Fact Check - Inventions

Marks: 1

Question: The first traffic lights were installed after automobiles were invented.

- (A) True
- (B) False

Question 2

Question ID: CH04-TF-002

Type: True or False

Difficulty: Easy

Bloom Level: Remember

Topic: Fact Check - Inventions

Marks: 1

Question: The first traffic lights were installed long before automobiles were invented.

- (A) True
- (B) False

Question 3

Question ID: CH04-TF-003

Type: True or False

Difficulty: Easy

Bloom Level: Remember

Topic: Engineer Fact Check

Marks: 1

Question: J.P. Knight proposed the first traffic lights in London.

- (A) True
- (B) False

Question 4

Question ID: CH04-TF-004

Type: True or False

Difficulty: Easy

Bloom Level: Remember

Topic: Power Source

Marks: 1

Question: The first traffic lights in 1868 were powered by electricity.

- (A) True
- (B) False

Question 5

Question ID: CH04-TF-005

Type: True or False

Difficulty: Easy

Bloom Level: Remember

Topic: Power Source

Marks: 1

Question: The first traffic lights in 1868 were gas-lit and manually controlled.

- (A) True
- (B) False

Question 6

Question ID: CH04-TF-006

Type: True or False

Difficulty: Easy

Bloom Level: Remember

Topic: Color Meaning

Marks: 1

Question: Red light means to stop because red represents caution or danger.

- (A) True
- (B) False

Question 7

Question ID: CH04-TF-007

Type: True or False

Difficulty: Easy

Bloom Level: Remember

Topic: Color Meaning

Marks: 1

Question: Green light means to proceed as green was determined to be a reassuring color.

- (A) True
- (B) False

Question 8

Question ID: CH04-TF-008

Type: True or False

Difficulty: Easy

Bloom Level: Remember

Topic: Yellow Light Purpose

Marks: 1

Question: The yellow light was added to give time to commuters to get ready to move.

- (A) True
- (B) False

Question 9

Question ID: CH04-TF-009

Type: True or False

Difficulty: Easy

Bloom Level: Remember

Topic: Electric Light Inventor

Marks: 1

Question: Garrett Morgan invented the electric traffic lights in 1923.

- (A) True
- (B) False

Question 10

Question ID: CH04-TF-010

Type: True or False

Difficulty: Medium

Bloom Level: Understand

Topic: Location Check

Marks: 1

Question: The first traffic lights were installed outside Buckingham Palace.

- (A) True
- (B) False

Question 11

Question ID: CH04-TF-011

Type: True or False

Difficulty: Medium

Bloom Level: Understand

Topic: Control Mechanism

Marks: 1

Question: Traffic lights are still manually controlled using gas valves all over the world today.

- (A) True
- (B) False

Question 12

Question ID: CH04-TF-012

Type: True or False

Difficulty: Medium

Bloom Level: Understand

Topic: Modern Systems

Marks: 1

Question: Modern traffic lights use advanced electronic automated systems.

- (A) True
- (B) False

Question 13

Question ID: CH04-TF-013

Type: True or False

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Check

Marks: 1

Question: A 'pedestrian' is a person driving a heavy truck on the highway.

- (A) True
- (B) False

Question 14

Question ID: CH04-TF-014

Type: True or False

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Check

Marks: 1

Question: A 'commuter' is a person who regularly travels between work and home.

- (A) True
- (B) False

Question 15

Question ID: CH04-TF-015

Type: True or False

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Check

Marks: 1

Question: 'Intervals' refers to a long distance between two cities.

- (A) True
- (B) False

Question 16

Question ID: CH04-TF-016

Type: True or False

Difficulty: Medium

Bloom Level: Understand

Topic: Traffic Target in 1868

Marks: 1

Question: The 1868 traffic lights were installed to control horse-drawn carriage traffic and help pedestrians cross safely.

- (A) True
- (B) False

Question 17

Question ID: CH04-TF-017

Type: True or False

Difficulty: Hard

Bloom Level: Analyze

Topic: Manual Operation Risk

Marks: 1

Question: Operating early gas-lit signals manually was considered a tricky and strenuous job.

- (A) True
- (B) False

Question 18

Question ID: CH04-TF-018

Type: True or False

Difficulty: Easy

Bloom Level: Remember

Topic: Profession Check

Marks: 1

Question: J.P. Knight was a famous automobile race driver.

- (A) True
- (B) False

Question 19

Question ID: CH04-TF-019

Type: True or False

Difficulty: Medium

Bloom Level: Apply

Topic: Road Safety Purpose

Marks: 1

Question: Traffic signals reduce the chances of road accidents at crossroads.

- (A) True
- (B) False

Question 20

Question ID: CH04-TF-020

Type: True or False

Difficulty: Medium

Bloom Level: Apply

Topic: Grammar - Proper Nouns

Marks: 1

Question: 'London' and 'Garrett Morgan' are Proper Nouns.

- (A) True
- (B) False

Question 21

Question ID: CH04-TF-021

Type: True or False

Difficulty: Medium

Bloom Level: Remember

Topic: Textbook Exercise Item

Marks: 1

Question: Exercise C1 states that the first traffic lights were installed after automobiles were invented.

- (A) True
- (B) False

Question 22

Question ID: CH04-TF-022

Type: True or False

Difficulty: Medium

Bloom Level: Remember

Topic: Textbook Exercise Item

Marks: 1

Question: Exercise C3 states that the first traffic lights were powered by electricity.

- (A) True
- (B) False

Question 23

Question ID: CH04-TF-023

Type: True or False

Difficulty: Hard

Bloom Level: Evaluate

Topic: Universal System

Marks: 1

Question: The red-yellow-green signal color system is recognized and followed internationally across the globe.

- (A) True
- (B) False

Question 24

Question ID: CH04-TF-024

Type: True or False

Difficulty: Hard

Bloom Level: Analyze

Topic: Signal Timing

Marks: 1

Question: Traffic lights change color randomly without any fixed time intervals.

- (A) True
- (B) False

Question 25

Question ID: CH04-TF-025

Type: True or False

Difficulty: Easy

Bloom Level: Remember

Topic: Summary

Marks: 1

Question: Modern electronic traffic signals contribute significantly to smooth traffic management and pedestrian safety.

- (A) True
- (B) False

Answer Key

| **CH04-TF-001** | **(B) False** | The text explicitly notes signals existed long BEFORE automobiles were invented. |

| **CH04-TF-002** | **(A) True** | Installed in 1868 before cars became common. |

| **CH04-TF-003** | **(A) True** | Proposed by British railway engineer J.P. Knight. |

| **CH04-TF-004** | **(B) False** | They were gas-lit, not electric. |

| **CH04-TF-005** | **(A) True** | Text confirms earlier lights were gas-fuelled and manual. |

| **CH04-TF-006** | **(A) True** | Red represented caution or danger. |

| **CH04-TF-007** | **(A) True** | Green was determined to be reassuring. |

| **CH04-TF-008** | **(A) True** | Yellow gives time to commuters to get ready to move. |

| **CH04-TF-009** | **(A) True** | Garrett Morgan invented electric traffic lights in 1923. |

| **CH04-TF-010** | **(B) False** | They were installed outside the Houses of Parliament in London. |

| **CH04-TF-011** | **(B) False** | Today traffic signals use advanced electronic automated systems. |

| **CH04-TF-012** | **(A) True** | Automated electronic lights are used worldwide. |

| **CH04-TF-013** | **(B) False** | Pedestrian means a person walking on the street. |

| **CH04-TF-014** | **(A) True** | Commuter means a regular traveler between work and home. |

| **CH04-TF-015** | **(B) False** | Intervals means a period of time between two events. |

| **CH04-TF-016** | **(A) True** | Installed for horse-drawn carriage traffic and pedestrian crossing. |

| **CH04-TF-017** | **(A) True** | Text states manual gas operation was tricky and strenuous. |

| **CH04-TF-018** | **(B) False** | J.P. Knight was a British railway engineer. |

| **CH04-TF-019** | **(A) True** | Reduces chances of road accidents at crossroads. |

| **CH04-TF-020** | **(A) True** | London (place) and Garrett Morgan (person) are Proper Nouns. |

| **CH04-TF-021** | **(B) False** | Exercise C1 statement is False. |

| **CH04-TF-022** | **(B) False** | Exercise C3 statement is False. |

| **CH04-TF-023** | **(A) True** | Color signals are universally standardized across countries. |

| **CH04-TF-024** | **(B) False** | Traffic lights turn at regular intervals. |

| **CH04-TF-025** | **(A) True** | Automated lights help traffic move smoothly and safely. |

4. Short Answer Questions

Question 1

Question ID: CH04-SA-001

Type: Short Answer

Difficulty: Easy

Bloom Level: Remember

Topic: Purpose of Traffic Signals

Marks: 2

Question: What is the main purpose of installing traffic signals at crossroads?

Question 2

Question ID: CH04-SA-002

Type: Short Answer

Difficulty: Easy

Bloom Level: Remember

Topic: First Installation Date & Location

Marks: 2

Question: When and where were the world's first traffic lights installed?

Question 3

Question ID: CH04-SA-003

Type: Short Answer

Difficulty: Easy

Bloom Level: Remember

Topic: Inventor / Proposer

Marks: 2

Question: Who proposed the first gas-lit traffic lights? What was his profession?

Question 4

Question ID: CH04-SA-004

Type: Short Answer

Difficulty: Easy

Bloom Level: Remember

Topic: Electric Traffic Lights

Marks: 2

Question: Who invented electric traffic lights? In which year was it invented?

Question 5

Question ID: CH04-SA-005

Type: Short Answer

Difficulty: Medium

Bloom Level: Understand

Topic: Color Choice - Red

Marks: 2

Question: Why was the color red chosen to signal carriages to stop?

Question 6

Question ID: CH04-SA-006

Type: Short Answer

Difficulty: Medium

Bloom Level: Understand

Topic: Color Choice - Green

Marks: 2

Question: What did the green light signify, and why was green chosen?

Question 7

Question ID: CH04-SA-007

Type: Short Answer

Difficulty: Medium

Bloom Level: Understand

Topic: Color Choice - Yellow

Marks: 2

Question: Why was the yellow (amber) light added to traffic signals later?

Question 8

Question ID: CH04-SA-008

Type: Short Answer

Difficulty: Medium

Bloom Level: Understand

Topic: Earlier vs Modern Signals

Marks: 2

Question: How were earlier traffic lights powered and controlled compared to modern ones?

Question 9

Question ID: CH04-SA-009

Type: Short Answer

Difficulty: Easy

Bloom Level: Remember

Topic: Target Traffic in 1868

Marks: 2

Question: What type of vehicle traffic did the first traffic lights control in 1868?

Question 10

Question ID: CH04-SA-010

Type: Short Answer

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 2

Question: Define the term **'pedestrian'** and explain why traffic lights are important for them.

Question 11

Question ID: CH04-SA-011

Type: Short Answer

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 2

Question: What is a **'commuter'**? Give an example of a daily commuter.

Question 12

Question ID: CH04-SA-012

Type: Short Answer

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 2

Question: Define **'crossroads'** and state why accidents often happen at crossroads without signals.

Question 13

Question ID: CH04-SA-013

Type: Short Answer

Difficulty: Hard

Bloom Level: Analyze

Topic: Historical Surprising Fact

Marks: 2

Question: What interesting fact does the text reveal about the relationship between traffic signals and automobiles?

Question 14

Question ID: CH04-SA-014

Type: Short Answer

Difficulty: Medium

Bloom Level: Apply

Topic: Grammar - Tense Transformation

Marks: 2

Question: Change the sentence into simple past tense:

'Electric traffic lights regulate road traffic smoothly.'

Question 15

Question ID: CH04-SA-015

Type: Short Answer

Difficulty: Medium

Bloom Level: Understand

Topic: Strenuous Work

Marks: 2

Question: Why was operating gas-fuelled traffic lights manually described as a "tricky and strenuous job"?

Question 16

Question ID: CH04-SA-016

Type: Short Answer

Difficulty: Hard

Bloom Level: Analyze

Topic: Cultural Acceptance

Marks: 2

Question: Why did the traffic signal system quickly spread from London to the rest of the world?

Question 17

Question ID: CH04-SA-017

Type: Short Answer

Difficulty: Easy

Bloom Level: Remember

Topic: Sequence of Signals

Marks: 2

Question: State the exact order of light colors in a modern traffic signal and what each color instructs drivers to do.

Question 18

Question ID: CH04-SA-018

Type: Short Answer

Difficulty: Medium

Bloom Level: Apply

Topic: Grammar - Proper Nouns

Marks: 2

Question: Identify two Proper Nouns and two Common Nouns in the sentence:

"J.P. Knight installed the first gas light outside Parliament."

Question 19

Question ID: CH04-SA-019

Type: Short Answer

Difficulty: Hard

Bloom Level: Evaluate

Topic: Road Safety Importance

Marks: 2

Question: What would happen at busy city intersections if traffic signals suddenly stopped working?

Question 20

Question ID: CH04-SA-020

Type: Short Answer

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 2

Question: What does the word **'intervals'** mean in relation to traffic lights changing colors?

Question 21

Question ID: CH04-SA-021

Type: Short Answer

Difficulty: Medium

Bloom Level: Apply

Topic: Grammar - Antonyms

Marks: 2

Question: Give antonyms for the following text words:

(a) **'Proceed'**

(b) **'Strenuous'**

Question 22

Question ID: CH04-SA-022

Type: Short Answer

Difficulty: Hard

Bloom Level: Analyze

Topic: Technology Progression

Marks: 2

Question: Mention two major technological improvements that occurred in traffic lights between 1868 and modern times.

Question 23

Question ID: CH04-SA-023

Type: Short Answer

Difficulty: Medium

Bloom Level: Apply

Topic: Grammar - Punctuation

Marks: 2

Question: Punctuate the following sentence correctly:

on december 10 1868 traffic lights were installed in london

Question 24

Question ID: CH04-SA-024

Type: Short Answer

Difficulty: Hard

Bloom Level: Evaluate

Topic: Garrett Morgan's Contribution

Marks: 2

Question: Why was Garrett Morgan's 1923 invention considered a significant step forward in traffic management?

Question 25*Question ID: CH04-SA-025**Type: Short Answer**Difficulty: Easy**Bloom Level: Remember**Topic: Chapter Summary**Marks: 2***Question:** Write a 2-sentence summary of the chapter *"Beginnings of Traffic Lights"*.

Answer Key & Model Answers

| **CH04-SA-001** | The main purpose is to regulate the flow of vehicles, help pedestrians cross safely at crossroads, and reduce road accidents. |

| **CH04-SA-002** | The first traffic lights were installed on December 10, 1868, outside the Houses of Parliament in London. |

| **CH04-SA-003** | The first gas-lit traffic lights were proposed by J.P. Knight, who was a British railway engineer. |

| **CH04-SA-004** | Electric traffic lights were invented by Garrett Morgan in the year 1923. |

| **CH04-SA-005** | Red was chosen because in most cultures, red represents caution, danger, or warning, signaling vehicles to stop. |

| **CH04-SA-006** | Green signified to proceed. It was selected because green was universally recognized as a calm and reassuring color. |

| **CH04-SA-007** | Yellow was added later to give commuters time to prepare and get ready to move before the light turned green or red. |

| **CH04-SA-008** | Earlier traffic lights were gas-fuelled and manually operated, whereas modern lights are electronic, automated, and computer-controlled. |

| **CH04-SA-009** | The first traffic lights in 1868 controlled horse-drawn carriage traffic and helped walking pedestrians cross the street. |

| **CH04-SA-010** | A pedestrian is a person walking on the street. Traffic lights give pedestrians dedicated green signals to cross roads safely without fear of oncoming traffic. |

| **CH04-SA-011** | A commuter is a person who travels regularly between work and home. *Example: An office worker taking the city bus daily is a commuter.* |

| **CH04-SA-012** | Crossroads is an intersection where two or more roads cross each other. Without signals, vehicles coming from different directions would collide. |

| **CH04-SA-013** | The text reveals that traffic signals were invented in 1868, long before motor automobiles were invented, to manage horse carriage traffic. |

| **CH04-SA-014** | *Electric traffic lights regulated road traffic smoothly.* |

| **CH04-SA-015** | It was tricky and strenuous because operators had to manually light gas lamps, turn valves, and manage heavy mechanical levers continuously in all weather. |

| **CH04-SA-016** | It spread quickly because it proved highly effective in reducing road accidents, regulating traffic flow, and protecting pedestrians. |

| **CH04-SA-017** | **Red**: Stop; **Yellow**: Get ready to move / slow down; **Green**: Proceed safely. |

| **CH04-SA-018** | **Proper Nouns**: J.P. Knight, Parliament.

Common Nouns: gas light, traffic. |

| **CH04-SA-019** | Chaos would break out; vehicles would block intersections, traffic jams would occur, and pedestrian accident rates would skyrocket. |

| **CH04-SA-020** | 'Intervals' means fixed periods of time between light changes, ensuring equal turn-taking for different road lanes. |

| **CH04-SA-021** | (a) **Halt** / Stop

(b) **Easy** / Effortless |

| **CH04-SA-022** | 1. Transition from gas fuel to electric power.

2. Shift from manual hand levers to electronic automated timers. |

| **CH04-SA-023** | *On December 10, 1868, traffic lights were installed in London.* |

| **CH04-SA-024** | Garrett Morgan introduced electric power and automated signaling in 1923, removing hazardous gas lamps and manual labor. |

| **CH04-SA-025** | Traffic lights originated in 1868 in London using gas lamps to control horse carriages. Over time, electric automated lights were invented to ensure smooth global road safety. |

5. Long Answer & HOTS Questions

Question 1

Question ID: CH04-LA-001

Type: Long Answer & HOTS

Difficulty: Medium

Bloom Level: Understand

Topic: Detailed Historical Overview

Marks: 5

Question: Describe the origin of traffic lights from their first installation in London in 1868 to the electric invention by Garrett Morgan in 1923.

Question 2

Question ID: CH04-LA-002

Type: Long Answer & HOTS

Difficulty: Medium

Bloom Level: Understand

Topic: Signal Color Psychology

Marks: 5

Question: Explain why red, green, and yellow were chosen as standard traffic signal colors. What does each color signify to drivers and pedestrians?

Question 3

Question ID: CH04-LA-003

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Analyze

Topic: Evolution of Technology

Marks: 5

Question: Trace the technological evolution of traffic lights from manually-operated gas lamps to modern electronic automated systems.

Question 4

Question ID: CH04-LA-004

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Evaluate

Topic: Pre-Automobile Necessity

Marks: 5

Question: Many people assume traffic lights were created for cars. Why were traffic signals necessary even when people traveled only by foot or horse carriages in the 1800s?

Question 5

Question ID: CH04-LA-005

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Create

Topic: Future Smart Traffic System

Marks: 5

Question: Modern traffic lights use timers. Imagine and describe a "Smart Traffic Light of the Future" that uses Artificial Intelligence to improve road safety further.

Question 6

Question ID: CH04-LA-006

Type: Long Answer & HOTS

Difficulty: Medium

Bloom Level: Apply

Topic: Civic Sense & Road Rules

Marks: 5

Question: Why is strict adherence to traffic signals essential for civic order and public safety? What are the dangers of jumping a red light?

Question 7

Question ID: CH04-LA-007

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Analyze

Topic: Pedestrian Safety

Marks: 5

Question: How do traffic lights protect pedestrians at busy crossroads? Describe three safety habits pedestrians must follow when crossing roads.

Question 8

Question ID: CH04-LA-008

Type: Long Answer & HOTS

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary & Theme Connection

Marks: 5

Question: Explain how the terms **'regulate'**, **'crossroads'**, **'pedestrian'**, **'commuter'**, and **'automated'** are interconnected in the context of urban transportation.

Question 9

Question ID: CH04-LA-009

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Create

Topic: Creative Writing - Speech

Marks: 5

Question: Imagine you are J.P. Knight in 1868. Write a short speech presenting your proposal for gas-lit traffic signals to the British Parliament.

Question 10

Question ID: CH04-LA-010

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Evaluate

Topic: Economic & Time Impact

Marks: 5

Question: How do efficient traffic lights save time, fuel, and money for daily commuters in modern cities?

Question 11

Question ID: CH04-LA-011

Type: Long Answer & HOTS

Difficulty: Medium

Bloom Level: Apply

Topic: School Area Traffic Safety

Marks: 5

Question: Design a 5-point traffic safety plan for the road right outside your school during peak morning arrival and afternoon dispersal times.

Question 12

Question ID: CH04-LA-012

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Analyze

Topic: Manual Control Hazards

Marks: 5

Question: Why did cities move away from manually-operated gas traffic lights? Discuss both human strain and physical hazards associated with early signals.

Question 13

Question ID: CH04-LA-013

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Create

Topic: Dialogue Writing

Marks: 5

Question: Write a dialogue between a driver who jumped a yellow light and a traffic police officer explaining the true purpose of the yellow signal.

Question 14

Question ID: CH04-LA-014

Type: Long Answer & HOTS

Difficulty: Medium

Bloom Level: Understand

Topic: Text Structure Analysis

Marks: 5

Question: Analyze the informational structure of Chapter 04. How does the author organize facts chronologically from history to modern times?

Question 15

Question ID: CH04-LA-015

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Evaluate

Topic: Role of Inventors

Marks: 5

Question: Compare the contributions of J.P. Knight (1868) and Garrett Morgan (1923). How did each inventor solve a specific traffic problem of his era?

Question 16

Question ID: CH04-LA-016

Type: Long Answer & HOTS

Difficulty: Medium

Bloom Level: Apply

Topic: Environmental Impact

Marks: 5

Question: How do modern electronic traffic lights contribute to reducing air pollution caused by idling vehicles at crossroads?

Question 17

Question ID: CH04-LA-017

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Evaluate

Topic: Importance of Standardization

Marks: 5

Question: Why is it important that traffic signal colors and meanings are identical across all countries in the world?

Question 18

Question ID: CH04-LA-018

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Create

Topic: Perspective Storytelling

Marks: 5

Question: Write a short narrative paragraph from the point of view of a horse drawing a carriage in London in 1868 seeing a gas traffic light for the first time.

Question 19

Question ID: CH04-LA-019

Type: Long Answer & HOTS

Difficulty: Medium

Bloom Level: Understand

Topic: Cause and Effect Mapping

Marks: 5

Question: Map three main cause-and-effect relationships described in the history of traffic signals.

Question 20

Question ID: CH04-LA-020

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Evaluate

Topic: Human Discipline vs Technological Control

Marks: 5

Question: Can advanced automated traffic lights alone prevent accidents without human discipline? Justify your answer with examples.

Question 21

Question ID: CH04-LA-021

Type: Long Answer & HOTS

Difficulty: Medium

Bloom Level: Apply

Topic: Poster & Campaign Guidelines

Marks: 5

Question: Create a 5-point slogan campaign for a Road Safety Week initiative in your school community.

Question 22

Question ID: CH04-LA-022

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Analyze

Topic: Impact of Yellow Signal

Marks: 5

Question: Why was the addition of the yellow light a major safety improvement over a simple two-color (Red/Green) system?

Question 23

Question ID: CH04-LA-023

Type: Long Answer & HOTS

Difficulty: Medium

Bloom Level: Understand

Topic: Role of Railway Engineering

Marks: 5

Question: Why was a railway engineer (J.P. Knight) uniquely qualified to propose road traffic signals in 1868?

Question 24

Question ID: CH04-LA-024

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Create

Topic: Informational Report Summary

Marks: 5

Question: Write a formal 6-sentence informational report summarizing the main findings of "Beginnings of Traffic Lights".

Question 25

Question ID: CH04-LA-025

Type: Long Answer & HOTS

Difficulty: Hard

Bloom Level: Evaluate

Topic: Final Philosophical Takeaway

Marks: 5

Question: Summarize how human innovation continuously evolves to solve urbanization and safety challenges, using traffic lights as an example.

Model Answers & Rubrics

| **CH04-LA-001** | In the 1800s, congested horse carriage traffic in London created severe risks. On Dec 10, 1868, British railway engineer J.P. Knight installed the first gas-lit traffic lights outside the Houses of Parliament. Operated manually, they used red for stop and green for go. Later in 1923, Garrett Morgan invented electric traffic lights, revolutionizing automated road safety globally. | Chronology: 3 Marks
Detail & Expression: 2 Marks |

| **CH04-LA-002** | **Red**: Means stop. Red has universally signified danger, caution, or emergency in human culture.

Green: Means proceed. Green represents safety, reassurance, and clear path.

Yellow: Means get ready / prepare to stop. Added to give commuters warning time before signal shifts. |

Color breakdown: 3 Marks

Language: 2 Marks |

| **CH04-LA-003** | 1. **1868**: Gas-fuelled, manually operated levers outside London Parliament.

2. **1923**: Electric powered signals invented by Garrett Morgan.

3. **Mid-20th Century**: Automated timer additions with 3-color system.

4. **Modern Era**: Computerized electronic microchips and sensors optimizing flow. | 4 Evolution steps: 3 Marks

Structure: 2 Marks |

| **CH04-LA-004** | In the 1800s, London streets were crowded with pedestrians, omnibuses, and heavy horse-drawn carriages. Horses moving at high speeds could not stop instantly, leading to frequent pedestrian knockdowns at busy intersections near Parliament. Signals were essential to allocate safe crossing time. | Pre-car context: 3 Marks

Logic: 2 Marks |

| **CH04-LA-005** | An AI Smart Traffic Light would use HD cameras and sensors to detect real-time traffic density. It would automatically extend green lights for congested lanes, give priority to approaching ambulances, and flash warnings if a pedestrian attempts to cross dangerously. | AI Innovation: 3 Marks
Creativity/Flow: 2 Marks |

| **CH04-LA-006** | Adherence prevents chaotic jams and deadly broadside collisions. Jumping a red light risks T-bone crashes with cross-traffic, strikes pedestrians on zebra crossings, and destroys public road

trust. | Civic value: 3 Marks

Dangers: 2 Marks |

| **CH04-LA-007** | Traffic lights halt oncoming vehicles to give pedestrians dedicated crossing time.

1. Always cross at designated zebra crossings.

2. Look right, left, and right again before stepping out.

3. Wait for the green walking signal before stepping off the curb. | Function: 2 Marks

3 Habits: 3 Marks |

| **CH04-LA-008** | In cities, **commuters** travel daily across **crossroads**. To protect walking **pedestrians**, automated signals **regulate** traffic electronically, creating an efficient **automated** transportation system. | Vocabulary integration: 3 Marks

Grammar: 2 Marks |

| **CH04-LA-009** | **Honourable Members of Parliament**,

Our capital's streets are choked with horse carriages, endangering pedestrians daily. Drawing from railway signaling, I propose installing gas-lit red and green lights outside this House. This will regulate carriage flow and guarantee safe passage for citizens.* | Speech tone: 2 Marks

Content: 3 Marks |

| **CH04-LA-010** | Automated traffic signals prevent gridlock, allowing smooth flow. By eliminating chaotic stoppage and idle waiting, commuters save time, burn less fuel, and reduce vehicle wear and tear. | Economic/Time benefit: 3 Marks

Clarity: 2 Marks |

| **CH04-LA-011** | 1. Deploy school safety wardens with hand signals during drop-off.

2. Paint bright zebra crossings outside school gates.

3. Establish a strict no-parking drop-off zone.

4. Install flashing yellow caution signals.

5. Educate students on pedestrian rules. | 5 Practical points: 3 Marks

Relevance: 2 Marks |

| **CH04-LA-012** | Manual gas lights required workers to turn gas valves and move heavy levers manually in cold/rain. Furthermore, gas lamps posed explosion hazards (an early London light actually exploded, injuring a police officer). Electric automation eliminated these risks. | Hazards & Strain: 3 Marks

Expression: 2 Marks |

| **CH04-LA-013** | **Officer**: Driver, why didn't you stop when the light turned yellow?

Driver: Officer, yellow means speed up before red!

Officer: No! Yellow means get ready to stop safely. Accelerating on yellow causes severe collisions. |

Dialogue format: 2 Marks

Correct rule: 3 Marks |

| **CH04-LA-014** | The text opens with modern road experience (hook), introduces the core purpose (regulating traffic), backtracks chronologically to 1868 (London origin), moves to 1923 (Garrett Morgan's electric light), explains color meanings, and concludes with modern automated benefits. | Structure analysis: 3 Marks

Flow: 2 Marks |

| **CH04-LA-015** | **J.P. Knight (1868)**: Solved horse carriage chaos in Victorian London using gas railway signals.

Garrett Morgan (1923): Solved early automobile congestion by inventing automated electric traffic signals. Both transformed public road safety. | Comparison: 3 Marks

Language: 2 Marks |

| **CH04-LA-016** | By synchronizing light cycles ("green waves"), traffic moves continuously rather than idling at every block. Less idling directly cuts carbon monoxide and greenhouse gas emissions in cities. |

Environmental aspect: 3 Marks

Structure: 2 Marks |

| **CH04-LA-017** | Global standardization ensures that drivers from any country can navigate roads anywhere without confusion or language barriers. Red always means stop, preventing catastrophic international driving errors. | Globalization rationale: 3 Marks

Clarity: 2 Marks |

| **CH04-LA-018** | *Clop-clop! As I pulled the heavy wooden carriage near Parliament, a strange red lantern glowed high on a pole. My driver pulled the reins firmly. I neighed in wonder—a red light telling us horses to stop so humans could walk past!* | Creative perspective: 3 Marks

Atmosphere: 2 Marks |

| **CH04-LA-019** | 1. **Cause**: Congested horse carriages → **Effect**: J.P. Knight installed gas lights in 1868.

2. **Cause**: Automobiles invented → **Effect**: Garrett Morgan invented electric signals in 1923.

3. **Cause**: Abrupt Red/Green shifts → **Effect**: Yellow light added for warning time. | 3

Cause-Effect pairs: 3 Marks

Accuracy: 2 Marks |

| **CH04-LA-020** | No. Automated lights provide the structure, but human discipline (stopping on red, avoiding distracted driving, respecting zebra crossings) is required to achieve complete road safety.

Technology without obedience fails. | Evaluation & Justification: 3 Marks

Examples: 2 Marks |

| **CH04-LA-021** | 1. *Red means Stop, Green means Go, Safety is the rule we know!*

2. *Don't rush the yellow, slow down fellow!*

3. *Use the Zebra line, cross safe and fine!*

4. *Alert today, Alive tomorrow!*

5. *Follow the light, keep life bright!* | 5 Slogans: 3 Marks

Rhyme & Quality: 2 Marks |

| **CH04-LA-022** | Switching directly from Red to Green caused abrupt stops and rear-end collisions. Yellow provides a buffer period, allowing high-speed drivers to brake smoothly or clear the intersection safely. |

Buffer analysis: 3 Marks

Language: 2 Marks |

| **CH04-LA-023** | Railway engineers were experts in managing high-speed train movements, track switches, and semaphore signal arms. J.P. Knight adapted established train safety principles to street carriage traffic. | Engineering insight: 3 Marks

Structure: 2 Marks |

| **CH04-LA-024** | Traffic signals were developed to regulate automobile flow and protect pedestrians at crossroads. Interestingly, the concept began in 1868 outside London's Parliament for horse carriages, proposed by J.P. Knight. In 1923, Garrett Morgan introduced electric traffic lights. Color coding uses red for danger, green for proceeding, and yellow for preparation. Today, computerized electronic systems operate globally to minimize road accidents. | Report summary: 3 Marks

Standard: 2 Marks |

| **CH04-LA-025** | The history of traffic lights demonstrates humanity's continuous capacity to innovate when urban growth creates new safety challenges. As towns grew and transport evolved from horses to electric cars, inventors like Knight and Morgan engineered smarter solutions. Today's automated signals showcase how technology and structured rules combine to safeguard human life. | Core takeaway: 3 Marks

Synthesis: 2 Marks |

6. Vocabulary & Word Power

Question 1

Question ID: CH04-VOC-001

Type: Vocabulary

Difficulty: Easy

Bloom Level: Remember

Topic: Word Meaning

Marks: 1

Question: What is the textbook meaning of the word **'intervals'**?

- (A) A period of time between two events
- (B) A very long road trip
- (C) A red traffic light
- (D) A heavy thunderstorm

Question 2

Question ID: CH04-VOC-002

Type: Vocabulary

Difficulty: Easy

Bloom Level: Remember

Topic: Word Meaning

Marks: 1

Question: What is the textbook meaning of the verb **'regulate'**?

- (A) To break rules
- (B) To control something by using laws or rules
- (C) To drive fast
- (D) To build bridges

Question 3

Question ID: CH04-VOC-003

Type: Vocabulary

Difficulty: Easy

Bloom Level: Remember

Topic: Word Meaning

Marks: 1

Question: What is the textbook definition of **'crossroads'**?

- (A) A highway with no exits
- (B) A place where two or more roads cross each other
- (C) A railway station
- (D) A dead-end alley

Question 4

Question ID: CH04-VOC-004

Type: Vocabulary

Difficulty: Easy

Bloom Level: Remember

Topic: Word Meaning

Marks: 1

Question: What is the textbook meaning of **'pedestrian'**?

- (A) A person who is walking on the streets
- (B) A person driving a car
- (C) A pilot flying a plane
- (D) A train conductor

Question 5

Question ID: CH04-VOC-005

Type: Vocabulary

Difficulty: Easy

Bloom Level: Remember

Topic: Word Meaning

Marks: 1

Question: What is the textbook definition of **'commuter'**?

- (A) A person who regularly travels between work and home
- (B) A computer operator
- (C) A person who lives on a farm
- (D) A tourist

Question 6

Question ID: CH04-VOC-006

Type: Vocabulary

Difficulty: Medium

Bloom Level: Understand

Topic: Synonyms

Marks: 1

Question: Choose the synonym for the word **'strenuous'** as used in **'tricky and strenuous job'**.

- (A) Easy
- (B) Demanding / Tiring / Exhausting
- (C) Pleasant
- (D) Short

Question 7

Question ID: CH04-VOC-007

Type: Vocabulary

Difficulty: Medium

Bloom Level: Understand

Topic: Synonyms

Marks: 1

Question: Choose the synonym for **'reassuring'** in **'a more reassuring colour'**.

- (A) Terrifying
- (B) Comforting / Encouraging
- (C) Confusing
- (D) Dark

Question 8

Question ID: CH04-VOC-008

Type: Vocabulary

Difficulty: Medium

Bloom Level: Apply

Topic: Antonyms

Marks: 1

Question: What is the antonym of **'caution'**?

- (A) Danger
- (B) Carelessness / Recklessness
- (C) Warning
- (D) Safety

Question 9

Question ID: CH04-VOC-009

Type: Vocabulary

Difficulty: Medium

Bloom Level: Apply

Topic: Antonyms

Marks: 1

Question: What is the antonym of **'automated'**?

- (A) Electronic
- (B) Manual / Hand-operated
- (C) Digital
- (D) Fast

Question 10

Question ID: CH04-VOC-010

Type: Vocabulary

Difficulty: Easy

Bloom Level: Remember

Topic: Spelling Check

Marks: 1

Question: Select the correctly spelled word from Chapter 04.

- (A) Automobile
- (B) Automobill
- (C) Automobil
- (D) Otomobile

Question 11

Question ID: CH04-VOC-011

Type: Vocabulary

Difficulty: Easy

Bloom Level: Remember

Topic: Spelling Check

Marks: 1

Question: Which spelling is correct for the capital city where traffic lights began?

- (A) London
- (B) Londen
- (C) Lundon
- (D) Londun

Question 12

Question ID: CH04-VOC-012

Type: Vocabulary

Difficulty: Medium

Bloom Level: Apply

Topic: Compound Words

Marks: 1

Question: Combine **'cross'** and **'roads'** to form a compound noun from the chapter.

- (A) Crossway
- (B) Crossroads
- (C) Crossline
- (D) Crosswalk

Question 13

Question ID: CH04-VOC-013

Type: Vocabulary

Difficulty: Medium

Bloom Level: Apply

Topic: One Word Substitution

Marks: 1

Question: Give one word for: **"A horse-pulled wheeled vehicle used for passenger transport in the 1800s."**

- (A) Automobile
- (B) Carriage
- (C) Bicycle

- (D) Train

Question 14

Question ID: CH04-VOC-014

Type: Vocabulary

Difficulty: Hard

Bloom Level: Apply

Topic: Word Formation - Suffixes

Marks: 1

Question: Add a suffix to **'automate'** to make an adjective describing modern traffic lights.

- (A) -ly
- (B) -ed (Automated)
- (C) -ness
- (D) -ment

Question 15

Question ID: CH04-VOC-015

Type: Vocabulary

Difficulty: Medium

Bloom Level: Understand

Topic: Homophones

Marks: 1

Question: Select the correct word: **"Drivers must _____ (stop/halt) their cars at the red signal."**

- (A) brake
- (B) break
- (C) bark
- (D) brook

Question 16

Question ID: CH04-VOC-016

Type: Vocabulary

Difficulty: Medium

Bloom Level: Understand

Topic: Homophones

Marks: 1

Question: Select the correct homophone: **"The police officer stood on the _____ (path/way) to direct traffic."**

- (A) weigh
- (B) way
- (C) whey
- (D) why

Question 17

Question ID: CH04-VOC-017

Type: Vocabulary

Difficulty: Hard

Bloom Level: Apply

Topic: Contextual Usage

Marks: 1

Question: Which word best completes the sentence?

"Green is a _____ color that signals drivers it is safe to proceed."

- (A) strenuous
- (B) reassuring
- (C) gas-lit
- (D) manual

Question 18

Question ID: CH04-VOC-018

Type: Vocabulary

Difficulty: Medium

Bloom Level: Apply

Topic: Cloze Exercise Item

Marks: 1

Question: Complete the phrase from Page 19:

"Traffic signals regulate the flow of _____. "

- (A) pedestrians
- (B) automobiles
- (C) birds
- (D) water

Question 19

Question ID: CH04-VOC-019

Type: Vocabulary

Difficulty: Hard

Bloom Level: Analyze

Topic: Sentence Formation

Marks: 1

Question: Which of the following sentences uses **'commuter'** correctly?

- (A) The commuter cooked a delicious soup.
- (B) Many daily commuters take the metro train to work every morning.
- (C) A commuter is a type of traffic light.
- (D) The tree has many green commuters.

Question 20

Question ID: CH04-VOC-020

Type: Vocabulary

Difficulty: Medium

Bloom Level: Apply

Topic: Collocations

Marks: 1

Question: Complete the standard collocation used in Chapter 04:

"At regular _____."

- (A) intervals
- (B) carriages
- (C) engines
- (D) parlours

Question 21

Question ID: CH04-VOC-021

Type: Vocabulary

Difficulty: Easy

Bloom Level: Remember

Topic: Opposites

Marks: 1

Question: What is the opposite of **'proceed'**??

- (A) Advance
- (B) Stop / Halt / Retreat
- (C) Move
- (D) Continue

Question 22

Question ID: CH04-VOC-022

Type: Vocabulary

Difficulty: Medium

Bloom Level: Understand

Topic: Synonyms

Marks: 1

Question: What is a synonym for **'merits'**? as in "This system had so many merits"?

- (A) Faults
- (B) Advantages / Benefits
- (C) Losses
- (D) Dangers

Question 23

Question ID: CH04-VOC-023

Type: Vocabulary

Difficulty: Hard

Bloom Level: Analyze

Topic: Word Origin / Etymology

Marks: 1

Question: The word 'pedestrian' comes from the Latin root 'pedis'. What does 'pedis' mean?

- (A) Hand
- (B) Foot
- (C) Eye
- (D) Head

Question 24

Question ID: CH04-VOC-024

Type: Vocabulary

Difficulty: Medium

Bloom Level: Apply

Topic: Antonyms

Marks: 1

Question: What is the antonym of **'smoothly'** in **'traffic moves smoothly'**?

- (A) Safely
- (B) Chaotically / Rough
- (C) Easily
- (D) Timely

Question 25

Question ID: CH04-VOC-025

Type: Vocabulary

Difficulty: Medium

Bloom Level: Apply

Topic: Alphabetical Order

Marks: 1

Question: Arrange these 4 story words in alphabetical dictionary order:

Pedestrian, Commuter, Carriage, Signal

- (A) Carriage, Commuter, Pedestrian, Signal
- (B) Commuter, Carriage, Signal, Pedestrian
- (C) Pedestrian, Carriage, Commuter, Signal
- (D) Carriage, Pedestrian, Commuter, Signal

Answer Key

| ****CH04-VOC-001**** | **** (A) **** | Textbook page 20 word meaning: 'Intervals: A period of time between two events'. |

| ****CH04-VOC-002**** | **** (B) **** | Textbook page 20 word meaning: 'Regulate: To control something by using laws'. |

| **CH04-VOC-003** | **(B)** | Textbook page 20 word meaning: 'Crossroads: A place where two or more roads cross'. |

| **CH04-VOC-004** | **(A)** | Textbook page 20 word meaning: 'Pedestrian: A person who is walking on the streets'. |

| **CH04-VOC-005** | **(A)** | Textbook page 20 word meaning: 'Commuter: A person who regularly travels between work and home'. |

| **CH04-VOC-006** | **(B)** | Strenuous means demanding, tiring, or requiring great effort. |

| **CH04-VOC-007** | **(B)** | Reassuring means comforting or inspiring confidence. |

| **CH04-VOC-008** | **(B)** | Antonym of caution is carelessness or recklessness. |

| **CH04-VOC-009** | **(B)** | Antonym of automated is manual. |

| **CH04-VOC-010** | **(A)** | 'Automobile' is the correct spelling. |

| **CH04-VOC-011** | **(A)** | 'London' is the correct spelling. |

| **CH04-VOC-012** | **(B)** | Cross + roads = Crossroads. |

| **CH04-VOC-013** | **(B)** | A horse-drawn carriage. |

| **CH04-VOC-014** | **(B)** | Automate + ed = Automated. |

| **CH04-VOC-015** | **(A)** | 'Brake' refers to stopping a vehicle (vs break = shatter). |

| **CH04-VOC-016** | **(B)** | 'Way' refers to path/road (vs weigh = measure weight). |

| **CH04-VOC-017** | **(B)** | 'Reassuring' fits the green light context. |

| **CH04-VOC-018** | **(B)** | Page 19 text: 'regulate the flow of automobiles'. |

| **CH04-VOC-019** | **(B)** | Commuters travel between work and home. |

| **CH04-VOC-020** | **(A)** | Collocation: "at regular intervals". |

| **CH04-VOC-021** | **(B)** | Opposite of proceed is stop/halt. |

| **CH04-VOC-022** | **(B)** | Merits means advantages or benefits. |

| **CH04-VOC-023** | **(B)** | 'Pedis' in Latin means foot (hence pedestrian = walker). |

| **CH04-VOC-024** | **(B)** | Opposite of smoothly is chaotically. |

| **CH04-VOC-025** | **(A)** | C (Carriage) -> C (Commuter) -> P (Pedestrian) -> S (Signal). |

7. Grammar & Language Skills

Question 1

Question ID: CH04-GRA-001

Type: Grammar

Difficulty: Easy

Bloom Level: Remember

Topic: Nouns - Proper Nouns

Marks: 1

Question: Identify the Proper Noun in the sentence:

"Garrett Morgan invented electric traffic lights in 1923."

- (A) electric
- (B) Garrett Morgan
- (C) traffic
- (D) lights

Question 2

Question ID: CH04-GRA-002

Type: Grammar

Difficulty: Easy

Bloom Level: Remember

Topic: Nouns - Proper Nouns

Marks: 1

Question: Identify the Proper Noun referring to a city in:

"The first traffic lights were installed in London."

- (A) traffic
- (B) lights
- (C) London
- (D) first

Question 3

Question ID: CH04-GRA-003

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Passive to Active Voice

Marks: 1

Question: Convert into Active Voice:

"The first gas traffic light was proposed by J.P. Knight."

- (A) J.P. Knight proposed the first gas traffic light.
- (B) J.P. Knight proposes the first gas traffic light.

- (C) J.P. Knight will propose the gas traffic light.
- (D) J.P. Knight is proposing the first gas traffic light.

Question 4

Question ID: CH04-GRA-004

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Active to Passive Voice

Marks: 1

Question: Convert into Passive Voice:

"Garrett Morgan invented electric traffic lights."

- (A) Electric traffic lights were invented by Garrett Morgan.
- (B) Electric traffic lights are invented by Garrett Morgan.
- (C) Electric traffic lights will be invented by Garrett Morgan.
- (D) Electric traffic lights have invented Garrett Morgan.

Question 5

Question ID: CH04-GRA-005

Type: Grammar

Difficulty: Easy

Bloom Level: Understand

Topic: Adjectives

Marks: 1

Question: Identify the Adjective in the sentence:

"Red light signaled horse carriages to stop."

- (A) light
- (B) Red
- (C) signaled
- (D) stop

Question 6

Question ID: CH04-GRA-006

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Degrees of Comparison

Marks: 1

Question: Complete the degree of comparison: **safe, safer, _____**.

- (A) more safe
- (B) safest
- (C) most safest

- (D) safed

Question 7

Question ID: CH04-GRA-007

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Degrees of Comparison

Marks: 1

Question: What is the comparative degree of the adjective **'reassuring'**?

- (A) Reassuringer
- (B) More reassuring
- (C) Most reassuring
- (D) Reassuringest

Question 8

Question ID: CH04-GRA-008

Type: Grammar

Difficulty: Easy

Bloom Level: Remember

Topic: Verbs - Past Tense

Marks: 1

Question: What is the simple past tense of the verb **'begin'** as used in the story?

- (A) Begined
- (B) Began
- (C) Begun
- (D) Beginning

Question 9

Question ID: CH04-GRA-009

Type: Grammar

Difficulty: Easy

Bloom Level: Remember

Topic: Verbs - Past Tense

Marks: 1

Question: What is the simple past tense of the verb **'come'**?

- (A) Comed
- (B) Came
- (C) Coming
- (D) Comes

Question 10

Question ID: CH04-GRA-010

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Pronouns

Marks: 1

Question: Identify the pronoun in the sentence:

"The system had so many merits that soon it was implemented worldwide."

- (A) system
- (B) it
- (C) merits
- (D) worldwide

Question 11

Question ID: CH04-GRA-011

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Prepositions

Marks: 1

Question: Choose the correct preposition:

"Traffic lights were installed outside the Houses _____ Parliament."

- (A) in
- (B) of
- (C) at
- (D) with

Question 12

Question ID: CH04-GRA-012

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Prepositions

Marks: 1

Question: Choose the correct preposition:

"Cars must stop _____ a red light."

- (A) at
- (B) into
- (C) under
- (D) through

Question 13

Question ID: CH04-GRA-013

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Conjunctions

Marks: 1

Question: Join the two sentences using a suitable conjunction:

"Traffic signals regulate car flow. They help pedestrians cross safely."

- (A) Traffic signals regulate car flow ****and**** help pedestrians cross safely.
- (B) Traffic signals regulate car flow ****but**** help pedestrians cross safely.
- (C) Traffic signals regulate car flow ****or**** help pedestrians cross safely.
- (D) Traffic signals regulate car flow ****if**** help pedestrians cross safely.

Question 14

Question ID: CH04-GRA-014

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Conjunctions

Marks: 1

Question: Complete the sentence with an appropriate conjunction:

"Earlier lights were gas-fuelled, _____ modern lights are electronic."

- (A) so
- (B) while / but
- (C) because
- (D) unless

Question 15

Question ID: CH04-GRA-015

Type: Grammar

Difficulty: Medium

Bloom Level: Understand

Topic: Adverbs

Marks: 1

Question: Identify the Adverb of manner in the sentence:

"Automated traffic lights help vehicles reach their destination timely."

- (A) traffic
- (B) vehicles
- (C) timely
- (D) destination

Question 16

Question ID: CH04-GRA-016

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Articles

Marks: 1

Question: Fill in the blank with the correct article:

"J.P. Knight was _____ British railway engineer."

- (A) a
- (B) an
- (C) the
- (D) no article needed

Question 17

Question ID: CH04-GRA-017

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Articles

Marks: 1

Question: Fill in the blank with the correct article:

"Electric traffic lights marked _____ important step forward."

- (A) a
- (B) an
- (C) the
- (D) no article needed

Question 18

Question ID: CH04-GRA-018

Type: Grammar

Difficulty: Medium

Bloom Level: Understand

Topic: Subject-Verb Agreement

Marks: 1

Question: Choose the verb that agrees with the plural subject:

"Traffic signals _____ the chances of road accidents."

- (A) reduces
- (B) reduce
- (C) was reducing
- (D) is reducing

Question 19

Question ID: CH04-GRA-019

Type: Grammar

Difficulty: Hard

Bloom Level: Analyze

Topic: Sentence Types

Marks: 1

Question: What type of sentence is: "Red light signaled carriages to stop."

- (A) Assertive / Declarative
- (B) Imperative
- (C) Interrogative
- (D) Exclamatory

Question 20

Question ID: CH04-GRA-020

Type: Grammar

Difficulty: Hard

Bloom Level: Analyze

Topic: Sentence Types

Marks: 1

Question: What type of sentence is: "Who proposed the first traffic light?"

- (A) Declarative
- (B) Interrogative
- (C) Exclamatory
- (D) Imperative

Question 21

Question ID: CH04-GRA-021

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Plurals

Marks: 1

Question: What is the plural form of the noun 'commuter'?

- (A) Commuterres
- (B) Commuters
- (C) Commuter
- (D) Commutries

Question 22

Question ID: CH04-GRA-022

Type: Grammar

Difficulty: Medium

Bloom Level: Apply

Topic: Plurals

Marks: 1

Question: What is the plural form of 'crossroads'?

- (A) Crossroad
- (B) Crossroads
- (C) Crossroadses
- (D) Crossroadians

Question 23

Question ID: CH04-GRA-023

Type: Grammar

Difficulty: Hard

Bloom Level: Analyze

Topic: Negative Sentences

Marks: 1

Question: Change into a negative sentence without changing the meaning:

"Modern traffic lights are automated."

- (A) Modern traffic lights are not manual.
- (B) Modern traffic lights are not automated.
- (C) Modern traffic lights are broken.
- (D) Modern traffic lights were old.

Question 24

Question ID: CH04-GRA-024

Type: Grammar

Difficulty: Hard

Bloom Level: Apply

Topic: Punctuation Check

Marks: 1

Question: Select the correctly punctuated sentence.

- (A) On December 10 1868 traffic lights were installed in London
- (B) On December 10, 1868, traffic lights were installed in London.
- (C) "On December 10 1868 traffic lights were installed in london."
- (D) On december 10, 1868 traffic lights were installed in London.

Question 25

Question ID: CH04-GRA-025

Type: Grammar

Difficulty: Hard

Bloom Level: Apply

Topic: Possessive Nouns

Marks: 1

Question: Choose the correct possessive form:

*"The proposal of J.P. Knight" = _____ *

- (A) J.P. Knights proposal
- (B) J.P. Knight's proposal
- (C) J.P. Knights' proposal
- (D) J.P. Knight proposal

Answer Key

| **CH04-GRA-001** | **(B)** | 'Garrett Morgan' is a Proper Noun (specific person). |

| **CH04-GRA-002** | **(C)** | 'London' is a Proper Noun (specific city). |

| **CH04-GRA-003** | **(A)** | Active Voice: J.P. Knight (Subject) proposed (Verb) the first gas traffic light (Object). |

| **CH04-GRA-004** | **(A)** | Passive Voice: Electric traffic lights (Subject) were invented by Garrett Morgan. |

| **CH04-GRA-005** | **(B)** | 'Red' describes the noun light (Adjective). |

| **CH04-GRA-006** | **(B)** | Safe -> Safer -> Safest. |

| **CH04-GRA-007** | **(B)** | Reassuring -> More reassuring -> Most reassuring. |

| **CH04-GRA-008** | **(B)** | The past tense of begin is began. |

| **CH04-GRA-009** | **(B)** | The past tense of come is came. |

| **CH04-GRA-010** | **(B)** | 'it' replaces 'The system' (Pronoun). |

| **CH04-GRA-011** | **(B)** | Prepositional phrase: 'Houses of Parliament'. |

| **CH04-GRA-012** | **(A)** | 'at' is used for stopping at a signal point. |

| **CH04-GRA-013** | **(A)** | 'and' joins two positive related facts. |

| **CH04-GRA-014** | **(B)** | 'while / but' shows contrast between past and modern lights. |

| **CH04-GRA-015** | **(C)** | 'Timely' modifies reach (Adverb of manner/time). |

| **CH04-GRA-016** | **(A)** | Indefinite article 'a' before consonant 'British'. |

| **CH04-GRA-017** | **(B)** | Indefinite article 'an' before vowel sound 'important'. |

| **CH04-GRA-018** | **(B)** | Plural subject 'Traffic signals' takes plural verb 'reduce'. |

| **CH04-GRA-019** | **(A)** | Statement of fact (Declarative). |

| **CH04-GRA-020** | **(B)** | Question ending with question mark (Interrogative). |

| **CH04-GRA-021** | **(B)** | Commuter + s = Commuters. |

| **CH04-GRA-022** | **(B)** | Crossroads stays 'crossroads' in both singular and plural. |

| **CH04-GRA-023** | **(A)** | 'Not manual' preserves the meaning of automated. |

| **CH04-GRA-024** | **(B)** | Capitalization and commas after date and city are correct. |

| **CH04-GRA-025** | **(B)** | Singular possessive: J.P. Knight's proposal. |

8. Extract & Passage Based Questions

Extract 1

> *"While moving on road we all come across the traffic signal, which turns from red to yellow to green at regular intervals. And what is the purpose of this colourful display? It is to regulate the flow of automobiles and help the pedestrians at the crossroads. This is done to reduce the chances of accidents on roads. But interestingly the traffic signals came into existence long before automobiles were invented. The idea for developing traffic signals began in the 1800s when people either walked or were driven around on horse-drawn carriages."*

Question 1

Question ID: CH04-EXT-001

Type: Extract Based

Difficulty: Easy

Bloom Level: Remember

Topic: Color Cycle

Marks: 1

Question: What colors does a standard traffic signal turn into at regular intervals?

- (A) Red to blue to white
- (B) Red to yellow to green
- (C) Orange to pink to purple
- (D) Green to yellow to blue

Question 2

Question ID: CH04-EXT-002

Type: Extract Based

Difficulty: Easy

Bloom Level: Remember

Topic: Purpose of Signal

Marks: 1

Question: According to Extract 1, what is the purpose of traffic signals?

- (A) To display street decorations
- (B) To regulate automobile flow and help pedestrians at crossroads safely
- (C) To make cars drive faster
- (D) To count vehicles

Question 3

Question ID: CH04-EXT-003

Type: Extract Based

Difficulty: Medium

Bloom Level: Understand

Topic: Historical Timeline

Marks: 1

Question: What interesting historical fact is revealed in Extract 1?

- (A) Traffic signals were invented in space.
- (B) Traffic signals came into existence long before automobiles were invented.
- (C) Automobiles were invented before roads.
- (D) Pedestrians were not allowed to walk in the 1800s.

Question 4

Question ID: CH04-EXT-004

Type: Extract Based

Difficulty: Medium

Bloom Level: Understand

Topic: Transport Mode in 1800s

Marks: 1

Question: How did people travel in the 1800s when traffic signals were first conceptualized?

- (A) On electric scooters
- (B) On foot or in horse-drawn carriages
- (C) In motor cars
- (D) By subway trains

Question 5

Question ID: CH04-EXT-005

Type: Extract Based

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 1

Question: What is the meaning of **pedestrians** in the extract?

- (A) Bicycle riders
- (B) People walking on streets
- (C) Bus drivers
- (D) Traffic police officers

Extract 2

> **"On December 10, 1868, the first gas-lit traffic lights were installed outside the Houses of Parliament in London. It was proposed by a British railway engineer, J.P. Knight. This was installed to control the traffic of horse carriages in the area and to allow pedestrians to safely cross the roads. The electric traffic lights were invented by Garrett Morgan in 1923. This marked a significant step forward in traffic management."**

Question 6

Question ID: CH04-EXT-006

Type: Extract Based

Difficulty: Easy

Bloom Level: Remember

Topic: Installation Date & Location

Marks: 1

Question: When and where were the world's first gas-lit traffic lights installed?

- (A) December 10, 1868, outside the Houses of Parliament in London
- (B) October 2, 1923, in New York
- (C) January 1, 1900, in Paris
- (D) August 15, 1868, in India

Question 7

Question ID: CH04-EXT-007

Type: Extract Based

Difficulty: Easy

Bloom Level: Remember

Topic: Engineer Identification

Marks: 1

Question: Who proposed the first gas-lit traffic lights?

- (A) Garrett Morgan
- (B) J.P. Knight
- (C) Alexander Bell
- (D) Thomas Edison

Question 8

Question ID: CH04-EXT-008

Type: Extract Based

Difficulty: Easy

Bloom Level: Remember

Topic: Electric Light Invention

Marks: 1

Question: Who invented electric traffic lights in 1923?

- (A) J.P. Knight
- (B) Garrett Morgan
- (C) Henry Ford
- (D) Wright Brothers

Question 9

Question ID: CH04-EXT-009

Type: Extract Based

Difficulty: Medium

Bloom Level: Understand

Topic: Target Traffic

Marks: 1

Question: What specific type of traffic were the 1868 London signals installed to control?

- (A) Motor cars and buses

- (B) Horse-drawn carriages
- (C) Steam locomotives
- (D) Bicycles

Question 10

Question ID: CH04-EXT-010

Type: Extract Based

Difficulty: Medium

Bloom Level: Apply

Topic: Grammar - Proper Nouns

Marks: 1

Question: Identify the two Proper Nouns in Extract 2.

- (A) traffic, lights
- (B) J.P. Knight, London
- (C) engineer, area
- (D) step, management

Extract 3

> *"Red light signaled carriages to stop as red represented caution or danger. Green meant to proceed as green was determined to be a more reassuring colour in most cultures. This system had so many merits that soon it was implemented and readily followed all over the country. Soon this system was adopted all over the world. With time the yellow colour was added to give time to commuters to get ready to move. Earlier the lights were gas-fuelled and manually controlled and it became a very tricky and strenuous job. But now we have advanced electronic automated lights at all the important places all over the world. These indeed help the traffic to move smoothly and reach their destination timely."*

Question 11

Question ID: CH04-EXT-011

Type: Extract Based

Difficulty: Easy

Bloom Level: Remember

Topic: Signal Meanings

Marks: 1

Question: Why did red light signal vehicles to stop in Extract 3?

- (A) Because red means go fast.
- (B) Because red represented caution or danger.
- (C) Because red was cheap.
- (D) Because red is bright.

Question 12

Question ID: CH04-EXT-012

Type: Extract Based

Difficulty: Easy

Bloom Level: Remember

Topic: Signal Meanings

Marks: 1

Question: Why was green chosen to mean 'proceed'?

- (A) Green was a dark color.
- (B) Green was determined to be a reassuring color in most cultures.
- (C) Green was easy to paint.
- (D) Green is the color of grass.

Question 13

Question ID: CH04-EXT-013

Type: Extract Based

Difficulty: Medium

Bloom Level: Understand

Topic: Addition of Yellow Light

Marks: 1

Question: Why was yellow added to traffic signals over time?

- (A) To give time to commuters to get ready to move.
- (B) To replace green light.
- (C) To make signals look pretty.
- (D) To turn off the system.

Question 14

Question ID: CH04-EXT-014

Type: Extract Based

Difficulty: Medium

Bloom Level: Understand

Topic: Earlier vs Modern Comparison

Marks: 1

Question: How did early traffic lights compare to modern traffic lights?

- (A) Earlier were electric; modern are gas-lit.
- (B) Earlier were gas-fuelled and manual; modern are advanced electronic automated systems.
- (C) Earlier were automatic; modern are manual.
- (D) There is no difference.

Question 15

Question ID: CH04-EXT-015

Type: Extract Based

Difficulty: Medium

Bloom Level: Understand

Topic: Vocabulary Meaning

Marks: 1

Question: What does **'strenuous'** mean in Extract 3?

- (A) Easy and quick

- (B) Requiring great effort / tiring
- (C) Cheap
- (D) Automated

Short Comprehension Questions on Extracts

Question 16

Question ID: CH04-EXT-016

Type: Extract Based (Short Answer)

Difficulty: Medium

Bloom Level: Understand

Topic: Extract 1 Analysis

Marks: 2

Question: Refer to Extract 1: Why is it surprising that traffic signals existed before automobiles?

Question 17

Question ID: CH04-EXT-017

Type: Extract Based (Short Answer)

Difficulty: Medium

Bloom Level: Understand

Topic: Extract 2 Analysis

Marks: 2

Question: Refer to Extract 2: Contrast J.P. Knight's 1868 signal with Garrett Morgan's 1923 signal.

Question 18

Question ID: CH04-EXT-018

Type: Extract Based (Short Answer)

Difficulty: Medium

Bloom Level: Understand

Topic: Extract 3 Vocabulary

Marks: 2

Question: Refer to Extract 3: Define **commuter** and explain why yellow light helps commuters.

Question 19

Question ID: CH04-EXT-019

Type: Extract Based (Short Answer)

Difficulty: Hard

Bloom Level: Evaluate

Topic: Extract 3 Benefit Analysis

Marks: 2

Question: Refer to Extract 3: How do modern automated electronic lights benefit daily road traffic compared to manual gas lights?

Question 20

Question ID: CH04-EXT-020

Type: Extract Based (Short Answer)

Difficulty: Hard

Bloom Level: Evaluate

Topic: Universal Adoption

Marks: 2

Question: Why was the 3-color traffic signal system adopted all over the world?

Additional Comprehension Questions (21 to 25)

Question 21

Question ID: CH04-EXT-021

Type: Extract Based

Difficulty: Medium

Bloom Level: Apply

Topic: Vocabulary Matching

Marks: 1

Question: Which word in Extract 3 means *****advantages or beneficial qualities*****?

- (A) Intervals
- (B) Merits
- (C) Commuters
- (D) Strenuous

Question 22

Question ID: CH04-EXT-022

Type: Extract Based

Difficulty: Medium

Bloom Level: Understand

Topic: Profession Check

Marks: 1

Question: What was J.P. Knight's job title mentioned in Extract 2?

- (A) Traffic policeman
- (B) British railway engineer
- (C) Automobile manufacturer
- (D) City mayor

Question 23

Question ID: CH04-EXT-023

Type: Extract Based

Difficulty: Hard

Bloom Level: Analyze

Topic: Cultural Significance

Marks: 1

Question: In Extract 3, why was green considered suitable for 'proceed'?

- (A) Green is bright at night.
- (B) Green was determined to be a reassuring color in most cultures.

- (C) Green meant fast.
- (D) Green is a rare color.

Question 24

Question ID: CH04-EXT-024

Type: Extract Based

Difficulty: Medium

Bloom Level: Apply

Topic: Antonym Identification

Marks: 1

Question: What is the antonym of **'manually'** in Extract 3?

- (A) Slowly
- (B) Automatically / Electronically
- (C) Tricky
- (D) Strenuously

Question 25

Question ID: CH04-EXT-025

Type: Extract Based (Short Answer)

Difficulty: Hard

Bloom Level: Evaluate

Topic: Synthesis

Marks: 2

Question: Summarize the historical transition of traffic signal power sources described across Extracts 2 and 3.

Answer Key

- | **CH04-EXT-001** | **(B)** | Red to yellow to green at regular intervals. |
- | **CH04-EXT-002** | **(B)** | Regulate automobile flow, help pedestrians, reduce accidents. |
- | **CH04-EXT-003** | **(B)** | Signals existed before cars were invented (for horse carriages in 1868). |
- | **CH04-EXT-004** | **(B)** | On foot or in horse-drawn carriages in the 1800s. |
- | **CH04-EXT-005** | **(B)** | Pedestrians = people walking on streets. |
- | **CH04-EXT-006** | **(A)** | Dec 10, 1868, outside Houses of Parliament in London. |
- | **CH04-EXT-007** | **(B)** | Proposed by J.P. Knight. |
- | **CH04-EXT-008** | **(B)** | Garrett Morgan in 1923. |
- | **CH04-EXT-009** | **(B)** | Installed to control horse carriage traffic. |
- | **CH04-EXT-010** | **(B)** | J.P. Knight and London are Proper Nouns. |
- | **CH04-EXT-011** | **(B)** | Red represented caution or danger. |
- | **CH04-EXT-012** | **(B)** | Green was reassuring in most cultures. |
- | **CH04-EXT-013** | **(A)** | Yellow was added to give commuters time to get ready to move. |
- | **CH04-EXT-014** | **(B)** | Earlier gas-fuelled/manual vs modern electronic/automated. |
- | **CH04-EXT-015** | **(B)** | Strenuous means requiring great physical effort / tiring. |

- | **CH04-EXT-016** | **Model Answer**: People usually connect traffic signals with motor cars, but they were actually invented in 1868 for horse-drawn carriages and walking pedestrians. |
- | **CH04-EXT-017** | **Model Answer**: Knight's 1868 signal was gas-fuelled and manually operated for horse carriages; Morgan's 1923 signal was electric and automated for modern traffic. |
- | **CH04-EXT-018** | **Model Answer**: A commuter is a person who travels regularly between work and home. The yellow light warns commuters to get ready to move or stop safely without abrupt braking. |
- | **CH04-EXT-019** | **Model Answer**: Modern automated lights operate continuous computer cycles without human physical labor, explosion risks, or operator fatigue, ensuring smooth, 24/7 traffic flow. |
- | **CH04-EXT-020** | **Model Answer**: Because it proved universal merit in reducing collisions, regulating traffic, providing clear color psychology, and protecting pedestrians everywhere. |
- | **CH04-EXT-021** | **(B)** | 'Merits' means advantages or beneficial qualities. |
- | **CH04-EXT-022** | **(B)** | British railway engineer. |
- | **CH04-EXT-023** | **(B)** | Green was determined to be reassuring across cultures. |
- | **CH04-EXT-024** | **(B)** | Opposite of manually is automatically. |
- | **CH04-EXT-025** | **Model Answer**: Power sources evolved from hazardous gas lamps manually lit in 1868 to clean electric power in 1923, leading to modern automated electronic micro-controlled systems today. |

9. Case & Scenario Based Questions

Scenario 1: Crossing the Busy Avenue

> Priya and her grandfather were walking to the park. They reached a busy 4-lane crossroads with heavy traffic. The pedestrian traffic light was displaying a glowing red hand (Stop) symbol, but Priya saw no cars immediately nearby and wanted to run across.

Question 1

Question ID: CH04-CAS-001

Type: Case Based

Difficulty: Medium

Bloom Level: Apply

Topic: Pedestrian Safety

Marks: 1

Question: What should Priya's grandfather advise her based on traffic signal rules?

- (A) Run as fast as possible across the road.
- (B) Wait patiently on the sidewalk until the pedestrian signal turns green, even if no cars seem close.
- (C) Cross with eyes closed.
- (D) Walk in the middle of the road.

Question 2

Question ID: CH04-CAS-002

Type: Case Based

Difficulty: Hard

Bloom Level: Evaluate

Topic: Danger Analysis

Marks: 1

Question: Why is crossing on a red pedestrian light dangerous even if no cars are visible at that second?

- (A) Roads are painted black.
- (B) High-speed vehicles can turn unexpectedly around corners or from blind spots during their green signal phase.
- (C) The signal will turn blue.
- (D) It is bad luck.

Scenario 2: The Yellow Light Dilemma

> Rahul was driving his bicycle towards an intersection. As he approached the stop line, the traffic light switched from green to yellow. Rahul was still 15 meters away from the line and had enough distance to brake safely.

Question 3

Question ID: CH04-CAS-003

Type: Case Based

Difficulty: Medium

Bloom Level: Apply

Topic: Driver Decision

Marks: 1

Question: What is the correct, safe action for Rahul to take upon seeing the yellow light?

- (A) Pedal with maximum speed to rush through before red.
- (B) Slow down smoothly and bring his bicycle to a complete stop before the stop line.
- (C) Close his eyes and ride straight.
- (D) Turn around and ride backwards.

Question 4

Question ID: CH04-CAS-004

Type: Case Based

Difficulty: Hard

Bloom Level: Evaluate

Topic: Purpose of Yellow Light

Marks: 1

Question: What misinterpretation about yellow lights causes frequent accidents at crossroads?

- (A) Drivers think yellow means "stop immediately".
- (B) Drivers wrongly view yellow as a signal to speed up rather than prepare to stop.
- (C) Drivers think yellow is for bicycles only.
- (D) Drivers think yellow means park the vehicle.

Scenario 3: Broken Traffic Lights

> Due to a sudden power outage, the automated electronic traffic signals at a major city crossroads stopped working during evening rush hour. Traffic quickly began piling up into a chaotic gridlock.

Question 5

Question ID: CH04-CAS-005

Type: Case Based

Difficulty: Medium

Bloom Level: Apply

Topic: Emergency Traffic Control

Marks: 1

Question: What manual system should the city deploy immediately to restore order, recalling pre-electric traffic management?

- (A) Cancel all roads.
- (B) Station trained traffic police officers to direct vehicles manually using hand signals and whistles.
- (C) Allow drivers to fight for space.
- (D) Turn off street lights.

Scenario 4: School Bus Safety & Zebra Crossing

> The school bus dropped off Class IV students across the street from their school gate. The road had a designated zebra crossing and a pedestrian push-button signal.

Question 6

Question ID: CH04-CAS-006

Type: Case Based

Difficulty: Easy

Bloom Level: Apply

Topic: School Road Safety

Marks: 1

Question: What sequence of steps should students follow to cross the road safely?

- (A) Run straight out from behind the parked bus into the road.
- (B) Walk to the zebra crossing, press the pedestrian button, wait for the green walk light, and cross in an orderly line.
- (C) Cross diagonally through moving cars.
- (D) Wait for 3 hours.

Scenario 5: Historical Invention Inquiry

> Ananya was preparing a school history project on urban inventions. Her teammate argued that traffic lights were invented to control speeding sports cars in the 1950s.

Question 7

Question ID: CH04-CAS-007

Type: Case Based

Difficulty: Medium

Bloom Level: Understand

Topic: Historical Fact Verification

Marks: 1

Question: How can Ananya correct her teammate using facts from Chapter 04?

- (A) Agree with the teammate.
- (B) Explain that traffic signals began in 1868 outside London Parliament for horse-drawn carriages, long before sports cars existed.
- (C) Say traffic lights were invented in ancient Egypt.
- (D) Say traffic lights are fake.

Multiple-Choice Case Scenarios (8 to 20)

Question 8

Question ID: CH04-CAS-008

Type: Case Based

Difficulty: Easy

Bloom Level: Apply

Topic: Emergency Vehicles

Marks: 1

Question: An ambulance with flashing red lights and a siren is approaching a red traffic light. What should other drivers do?

- (A) Block the ambulance.

- (B) Safely move their vehicles to the side to create a clear lane for the ambulance.
- (C) Race against the ambulance.
- (D) Honk loudly.

Question 9

Question ID: CH04-CAS-009

Type: Case Based

Difficulty: Medium

Bloom Level: Understand

Topic: Color Psychology in Safety

Marks: 1

Question: Why are warning signs on hazardous machinery painted **red** in factories, similar to red traffic lights?

- (A) Because red is a fashionable color.
- (B) Because red universally triggers human alertness and signals danger/caution.
- (C) Because red paint lasts longer.
- (D) Because red is dark.

Question 10

Question ID: CH04-CAS-010

Type: Case Based

Difficulty: Hard

Bloom Level: Evaluate

Topic: Night Road Safety

Marks: 1

Question: Why were early 1868 traffic lights lit by gas lamps at night?

- (A) To keep birds warm.
- (B) So that carriage drivers and pedestrians could clearly see signal colors in the dark.
- (C) To light up advertisements.
- (D) Gas was used to make noise.

Question 11

Question ID: CH04-CAS-011

Type: Case Based

Difficulty: Medium

Bloom Level: Apply

Topic: Commuter Habits

Marks: 1

Question: How can daily commuters contribute to smooth traffic flow during peak hours?

- (A) By lane-cutting and rushing red lights.
- (B) By following signal colors, maintaining lane discipline, and respecting pedestrian crossings.
- (C) By stopping in the middle of crossroads.

- (D) By blowing horns continuously.

Question 12

Question ID: CH04-CAS-012

Type: Case Based

Difficulty: Hard

Bloom Level: Analyze

Topic: Smart City Planning

Marks: 1

Question: Why do modern smart cities connect traffic lights to a central computer network?

- (A) To play video games.
- (B) To dynamically adjust signal timing based on real-time traffic volume and reduce gridlock.
- (C) To turn off all lights at noon.
- (D) To change signal colors to purple.

Question 13

Question ID: CH04-CAS-013

Type: Case Based

Difficulty: Medium

Bloom Level: Apply

Topic: Rainy Weather Traffic

Marks: 1

Question: During heavy rain, road surfaces become slippery. How should drivers adjust their response to traffic lights?

- (A) Drive faster on yellow lights.
- (B) Begin braking earlier when approaching yellow/red signals to avoid skidding.
- (C) Ignore traffic lights completely.
- (D) Turn off vehicle headlights.

Question 14

Question ID: CH04-CAS-014

Type: Case Based

Difficulty: Hard

Bloom Level: Evaluate

Topic: J.P. Knight's Innovation

Marks: 1

Question: Why was J.P. Knight's background as a *railway* engineer crucial to his traffic light proposal?

- (A) Railways already used semaphore arm signals and color lamps to control train traffic safely.
- (B) He owned a horse carriage factory.
- (C) He was a politician.
- (D) Railways did not use signals.

Question 15

Question ID: CH04-CAS-015

Type: Case Based

Difficulty: Easy

Bloom Level: Remember

Topic: Basic Rule

Marks: 1

Question: What does a flashing yellow traffic light usually indicate at an intersection?

- (A) Stop and turn off engine.
- (B) Proceed with caution and slow down.
- (C) Drive at maximum speed.
- (D) Road is permanently closed.

Question 16

Question ID: CH04-CAS-016

Type: Case Based

Difficulty: Medium

Bloom Level: Apply

Topic: Pedestrian Conduct

Marks: 1

Question: While walking on a road without sidewalks, on which side should pedestrians walk?

- (A) Facing oncoming traffic so they can see approaching vehicles clearly.
- (B) With their back to traffic.
- (C) In the exact middle of the lane.
- (D) With eyes closed.

Question 17

Question ID: CH04-CAS-017

Type: Case Based

Difficulty: Hard

Bloom Level: Analyze

Topic: Garrett Morgan's Legacy

Marks: 1

Question: How did Garrett Morgan's 1923 electric patent improve public safety over gas signals?

- (A) It made lights change every 5 seconds.
- (B) It introduced reliable electric automation, removing hazardous gas explosions and manual labor.
- (C) It made lights invisible.
- (D) It replaced roads with railways.

Question 18

Question ID: CH04-CAS-018

Type: Case Based

Difficulty: Medium

Bloom Level: Apply

Topic: Distracted Driving

Marks: 1

Question: A driver is looking at a mobile phone while waiting at a red light. What risk occurs when the light turns green?

- (A) The driver will save gas.
- (B) Delayed reaction time blocks traffic behind and causes sudden rear-end collisions.
- (C) The car turns into a bus.
- (D) Nothing happens.

Question 19

Question ID: CH04-CAS-019

Type: Case Based

Difficulty: Hard

Bloom Level: Evaluate

Topic: Universal System Value

Marks: 1

Question: If every city used different colors for traffic signals (e.g. Blue for stop, Pink for go), what would happen?

- (A) Travel would become fun.
- (B) Widespread confusion and frequent accidents would occur due to lack of standard rules.
- (C) Drivers would drive better.
- (D) Cars would stop needing fuel.

Question 20

Question ID: CH04-CAS-020

Type: Case Based

Difficulty: Easy

Bloom Level: Remember

Topic: Slogan Identification

Marks: 1

Question: Which slogan best promotes traffic light safety?

- (A) "Speed fast, rules don't last!"
- (B) "Follow the signal light, stay safe and bright!"
- (C) "Red means go!"
- (D) "Ignore the lights at night!"

Short Scenario Analysis Questions (21 to 25)

Question 21

Question ID: CH04-CAS-021

Type: Case Based (Short Answer)

Difficulty: Medium

Bloom Level: Apply

Topic: Real-World Scenario

Marks: 2

Question: Imagine you are helping a younger student cross a busy street. List three safety instructions you would give them based on traffic light signals.

Question 22

Question ID: CH04-CAS-022

Type: Case Based (Short Answer)

Difficulty: Hard

Bloom Level: Analyze

Topic: Comparative Case Study

Marks: 2

Question: Compare street crossing safety in 1868 (horse carriages) with street crossing safety today (modern automobiles).

Question 23

Question ID: CH04-CAS-023

Type: Case Based (Short Answer)

Difficulty: Medium

Bloom Level: Apply

Topic: Road Safety Campaign

Marks: 2

Question: Write two practical rules for school bus drivers when stopping at traffic signals with children on board.

Question 24

Question ID: CH04-CAS-024

Type: Case Based (Short Answer)

Difficulty: Hard

Bloom Level: Evaluate

Topic: Technology vs Discipline

Marks: 2

Question: Why is human discipline just as important as electronic automation in preventing traffic accidents?

Question 25

Question ID: CH04-CAS-025

Type: Case Based (Short Answer)

Difficulty: Hard

Bloom Level: Create

Topic: Safety Slogan

Marks: 2

Question: Create a 2-line rhyming safety slogan highlighting the meaning of Red, Yellow, and Green lights.

Answer Key & Solutions

| ****CH04-CAS-001**** | **** (B) **** | Wait until the signal turns green; never rush across on a red pedestrian light. |

| ****CH04-CAS-002**** | **** (B) **** | Vehicles can turn rapidly around corners during their green phase. |

- | **CH04-CAS-003** | **(B)** | If there is safe stopping distance, slow down and stop before the line. |
- | **CH04-CAS-004** | **(B)** | Speeding up on yellow instead of preparing to stop causes collisions. |
- | **CH04-CAS-005** | **(B)** | Traffic police officers using manual hand signals restore order during power outages. |
- | **CH04-CAS-006** | **(B)** | Use zebra crossing, press signal button, wait for green, cross safely. |
- | **CH04-CAS-007** | **(B)** | Correct with historical facts: Dec 10, 1868, London Parliament for horse carriages. |
- | **CH04-CAS-008** | **(B)** | Yield right-of-way safely to emergency vehicles with sirens. |
- | **CH04-CAS-009** | **(B)** | Red triggers universal psychological caution and danger awareness. |
- | **CH04-CAS-010** | **(B)** | Gas lamps illuminated colored glass signals in dark London streets. |
- | **CH04-CAS-011** | **(B)** | Adhering to signal timing and lane discipline prevents gridlock. |
- | **CH04-CAS-012** | **(B)** | Computer networks dynamically optimize signal timing based on real-time traffic volume. |
- | **CH04-CAS-013** | **(B)** | Slippery roads increase braking distance; brake earlier on yellow/red. |
- | **CH04-CAS-014** | **(A)** | Railway engineers adapted train semaphore signals to street traffic. |
- | **CH04-CAS-015** | **(B)** | Flashing yellow means proceed with caution and slow down. |
- | **CH04-CAS-016** | **(A)** | Walk facing oncoming traffic to see approaching vehicles. |
- | **CH04-CAS-017** | **(B)** | Electric automation eliminated explosive gas hazards and manual fatigue. |
- | **CH04-CAS-018** | **(B)** | Mobile distraction delays green light reaction and causes rear-end crashes. |
- | **CH04-CAS-019** | **(B)** | Standardized rules prevent international driving confusion and accidents. |
- | **CH04-CAS-020** | **(B)** | "Follow the signal light, stay safe and bright!" |
- | **CH04-CAS-021** | **Model Answer**:
1. Stand behind the curb line.
 2. Wait for the green walk signal.
 3. Look right and left while crossing on the zebra line. |
- | **CH04-CAS-022** | **Model Answer**:
- In 1868, pedestrians faced heavy horse carriages that took distance to stop. Today, pedestrians face high-speed motor vehicles, making automated light timing even more vital. |
- | **CH04-CAS-023** | **Model Answer**:
1. Stop completely behind the white line on red.
 2. Never attempt to rush through a changing yellow light with children on board. |
- | **CH04-CAS-024** | **Model Answer**:
- Automated signals provide rules, but if drivers recklessly jump red lights or ignore zebra lines, accidents will still happen. Technology requires human obedience. |
- | **CH04-CAS-025** | **Model Slogan**:
- *Red says STOP, Yellow says WAIT,
Green says GO, don't be late!* |

10. Picture & Visual Based Questions

Scene 1: Traffic Lights in Victorian London (1868)

> **Visual Description**: A black-and-white historical drawing of London in 1868 outside the Houses of Parliament. A tall iron post with a gas lantern at the top is standing at a cobblestone intersection. Horse-drawn omnibuses and carriages are stopped in front of it while pedestrians wearing top hats walk across.

Question 1

Question ID: CH04-PIC-001

Type: Picture Based

Difficulty: Easy

Bloom Level: Remember

Topic: Scene Identification

Marks: 1

Question: Which historical event from Chapter 04 is depicted in this illustration?

- (A) Garrett Morgan testing electric lights in 1923
- (B) The world's first gas-lit traffic light outside London's Parliament in 1868
- (C) The invention of the modern automobile
- (D) A train station in Paris

Question 2

Question ID: CH04-PIC-002

Type: Picture Based

Difficulty: Medium

Bloom Level: Understand

Topic: Visual Details

Marks: 1

Question: What mode of transport is shown stopped in front of the 1868 signal in the drawing?

- (A) Motor sports cars
- (B) Horse-drawn carriages and omnibuses
- (C) Electric buses
- (D) Bicycles

Question 3

Question ID: CH04-PIC-003

Type: Picture Based

Difficulty: Hard

Bloom Level: Analyze

Topic: Power Source Visual Clue

Marks: 1

Question: What visual feature on top of the 1868 signal post indicates it was fuelled by gas rather than electricity?

- (A) Solar panels

- (B) A glass gas lantern with a small flame visible inside
- (C) Heavy electric wires connecting to a generator
- (D) A battery box

Scene 2: Standard Modern 3-Color Traffic Light

> **Visual Description**: A close-up illustration of a modern 3-section traffic light signal mounted on a yellow metal arm. The top circular lamp is glowing bright RED, the middle lamp is unlit grey, and the bottom lamp is unlit grey.

Question 4

Question ID: CH04-PIC-004

Type: Picture Based

Difficulty: Easy

Bloom Level: Remember

Topic: Color Position & Meaning

Marks: 1

Question: In a standard vertical 3-color traffic light, which color is always positioned at the very top?

- (A) Green
- (B) Yellow
- (C) Red
- (D) Blue

Question 5

Question ID: CH04-PIC-005

Type: Picture Based

Difficulty: Easy

Bloom Level: Remember

Topic: Action Instruction

Marks: 1

Question: When the top RED lamp is glowing brightly as shown in the picture, what instruction does it give to drivers?

- (A) Speed up
- (B) Stop completely behind the stop line
- (C) Turn left immediately
- (D) Park the car

Question 6

Question ID: CH04-PIC-006

Type: Picture Based

Difficulty: Medium

Bloom Level: Understand

Topic: Color Sequence

Marks: 1

Question: Which lamp will glow NEXT after the red light phase ends?

- (A) The middle Yellow lamp (to get ready)
- (B) The top Red lamp again
- (C) A purple lamp
- (D) All three lamps together

Scene 3: Pedestrian Crossing at a Modern Crossroads

> ****Visual Description****: A busy 4-way city intersection. Painted white stripes (Zebra crossing) span across the road. A green walking figure icon is lit on the pedestrian pole. A group of school children with backpacks are walking safely across the white stripes while cars wait patiently behind the stop line.

Question 7

Question ID: CH04-PIC-007

Type: Picture Based

Difficulty: Easy

Bloom Level: Remember

Topic: Road Marking Identification

Marks: 1

Question: What are the thick white stripes painted on the road surface called?

- (A) Speed bumps
- (B) Zebra crossing / Pedestrian crossing
- (C) Parking lines
- (D) Railway tracks

Question 8

Question ID: CH04-PIC-008

Type: Picture Based

Difficulty: Medium

Bloom Level: Understand

Topic: Pedestrian Signal Icon

Marks: 1

Question: What illuminated symbol on the pedestrian signal pole tells the children it is safe to walk?

- (A) A red standing figure
- (B) A green walking figure icon
- (C) A blue bicycle
- (D) A yellow car

Question 9

Question ID: CH04-PIC-009

Type: Picture Based

Difficulty: Hard

Bloom Level: Analyze

Topic: Vehicle Position

Marks: 1

Question: Where are the cars stopped relative to the zebra crossing in this illustration?

- (A) On top of the zebra stripes
- (B) Safely behind the solid white stop line, leaving the zebra crossing completely clear for pedestrians
- (C) In the middle of the intersection
- (D) On the sidewalk

Scene 4: Garrett Morgan's Electric Signal (1923)

> **Visual Description**: A historical diagram of Garrett Morgan's T-shaped electric traffic signal patented in 1923. It features mechanical T-arms with electric lights that raised and lowered automatically to control multi-directional traffic.

Question 10

Question ID: CH04-PIC-010

Type: Picture Based

Difficulty: Easy

Bloom Level: Remember

Topic: Inventor Matching

Marks: 1

Question: Who is the African-American inventor associated with the 1923 electric T-shaped traffic signal shown here?

- (A) J.P. Knight
- (B) Garrett Morgan
- (C) Benjamin Franklin
- (D) George Washington

Question 11

Question ID: CH04-PIC-011

Type: Picture Based

Difficulty: Medium

Bloom Level: Understand

Topic: Shape Feature

Marks: 1

Question: What geometric shape was Garrett Morgan's early traffic signal design?

- (A) Circular ball
- (B) T-shaped pole with movable arms
- (C) Square box on the ground
- (D) Triangle

Question 12

Question ID: CH04-PIC-012

Type: Picture Based

Difficulty: Hard

Bloom Level: Analyze

Topic: Technological Step Forward

Marks: 1

Question: What major improvement did Garrett Morgan's 1923 design introduce over the 1868 London signal?

- (A) It used candles instead of gas.
- (B) It used electric power and automated mechanical arms, replacing dangerous manual gas valves.
- (C) It made no sound.
- (D) It was made of plastic.

Additional Visual & Observation Questions (13 to 20)

Question 13

Question ID: CH04-PIC-013

Type: Picture Based

Difficulty: Medium

Bloom Level: Apply

Topic: Image Captioning

Marks: 1

Question: Which caption best fits Scene 3 (Children crossing on Zebra stripes)?

- (A) Fast Cars on the Highway
- (B) Safe Pedestrian Crossing at Signalized Crossroads
- (C) Playing Games on the Street
- (D) The Broken Signal

Question 14

Question ID: CH04-PIC-014

Type: Picture Based

Difficulty: Easy

Bloom Level: Remember

Topic: Signal Light Count

Marks: 1

Question: How many distinct color lamps are present on a standard modern traffic signal head?

- (A) 2 (Red, Green)
- (B) 3 (Red, Yellow, Green)
- (C) 5 (Red, Blue, Yellow, Green, White)
- (D) 1 (Red only)

Question 15

Question ID: CH04-PIC-015

Type: Picture Based

Difficulty: Hard

Bloom Level: Analyze

Topic: Color Position Reasoning

Marks: 1

Question: Why is ****RED**** always placed at the ***top*** of vertical traffic signals worldwide?

- (A) Because red paint is heaviest.

- (B) So that color-blind drivers can identify the "STOP" signal by its top position regardless of color perception.
- (C) Because the sun shines on top.
- (D) It is an accidental choice.

Question 16

Question ID: CH04-PIC-016

Type: Picture Based

Difficulty: Medium

Bloom Level: Apply

Topic: Chronological Ordering

Marks: 1

Question: Put these 3 historical visual stages of traffic signals in order:

(1) Modern electronic automated LED signal; (2) 1868 gas-lit London signal; (3) 1923 Garrett Morgan electric T-signal.

- (A) (2) -> (3) -> (1)
- (B) (1) -> (2) -> (3)
- (C) (3) -> (2) -> (1)
- (D) (2) -> (1) -> (3)

Question 17

Question ID: CH04-PIC-017

Type: Picture Based

Difficulty: Hard

Bloom Level: Evaluate

Topic: Poster Design

Marks: 1

Question: A road safety poster shows a traffic light next to a smiling family walking safely across a street. What main idea does this poster communicate?

- (A) Traffic lights make cars go fast.
- (B) Following traffic signals protects families and saves lives.
- (C) London is a big city.
- (D) Gas lamps are pretty.

Question 18

Question ID: CH04-PIC-018

Type: Picture Based

Difficulty: Medium

Bloom Level: Understand

Topic: Yellow Light Visual

Marks: 1

Question: In an illustration showing the middle YELLOW lamp glowing, what action should approaching vehicles take?

- (A) Accelerate rapidly.

- (B) Prepare to stop safely before the intersection.
- (C) Turn off their engines immediately.
- (D) Reverse their cars.

Question 19

Question ID: CH04-PIC-019

Type: Picture Based

Difficulty: Hard

Bloom Level: Analyze

Topic: Visual Contrast - Past vs Present

Marks: 1

Question: What visual contrast is highlighted between transport in 1868 (Scene 1) and transport today (Scene 3)?

- (A) 1868 features horse-drawn carriages on cobblestones; today features motor automobiles on asphalt roads.
- (B) 1868 features airplanes; today features horses.
- (C) Both show electric cars.
- (D) Both show boats on rivers.

Question 20

Question ID: CH04-PIC-020

Type: Picture Based

Difficulty: Medium

Bloom Level: Apply

Topic: Question Framing Prompt

Marks: 1

Question: Look at Scene 3. Frame a question using the prompt **"How many..."** based on the children in the picture.

- (A) How many children are crossing the road safely on the zebra stripes?
- (B) Where is the train going?
- (C) Why is the sky blue?
- (D) Who invented paper?

Short Visual Description Tasks (21 to 25)

Question 21

Question ID: CH04-PIC-021

Type: Picture Based (Short Answer)

Difficulty: Medium

Bloom Level: Create

Topic: Visual Scene Description

Marks: 2

Question: Write a 2-sentence description of an illustration showing J.P. Knight's gas-lit traffic light outside London Parliament in 1868.

Question 22

Question ID: CH04-PIC-022

Type: Picture Based (Short Answer)

Difficulty: Medium

Bloom Level: Apply

Topic: Diagram Labeling

Marks: 2

Question: If you were drawing a labeled diagram of a modern 3-color traffic signal, list the three colors in order from top to bottom and write 1 word for each color's meaning.

Question 23

Question ID: CH04-PIC-023

Type: Picture Based (Short Answer)

Difficulty: Hard

Bloom Level: Analyze

Topic: Visual Safety Features

Marks: 2

Question: Explain how visual road markings (like zebra stripes and stop lines) work together with traffic light signals to ensure pedestrian safety.

Question 24

Question ID: CH04-PIC-024

Type: Picture Based (Short Answer)

Difficulty: Medium

Bloom Level: Create

Topic: Comic Strip Dialogue

Marks: 2

Question: Write speech bubbles for a 2-panel comic strip:

(Panel 1) Red Light talking to a speeding car: **"Stop!"**

(Panel 2) Green Light talking to a waiting car: **"Go!"**

Question 25

Question ID: CH04-PIC-025

Type: Picture Based (Short Answer)

Difficulty: Hard

Bloom Level: Evaluate

Topic: Cover Art Analysis

Marks: 2

Question: What key visual elements should be featured on the cover page of **"Chapter 04: Beginnings of Traffic Lights"** to make it informative and appealing to ICSE Class IV students?

Answer Key & Solutions

| ****CH04-PIC-001**** | **** (B) **** | **World's first gas-lit traffic light outside London Parliament in 1868.** |

| ****CH04-PIC-002**** | **** (B) **** | **Horse-drawn carriages and omnibuses are stopped in 1868.** |

| ****CH04-PIC-003**** | **** (B) **** | **A glass gas lantern with a small flame shows it was gas-fuelled.** |

- | **CH04-PIC-004** | **(C)** | Red is always at the top of a vertical traffic light. |
- | **CH04-PIC-005** | **(B)** | Glowing Red instructs drivers to stop completely. |
- | **CH04-PIC-006** | **(A)** | Red is followed by Yellow (to prepare/get ready), then Green. |
- | **CH04-PIC-007** | **(B)** | Thick white stripes = Zebra crossing / Pedestrian crossing. |
- | **CH04-PIC-008** | **(B)** | Green walking figure icon indicates safe crossing time. |
- | **CH04-PIC-009** | **(B)** | Cars stop behind the solid stop line, keeping zebra stripes clear. |
- | **CH04-PIC-010** | **(B)** | Garrett Morgan invented the 1923 electric T-signal. |
- | **CH04-PIC-011** | **(B)** | T-shaped pole with mechanical signaling arms. |
- | **CH04-PIC-012** | **(B)** | Electric power and automated mechanical arms replaced manual gas hazards. |
- | **CH04-PIC-013** | **(B)** | "Safe Pedestrian Crossing at Signalized Crossroads". |
- | **CH04-PIC-014** | **(B)** | 3 lamps: Red, Yellow, Green. |
- | **CH04-PIC-015** | **(B)** | Top position allows color-blind drivers to recognize the STOP signal immediately. |
- | **CH04-PIC-016** | **(A)** | 1868 (Gas) -> 1923 (Garrett Morgan Electric) -> Modern LED. |
- | **CH04-PIC-017** | **(B)** | Following traffic signals protects families and saves lives. |
- | **CH04-PIC-018** | **(B)** | Yellow signals drivers to prepare to stop safely. |
- | **CH04-PIC-019** | **(A)** | 1868 horse carriages on cobblestones vs modern motor cars on asphalt. |
- | **CH04-PIC-020** | **(A)** | "How many children are crossing the road safely on the zebra stripes?" |
- | **CH04-PIC-021** | **Model Answer**: A tall ornate iron post holding a gas lantern stands outside London's Parliament in 1868. Pedestrians in Victorian attire cross the cobblestone street while horse carriages wait at the red gas signal. |
- | **CH04-PIC-022** | **Model Answer**:
1. **Top**: RED (STOP)
 2. **Middle**: YELLOW (WAIT / PREPARE)
 3. **Bottom**: GREEN (PROCEED) |
- | **CH04-PIC-023** | **Model Answer**: Stop lines tell drivers where to stop so they do not block zebra stripes. Zebra stripes mark the dedicated walking path, creating a clear safe zone for pedestrians when the light is green. |
- | **CH04-PIC-024** | **Model Answer**:
- Panel 1 (Red Light)**: "Stop right there! Danger ahead!"
- Panel 2 (Green Light)**: "Clear path ahead, proceed safely!" |
- | **CH04-PIC-025** | **Model Answer**: The cover should feature a split visual comparing the 1868 gas light with a modern 3-color signal, children using a zebra crossing, historical dates (1868, 1923), and the title in bold royal typography. |
